About AWS Academy

Amazon AWS is a leading cloud services provider. AWS Academy provides technical institutions ready-to-teach cloud computing curriculum without any fees. This will help students

- **To enhance their cloud computing skills**
- **To perform hands-on experiments on AWS platform without any charge through AWS LMS.**
- **To get certificate from AWS Academy, digital certificate on Credly, leading, global open badge platform.**

Courses Offered:

1. AWS Academy Cloud Foundations
2. AWS Academy Machine Learning Foundations

AWS Academy Cloud Foundations

PREREQUISITE:
Networking, Linux, Basic concepts related to client-server architecture, Web Deployment, Data Storage

MODE OF LEARNING:
Online, Self paced

COURSE HOURS:
Approximately 30 Hours

COURSE CONTENT:

- Introduction
- Cloud Concepts Overview
- Cloud Economics and Billing
- AWS Global Infrastructure Overview
- AWS Cloud Security
- Networking and Content Delivery
- Compute and storage
- Databases
- Cloud Architecture
- Auto Scaling and Monitoring

AWS Academy Machine Learning Foundations

PREREQUISITE:
Certificate from AWS Academy on Cloud Foundations Course

MODE OF LEARNING:
Online, Self paced

COURSE HOURS:
Approximately 30 Hours

COURSE CONTENT:

- Welcome to AWS Academy Machine Learning Foundations
- Introducing Machine Learning
- Implementing a Machine Learning pipeline with Amazon SageMaker
- Introducing Forecasting
- Introducing Computer Vision (CV)
- Introducing Natural Language Processing

To,
The Vice-Chancellor,
Dharmsinh Desai University, Nadiad.

Subject: Seeking permission to **start Amazon AWS Academy** at Department of IT, Faculty of Technology, Dharmsinh Desai University, Nadiad.

Respected Sir,

Since the last few years, the IT industry has shifted from traditional server architecture to Cloud-based architecture. Amazon AWS is a leading cloud service provider; many organizations use it for different purposes. They have their academy, called Amazon AWS Academy, which links industry with academic institutions.

Cloud Computing is an Internet-based Distributed Computing. The IT department had already introduced the Distributed Computing subject in BTech-IT a few years back in the course curriculum and it is very useful to students. If our students get access to Amazon's Cloud architecture, it would become very useful in their careers. Amazon AWS Academy provides various courses with practical exposure. With the objective of providing practical exposures to cloud-based technology to students, we are planning to start this Amazon AWS academy at DDU campus with your kind permission.

There are some requirements from their side:

- Institute does not have to pay any fees for starting and running this academy. However, the institute needs to train at least 150 students per year to continue its status as an academy.
- The students and faculty will require an Internet connection and PCs to access the materials online.
- Dedicated Laboratory (with PCs and Internet) is desirable but not a mandatory requirement.

The following will be provided by the academy:

- As a member of AWS Academy, the Students and Faculties will get access to online learning material as well as a sandbox environment to carry out laboratory experiments without any fees.

If approval is granted, the following faculty members of the department will look after running the academy and training/monitoring students' progress.

Name of Faculty	Role
Dr. Vipul Dabhi	Single Point of Contact
Prof. Sandeep Suthar	Instructor
Dr. Mukesh Goswami	Instructor
Dr. Harshad Prajapati	Instructor

We request you to permit us to start this academy in the Department of Information Technology for students. If permission is granted, we have to sign a membership agreement/consent form, which is attached to this application for your reference.

Thank you,

Dr. Vipul Dabhi

MOBILE APPLICATION DEVELOPMENT

Date: 21/05/2018 to 27/05/2018

INTRODUCTION

Mobile application development is the process of making software for smart phones, tablets and digital assistants, most commonly for the Android and iOS operating systems. The software can be preinstalled on the device, downloaded from a mobile app store or accessed through a mobile web browser. The programming and markup languages used for this kind of software development include Java, Swift, C# and HTML5.

Mobile app development is rapidly growing. From retail, telecommunications and e-commerce to insurance, healthcare and government, organizations across industries must meet user expectations for real-time, convenient ways to conduct transactions and access information. Today, mobile devices—and the mobile applications that unlock their value—are the most popular way for people and businesses to connect to the internet. To stay relevant, responsive and successful, organizations need to develop the mobile applications that their customers, partners and employees demand.

To learn more about the specifics of mobile application development on either platform, read our articles on iOS app development and Android app development.

To explore mobile application development, see IBM's simple tutorial on building a voice-enabled Android-based chatbot.

ABOUT DHARMSINH DESAI UNIVERSITY

Dharmsinh Desai University (DDU) formerly known as DDIT, Founded in 1968 by respected educationist, social worker and Member of Parliament Late Shri Dharmsinh Desai. In the year 2000, it earned a status of Deemed University by Government of India, in recognition of its standards in academia. In April 2005, the Government of Gujarat declared the institution as a State University. DDU is approved by the UGC Under section 2f and 12B, accredited by NAAC, ISO certified. Its various institutes established various faculties under the roof of DDU are Management and Information Sciences, Medical, Dental, Pharmacy, Commerce, and Technology.

ABOUT FACULTY OF TECHNOLOGY

The world, as we see now would have been completely different, if not for engineering and technology. It has played an important part in making our daily lives convenient and comfortable. The mainstay of many industries, especially the manufacturing sector, it has helped in solving myriad problems by applying the principles of science. The Faculty of Technology (FoT) is an institution of higher learning in this important field of engineering and technology.

It would not be wrong to say that the FoT is the crown jewel of DDU. In fact, DDU primarily started as an engineering college (called DDIT) offering degree and diploma in Chemical Engineering in 1968. Since then, it has come a long way - adding other branches of engineering and postgraduate courses, becoming autonomous in 1990 and a deemed university in 2000, and subsequently turning into a University in 2005.

Programming in Python

Date: - 23/07/2022 to 30/09/2022

INTRODUCTION

Python is an interpreter, object-oriented, high-level programming language with dynamic semantics. Its high-level built in data structures, combined with dynamic typing and dynamic binding; make it very attractive for Rapid Application Development, as well as for use as a scripting or glue language to connect existing components together.

These days, Python is used by some of the biggest tech companies on the planet, including: Google, Amazon, Face book and Meta. The most common applications of Python include websites, automation, data visualization, and machine learning.

BCA department is offering a workshop on python so that students can have an in depth learning of python technology. It will help them compete in the modern day life challenges.

Learning Python is still worth it. Python is a versatile and in-demand language that is one of the easiest programming languages to learn. You can use Python in almost any field of software development, such as Machine Learning, Data Science, AI, Web Development, and much more.

Some web development jobs that use Python include back-end engineers, full stack engineers, Python developers, software engineers, and Dev Ops engineers.

DETAILS: At Marida village the volunteers of NSS had explained people about how important it is to keep their village clean and how they should promote Afforestation. After explaining the importance of Cleanliness, volunteers do the survey and after survey, all the volunteers started to clean and plant trees to prevent future hurling of garbage at that particular place.

Conducting Village Rallies:

NSS volunteers rallied about cleanliness in Marida Village. Rally was conducted at Marida Village and school students and kids of nearby localities joined for the same. Kids of schools at Marida were acknowledged about the same.

The motive behind the rally was to make people aware and make India clean and beautiful as told by Honorable Prime Minister Narendra Modi as on 2nd October 2016 – when Swachh Bharat Abhiyan ignited.

- Volunteers conducted 3 rallies at three different places in Marida.
- They spent about 2 hours for the rally.
- Nearly about 25 students joined for rally.

Wall painting on public walls:

NSS volunteers painted pollution and human life related art piece. The painting was designed altogether by volunteers. The motive behind the painting the wall was to aware the public about the cleanliness and mission to clean India and make it beautiful as told by Honorable Prime Minister Narendra Modi as on 2nd October 2016 – when Swachh Bharat Abhiyan ignited.

- Volunteers painted two walls which were joined together.
- They spent about 4 hours to paint and a team of 8 volunteers painted it thoroughly.
- Nearly about 100 people read and understood about pollution and importance about cleanliness.

Movie Screenings:

NSS volunteers screened pollution and human life related videos. The video was downloaded Swachh Bharat Summer Internship official website. The videos were about Toilet scheme and other campaigns led by Cleanliness ambassador Mr. Amitabh Bachchan.

The motive behind the movie screening was to make people aware and make India clean and beautiful as told by Honorable Prime Minister Narendra Modi as on 2nd October 2016 – when Swachh Bharat Abhiyan ignited.

- Volunteers screened 5 times at different places between different groups of people.
- They spent about 4 hours to show and a team of 4 volunteers worked together.
- Nearly about 30 people viewed and understood about pollution and importance about cleanliness.

Door to Door Visits:

NSS volunteers visited door to door spreading awareness about pollution and garbage. People were informed and acknowledged about the Swachh Bharat Abhiyan. People were told and strictly denied to go to farms and other empty grounds for their daily chores.

The motive behind Door to Door Visit was to make people aware and make India clean and beautiful as told by Honorable Prime Minister Narendra Modi as on 2nd October 2016 – when Swachh Bharat Abhiyan ignited.

- Volunteers visited about 47 households and conducted the awareness.
- About 168 people were sensitized.
- They spent about 3 hours and 40 minutes per household.

Door - to –Door Visits on 2nd visit

Awareness Campaigns:

People were acknowledged about the chores and daily habits. They were educated about not to go out for body processes, not to throw garbage on roads and grounds and bifurcate the garbage by three categories which are wet, dry and metallic, Recycle the garbage to its maximum etc.

The motive behind Awareness Campaign was to make people aware and make India clean and beautiful as told by Honorable Prime Minister Narendra Modi as on 2nd October 2016 – when Swachh Bharat Abhiyan ignited.

- Awareness drives conducted for 3 days at different places in Marida.
- About 230 people were sensitized.
- They spent about 3 hours per day = 12 to 13 hours.

A. COURSE OBJECTIVE

The Objective of this course is to expose students to programming of various smart devices. This will help students to use the computational power of ubiquitous smart devices to solve real world problems. This will help students to create applications which can easily reach masses.Students will be able to write code once and use the same code to create applications for different platforms.

B. DETAILED SYLLABUS

[1] Programming Framework
Introduction to Dart programming language and Flutter framework. Installation of Flutter

[2] DART - Programming
Data types, variables, operators and decision making (branching and looping)

[3] DART - Programming
Functions and classes, Nullability and Collections

[4] Dart – Programming
Asynchronous programming, concurrency and unit testing

[5] FLUTTER
Introduction to Widgets, Layouts and gestures, State management

[6] FLUTTER
Connectivity with the database and automated testing, Packages and access to REST APIs

[7] FLUTTER
Controlling smart devices (like lamp or fan) using applications developed with the Flutter framework. Deployment of the Flutter application.

C. RECOMMENDED TEXT / REFERENCE BOOKS

1) Dart Apprentice, first edition, by Jonathan Sande & Matt Galloway
2) Quick Start Guide to Dart Programming, by Sanjib Sinha, Apress
3) Beginning App Development with Flutter, by Rap Payne, Apress
4) Flutter Apprentice, by Kevin D Moore, Michael Katz and Vincent Ngo

D. COURSE OUTCOMES

At the end of the course, students should be able to:

- write programs using Dart programming language
- develop applications using Flutter framework for android, ios, macos, windows and linux

platforms

- connect to database and access REST APIs from application developed using Flutter
- write automated test cases for testing their Flutter code and be able to deploy their application on various platforms
- control smart hardware devices like lamps and fans from Flutter application

ABOUT CISCO NETWORKING ACADEMY

In 2011, the department started CISCO Local Academy Centre to run CCNA Exploration course for CISCO international certification. It helps the student to obtain value added certification for their better career. CCNA exploration course helps the students to get expertise in the field of networking and can receive international certification from CISCO. Many students have been able to get good jobs due to this program.

ABOUT COURSES

Module 1 CCNA 7: Introduction to Networks

CCNA 7: Introduction to Networks (ITN) covers the architecture, structure, functions and components of the Internet and other computer networks. Students achieve a basic understanding of how networks operate and how to build simple local area networks (LAN), perform basic configurations for routers and switches, and implement Internet Protocol (IP).

Module 2 CCNA 7: Switching, Routing, and Wireless Essentials

CCNA 7: Switching, Routing, and Wireless Essentials (SRWE) covers the architecture, components, and operations of routers and switches in small networks and introduces wireless local area networks (WLAN) and security concepts. Students learn how to configure and troubleshoot routers and switches for advanced functionality using security best practices and resolve common issues with protocols in both IPv4 and IPv6 networks.

Module 3 CCNA 7: Enterprise Networking, Security & Automation

CCNA 7: Enterprise Networking, Security, and Automation (ENSA) describes the architecture, components, operations, and security to scale for large, complex networks, including wide area network (WAN) technologies. The course emphasizes network security concepts and introduces network virtualization and automation. Students learn how to configure, troubleshoot, and secure enterprise network devices and understand how application programming interfaces (API) and configuration management tools enable network automation.

Module 1

CCNA 7: Introduction to Networks Course Resources

Course Overview

CCNA 7: Introduction to Networks (ITN) covers the architecture, structure, functions and components of the Internet and other computer networks. Students achieve a basic understanding of how networks operate and how to build simple local area networks (LAN), perform basic configurations for routers and switches, and implement Internet Protocol (IP).

By the end of the course, students will be able to:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices.
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

The 70-hour, instructor-led course is the 1st of 3 courses in the Cisco CCNA 7 curriculum. The course includes activities using Packet Tracer, hands-on lab work, and a wide array of assessment types and tools.

Module 2

CCNA 7: Switching, Routing, and Wireless Essentials Course Resources

Course Overview

CCNA 7: Switching, Routing, and Wireless Essentials (SRWE) covers the architecture, components, and operations of routers and switches in small networks and introduces wireless local area networks (WLAN) and security concepts. Students learn how to configure and troubleshoot routers and switches for advanced functionality using security best practices and resolve common issues with protocols in both IPv4 and IPv6 networks.

By the end of the course, students will be able to:

- Configure VLANs and Inter-VLAN routing applying security best practices.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Troubleshoot EtherChannel on switched networks.
- Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.
- Configure dynamic address allocation in IPv6 networks.
- Configure WLANs using a WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.

The 70-hour, instructor-led course is the 2nd of 3 courses in the Cisco CCNA 7 curriculum. The course includes activities using Packet Tracer, hands-on lab work, and a wide array of assessment types and tools.

Module 3

CCNA 7: Enterprise Networking, Security, and Automation Course Resources

Course Overview

CCNA 7: Enterprise Networking, Security, and Automation (ENSA) describes the architecture, components, operations, and security to scale for large, complex networks, including wide area network (WAN) technologies. The course emphasizes network security concepts and introduces network virtualization and automation. Students learn how to configure, troubleshoot, and secure enterprise network devices and understand how application programming interfaces (API) and configuration management tools enable network automation.

By the end of this course, students will be able:

- Configure single-area OSPFv2 in both point-to-point and multiaccess networks.
- Explain how to mitigate threats and enhance network security using access control lists and security best practices.
- Implement standard IPv4 ACLs to filter traffic and secure administrative access.
- Configure NAT services on the edge router to provide IPv4 address scalability.
- Explain techniques to provide address scalability and secure remote access for WANs.
- Explain how to optimize, monitor, and troubleshoot scalable network architectures.
- Explain how networking devices implement QoS.
- Implement protocols to manage the network.

- Explain how technologies such as virtualization, software defined networking, and automation affect evolving networks.

The 70-hour, instructor-led course is the 3rd of 3 courses in the Cisco CCNA 7 curriculum. The course includes activities using Packet Tracer, hands-on lab work, and a wide array of assessment types and tools.

The student has successfully achieved student level credential for completing CCNA Routing and Switching: Routing and Switching Essentials course administered by the undersigned instructor. The student was able to proficiently:

- Determine how a router will forward traffic based on the contents of a routing table.
- Explain how switching operates in a small to medium-sized business network.
- Use monitoring tools and network management protocols to troubleshoot data networks.
- Configure monitoring tools available for small to medium-sized business networks.
- Configure initial settings on a network device.
- Configure Ethernet switch ports.
- Implement VLANs.
- Implement static routing and RIPv2.
- Implement DHCP on a router.
- Implement network address translation (NAT).
- Implement access control lists (ACLs) to filter traffic.

Module 1

CCNA 7: Introduction to Networks Course Resources

Course Overview

CCNA 7: Introduction to Networks (ITN) covers the architecture, structure, functions and components of the Internet and other computer networks. Students achieve a basic understanding of how networks operate and how to build simple local area networks (LAN), perform basic configurations for routers and switches, and implement Internet Protocol (IP).

By the end of the course, students will be able to:

- Configure switches and end devices to provide access to local and remote network resources.
- Explain how physical and data link layer protocols support the operation of Ethernet in a switched network.
- Configure routers to enable end-to-end connectivity between remote devices.
- Create IPv4 and IPv6 addressing schemes and verify network connectivity between devices.
- Explain how the upper layers of the OSI model support network applications.
- Configure a small network with security best practices.
- Troubleshoot connectivity in a small network.

The 70-hour, instructor-led course is the 1st of 3 courses in the Cisco CCNA 7 curriculum. The course includes activities using Packet Tracer, hands-on lab work, and a wide array of assessment types and tools.

Module 2

CCNA 7: Switching, Routing, and Wireless Essentials Course Resources

Course Overview

CCNA 7: Switching, Routing, and Wireless Essentials (SRWE) covers the architecture, components, and operations of routers and switches in small networks and introduces wireless local area networks (WLAN) and security concepts. Students learn how to configure and troubleshoot routers and switches for advanced functionality using security best practices and resolve common issues with protocols in both IPv4 and IPv6 networks.

By the end of the course, students will be able to:

- Configure VLANs and Inter-VLAN routing applying security best practices.
- Troubleshoot inter-VLAN routing on Layer 3 devices.
- Configure redundancy on a switched network using STP and EtherChannel.
- Troubleshoot EtherChannel on switched networks.
- Explain how to support available and reliable networks using dynamic addressing and first-hop redundancy protocols.
- Configure dynamic address allocation in IPv6 networks.
- Configure WLANs using a WLC and L2 security best practices.
- Configure switch security to mitigate LAN attacks.
- Configure IPv4 and IPv6 static routing on routers.

The 70-hour, instructor-led course is the 2nd of 3 courses in the Cisco CCNA 7 curriculum. The course includes activities using Packet Tracer, hands-on lab work, and a wide array of assessment types and tools.

Module 3

CCNA 7: Enterprise Networking, Security, and Automation Course Resources

Course Overview

CCNA 7: Enterprise Networking, Security, and Automation (ENSA) describes the architecture, components, operations, and security to scale for large, complex networks, including wide area network (WAN) technologies. The course emphasizes network security concepts and introduces network virtualization and automation. Students learn how to configure, troubleshoot, and secure enterprise network devices and understand how application programming interfaces (API) and configuration management tools enable network automation.

By the end of this course, students will be able:

- Configure single-area OSPFv2 in both point-to-point and multiaccess networks.
- Explain how to mitigate threats and enhance network security using access control lists and security best practices.
- Implement standard IPv4 ACLs to filter traffic and secure administrative access.
- Configure NAT services on the edge router to provide IPv4 address scalability.
- Explain techniques to provide address scalability and secure remote access for WANs.
- Explain how to optimize, monitor, and troubleshoot scalable network architectures.
- Explain how networking devices implement QoS.
- Implement protocols to manage the network.

- Explain how technologies such as virtualization, software defined networking, and automation affect evolving networks.

The 70-hour, instructor-led course is the 3rd of 3 courses in the Cisco CCNA 7 curriculum. The course includes activities using Packet Tracer, hands-on lab work, and a wide array of assessment types and tools.

ANTI- TOBACCO AWARENESS

Starts on : 8/02/19 onwards

Introduction

Tobacco epidemic is one of the biggest public health threats the world has ever faced. Tobacco use is a significant public health problem worldwide and the single-most preventable risk of human health. Mass media anti-tobacco advertisements can reach large sections of the society and increase awareness about the harms of tobacco use and increase quit attempts

Contents

-Awareness about tobacco addiction
-Health Effects of tobacco.
-Methods of de-addiction

Objective of the course

To create awareness about the harmful effects of tobacco consumption.

Faculty of Dental Science in association with Department of health, Kheda District Panchayat had started a course tobacco cessation . Dr. Ajit Thakar (Epidemic medical officer) had come as chief guest and gave brief information about harmful effects of tobacco. Many first year students and Interns had taken part in Anti-tobacco speech competition and first three rankers were rewarded with gifts. Staff members and Interns had participated enthusiastically and appreciated the programme.

BUILDING PRACTICE OF YOUR DREAMS

Starts on : 21/07/19

Introduction

A lot of education and training is needed to become a dentist. Still, there is a gap between the knowledge and skills needed to provide quality dental care, and those needed to actually build a profitable dental practice. This is why dental office management is so important. Dental office management is, first and foremost, about maintaining and growing a practice where supported dentists can focus on providing the highest quality of care.

Objective of the course

To make students and faculties aware about the knowledge and skills needed to provide quality dental care, and those needed to actually build a profitable dental practice.

INTRODUCTION TO MENTAL HEALTH

Starts on : 25/07/18

Introduction

Mental health is a state of mental well-being that enables people to cope with the stresses of life, realize their abilities, learn well and work well, and contribute to their community. It is an integral component of health and well-being that underpins our individual and collective abilities to make decisions, build relationships and shape the world we live in. Mental health is a basic human right. And it is crucial to personal, community and socio-economic development.

Objective of the course

- **Understand what is meant by 'mental health'**
- **Have an understanding of some of the most common mental health problems.**
- **Understand ways in which people can manage their individual mental health to make everyday living easier.**

Course duration

30 hours

Contents

-Introduction
-Importance of mental health
-How to keep mind & body fit?
-Techniques to cope up stress

Faculty of Dental Science has started a course on MENTAL HEALTH at Faculty of Dental Science Auditorium. Dr.Aakash Shah had heartily welcomed the guest speakers. Dr.Himanshu Desai gave brief introduction about importance of mental well being in day-to-day life, along with their colleagues Ms.Sangita Chauhan and Mr.Mehul Patel they demonstrated few cases of mental illness in a realistic way. The session was very interactive and Dr.Himanshu Desai briefly answered all the queries from the students as well as faculty members very satisfactory.

PRACTICE MANAGEMENT

Starts on : 20/08/2019

Introduction

Creating a trusted dental practice takes work. Dental practice management isn't easy. The most successful practices focus on patient experience. Everything they do is aimed at making their patient's lives easier and less stressful. As, let's face it, plenty of people dread going to the dentist. From check-ups, to phone etiquette, to admin, every element of a dental practice needs to be streamlined for optimal patient experience.

Objective of the course

To help students and faculties to reach and overcome the challenges of dental practice management an set your practice up with patient experience at its heart.

Course duration

30 hours

Contents

-Factors in establishing practice
-Employment options
-Designing dental office
-Patient managenment
-Record management
-Ergonomics

REVEALING THE SECRET TO WISH FULFILMENT

Starts on : 8/03/18

Introduction

Most people believe that in order to fulfill their wishes, they must go out and use their hands to force things to their will. This is partially true, but there are **other powers at work in the universe** that can make your dreams come true as well. Also, whatever you desire must not go against what the universe sees as important for you. In other words, **what you want may not be what you need**, and the universe knows this information about you already.

Objective of the course

To make women understand the concept of wish fulfilment to help them achieve dreams and breaking the stigma of women not working for their dreams.

Course duration

30 hours

Contents

-Introdution
-Freud's method of analysis
-6 powerful wish fulfillment techniques
-Conclusion

The International Day of Yoga has been celebrated annually on June 21 since 2015. Our Honorable Prime Minister Shree Narendra Modi, in his UN address in 2014, had suggested the date of June 21, as it is the longest day of the year in the Northern Hemisphere and shares a special significance in many parts of the world. Yoga is a physical, mental and spiritual practice, which originated in India. In accordance with this spirit Faculty of Dental Science, DDU celebrated international yoga day and celebrated and arranged a course on YOGA,MENTAL AND PHYSICAL FITNESS. Meditation followed by practical session of Yoga was planned in which NSS volunteers of college participated enthusiastically.

Course Details

Effective communication is of paramount importance for students as it empowers them with the skills necessary for success in various aspects of their academic journey and future professional endeavors.

Strong communication skills aid students in expressing their thoughts, opinions, and questions in class discussions. It enhances their ability to present research findings or deliver presentations confidently.

Looking at these benefits a value-added course is offered for a week to inculcate effective communication skill in students as well as faculty members. The course incorporate various important topics as follows:

- The Science of Soft Skills
- 14 'Soft' Skills Every Expert Communicator Needs To Hone.
- Communication Skills Between Teacher and Student
- Leadership Skills for Teachers
- Paper and Patent writing
- Latex documentation and presentation with Handson.
- Social Emotional Learning (SEL) for Students and Teachers

Course Outcomes

The participants will be able to

Understand the science of soft skills

Effectively communicate with peers

Write technical reports, research papers in Latex

Understand the importance of research papers writing and patents filing.

Course Execution

Experienced faculty members from DDU, will conduct the sessions. Experts in the related field from well known university will be invited to interact with participants

The course is offered to students as well as interested faculty members to enhance the soft skills.

Course Details

Effective communication is of paramount importance for students as it empowers them with the skills necessary for success in various aspects of their academic journey and future professional endeavors.

Strong communication skills aid students in expressing their thoughts, opinions, and questions in class discussions. It enhances their ability to present research findings or deliver presentations confidently.

Looking at these benefits a value-added course is offered for a week to inculcate effective communication skill in students as well as faculty members. The course incorporate various important topics as follows:

- The Science of Soft Skills
- 14 'Soft' Skills Every Expert Communicator Needs To Hone.
- Communication Skills Between Teacher and Student
- Leadership Skills for Teachers
- Paper and Patent writing
- Latex documentation and presentation with Handson.
- Social Emotional Learning (SEL) for Students and Teachers

Course Outcomes

The participants will be able to

Understand the science of soft skills

Effectively communicate with peers

Write technical reports, research papers in Latex

Understand the importance of research papers writing and patents filing.

Course Execution

Experienced faculty members from DDU, will conduct the sessions. Experts in the related field from well known university will be invited to interact with participants

The course is offered to students as well as interested faculty members to enhance the soft skills.

Course Details

Effective communication is of paramount importance for students as it empowers them with the skills necessary for success in various aspects of their academic journey and future professional endeavors.

Strong communication skills aid students in expressing their thoughts, opinions, and questions in class discussions. It enhances their ability to present research findings or deliver presentations confidently.

Looking at these benefits a value-added course is offered for a week to inculcate effective communication skill in students as well as faculty members. The course incorporate various important topics as follows:

- The Science of Soft Skills
- 14 'Soft' Skills Every Expert Communicator Needs To Hone.
- Communication Skills Between Teacher and Student
- Leadership Skills for Teachers
- Paper and Patent writing
- Latex documentation and presentation with Handson.
- Social Emotional Learning (SEL) for Students and Teachers

Course Outcomes

The participants will be able to

Understand the science of soft skills

Effectively communicate with peers

Write technical reports, research papers in Latex

Understand the importance of research papers writing and patents filing.

Course Execution

Experienced faculty members from DDU, will conduct the sessions. Experts in the related field from well known university will be invited to interact with participants

The course is offered to students as well as interested faculty members to enhance the soft skills.

Course Details

Effective communication is of paramount importance for students as it empowers them with the skills necessary for success in various aspects of their academic journey and future professional endeavors.

Strong communication skills aid students in expressing their thoughts, opinions, and questions in class discussions. It enhances their ability to present research findings or deliver presentations confidently.

Looking at these benefits a value-added course is offered for a week to inculcate effective communication skill in students as well as faculty members. The course incorporate various important topics as follows:

- The Science of Soft Skills
- 14 'Soft' Skills Every Expert Communicator Needs To Hone.
- Communication Skills Between Teacher and Student
- Leadership Skills for Teachers
- Paper and Patent writing
- Latex documentation and presentation with Handson.
- Social Emotional Learning (SEL) for Students and Teachers

Course Outcomes

The participants will be able to

Understand the science of soft skills

Effectively communicate with peers

Write technical reports, research papers in Latex

Understand the importance of research papers writing and patents filing.

Course Execution

Experienced faculty members from DDU, will conduct the sessions. Experts in the related field from well known university will be invited to interact with participants

The course is offered to students as well as interested faculty members to enhance the soft skills.

Announces Short Term Training Program

on

INDUSTRIAL AUTOMATION - BASIC

Program Schedule:

Duration : 30 hours for Hydraulic, Pnunatic & PLC's and 18 hours for Sensorics

Program Training Contents :

- **Hydraulics**
- **Pneumatics**
- **PLC**
- **Sensorics**
- **overview of Mechatronics and Robotics**

Program Fees:

Training cost per student: **Rs. 10,000=00 (DDU STUDENTS)**

Training cost per student: **Rs. 14,000=00 (NON - DDU STUDENTS)**

Industry Persons : **Rs. 25,000=00**

Batch size: - 18

Course commencement: **Jan 2022**

HYDRAULICS

Fluid power systems employ pressurized fluids to generate, control and transmit power. It is often said that fluid power is the muscle that moves industry. The study of liquids and how they work is called *hydraulics.* You will not require an extensive education in hydraulic theory, but you must know how hydraulic pressure is created and used. Modern hydraulics is defined as the use of confined liquid to transmit power, multiply force, or produce motion. Engineers discovered that hydraulic systems needed only minimal space and weight requirements to produce high power output, and these self-lubricating systems protected the metal pipe and tube conductors from rusting.

Today, hydraulic is the most widely used means of power transmission in the world and can be found almost anywhere. There are innumerable applications in industry and day to day life. Hydraulic control systems are used in Oil and gas drilling, Agricultural equipment, Heavy construction and earth moving equipment, Mining equipment, Manufacturing, Packaging and Filling industries i.e. almost all kinds of industries.

Hydraulics laboratory at Center of Excellence occupies an area of about 80 square meters. The facility available in the laboratory include all basic equipment used in standard experiments, such as hydraulic pumps, motors and cylinders, control technology (isolator, direction, pressure and flow control valves) to name a few.

Requirements on fluid technology include basic properties of hydraulics, Set-up and function of hydraulic systems and typical components of industrial hydraulics, physical basics and their laws in fluid technology, basic symbols used in industrial hydraulics, fluids, hydraulic pumps, hydraulic motors and cylinders, Control technology (isolator, directional, pressure and flow control valves), reading, understanding and preparing circuit diagrams

The purpose of Hydraulic laboratory is developing basic understanding about the functions and properties of selected components to the set-up of hydraulic diagrams–many basics that hydraulic engineers need to know.

OBJECTIVES:

- To understand fundamental principles of Hydraulics
- To read hydraulic circuit diagrams with the help of symbols
- Understanding the construction and function of important components used in Hydraulics
- Operate, maintain and troubleshoot hydraulic systems in order to cut down time and number of service calls
- To optimize safety and reliability

TARGET:

People interested in hydraulics, personnel involved in planning, operating, maintenance and assembly, design engineers, project engineers, field representatives and technical indoor service may be benefited by undergoing the training of Industrial Hydraulics.

FACILITIES:

In Hydraulics laboratory, we have following state-of the art equipment available which are all supplied by the world leader and our Technology partner Bosch Rexroth Limited, Germany.

Equipment List:

- Mobile component carriers (DS4)
- Hydraulic power pack
- Swivel mounted load simulator
- Operating module with 3 relays/4 change-over contacts
- Operating module with 2 indicators and 1 buzzer
- Diaphragm-type hydraulic accumulator with shut-off block
- Hydraulic motor - gear motor
- Non-return valves, hydraulic pilot-controlled
- Pressure relief valves
- Check valves with coupler plug
- Throttle check valves with coupler plug
- Electronic pressure switches
- Pressure reducing valves (directly and pilot operated)
- 2-way flow control valves
- 4/2 and 4/3 Direction control valves
- Differential cylinder protective housing
- Pressure relief coupling
- 4/3 proportional directional control valve with int. elec. and load sim.

- Operating module BPS 5.2,6.1,20.0 and 21.0
- Proportional pressure relief valve
- Proportional flow control valve
- Position transducer for proportional valve
- Horizontal loading unit
- Control valve NG6 OBE
- Panel for DS4 training system with MACAS controller module
- Hydraulics Slide Rule - en

COURSE CONTENTS

Course Title : Basic Hydraulics
Course Duration : 30 Hrs.

Theory (15 Hrs.)

- **Introduction:** **1 Hrs.**

  What is Fluid power, Advantages of Fluid power, Hydraulics, Definition of industrial Hydraulics, Hydrostatics and Hydrodynamics with Applications, advantages and its limitations, Comparisons of Drives (Hydraulics Vs. Pneumatics, Electrical / Electronics & Mechanical) Applications of Hydraulics

- **Basic Concepts**: **1 Hrs.**

  Force and weight, pressure, Units of pressure, Pascal's Law, Force Multiplication, Pressure Multiplication, Displacement transmission, Flow rate and Flow law, Types of flow, Reynolds's number

- **Graphical Symbols and Hydraulic circuit Diagrams:** **1 Hrs.**

  Basic elements, commonly used symbols, Circuit symbols, Symbols for energy supply and processing unit (Power Pack), Symbols for Hydraulics energy control units (Pressure, Flow and Direction), Symbols for Energy conversion units (Actuators), Symbols for accessories

- **Functionality and Design of a Hydraulic System:** **1 Hrs.**

  Principle of Energy Conversion, Functional Groups in a Hydraulic System, Functionality of a Hydraulic System, Open and Close Hydraulic Circuits, Mechanical and Volumetric Efficiency, Overall Efficiency

- **Hydraulic Fluids:** **1 Hrs.**

  Main functions of Hydraulic fluids, Requirements of Hydraulic fluids, Types of Hydraulic Fluids, Selection of Hydraulic fluid for applications, Compressibility of Hydraulic fluids

- **Hydraulic pumps:** **2 Hrs.**

  Functions and Operating principle Hydraulic pumps, Differentiate b/w positive and non–positive displacement pumps, Characteristics of standard Hydraulic pumps, Construction and Operating principle of External and internal gear pumps, Vane pumps, Axial piston pumps, Radial piston pumps, Selection criteria of pumps, Flow rate and pump power, Efficiency

- **Hydraulic Cylinder:** **2 Hrs.**

  Operating Principle, Components of a Hydraulic cylinder, Functions of Hydraulic cylinder, Design and operation, Types of cylinder, Types of design, Technical specification, End positioning cushioning, Cylinder mounting

- **Hydraulic Motor:** **1 Hrs.**

  Functions of Hydraulic Motors, Characteristics of standard Hydraulic Motors, Selection of Hydraulic motors, Standard Motors, Gear Motor, Radial Piston Motor, Efficiency

- **Pressure control valves:** **2 Hrs.**

  Introduction, Function and operating principle of pressure relief valve, direct operated, Pressure relief valve in series and parallel, Pressure relief valve, pilot operated, Function and operating principle of pressure reducing valve, Pressure sequence valve

- **Directional Control Valves**: **1 Hrs.**

  Operation and Function, Special characteristics, Types of directional control valves, Spool design, Poppet design, Types of actuation of spools with symbols, Directional spool valves, direct operated, Directional spool valves, pilot operated, Designation of Directional control valves, Operation of solenoid, Solenoid operated valves and its symbols, Standard spool valve: G spool, E spool, J spool and H spool, Comparison of spool Vs. poppet valves

- **Flow Control Valves:** **1 Hrs.**

  Design and Function, Throttle valves, Viscosity dependent throttle valves, Types of mounting, Throttle valve independent of viscosity, Flow control valves, 2-way flow control valves, Upstream pressure compensator, Downstream pressure compensator, Applications of 2-way flow control valve, Meter-in flow control, Meter-out flow control

- **Accessories:** **1 Hrs.**

  Accumulator, Check valves, Filter Etc.

Practical (15 Hrs.):

Project 01:

HYDRAULIC PUMP CHARACTERISTIC CURVE OF VARIABLE DISPLACEMENT PUMP

Project 02:

SINGLE ROD CYLINDER / PRESSURE INTENSIFICATION

Project 03:

SINGLE ROD CYLINDER / USING 4/2 DCV (METER-IN AND METER OUT CIRCUITS)

Project 04:

APPLICATION OF 4/3 DIRECTION CONTROL VALVE (TANDEM AND CLOSED CENTRE)

Project 05:

STUDY OF HYDRAULIC MOTOR WITH 4/3 DCV

Project 06 :

HYDRAULIC ACCUMULATOR

Project 07:

RAPID SPEED / CREEP SPEED CONTROL

on

Basic PLC and its application in Hydraulics, Pneumatics, Mechatronics & Robotics

Program Details:

Two batches (Total hrs. – 30)

- **One batch - Weekdays (6 pm to 8 pm)**
- **One batch - Weekends (2 days)**
  - **Saturday (3 pm to 6pm)**
  - **Sunday (10am to 5pm)**

Program Fees:

For DDU Students: Rs. 3000/- (reduction in course fee for multiple courses)
(includes course material & access to laboratory for extra practice)

Intake: Maximum 18 per batch (First come first basis)

Last Date of registration: **13/01/2018, 5:00pm**

Course commencement: **16/01/2018 onwards**

COURSE CONTENTS

Course Title: Basics of PLC & its applications in Mechatronics & Robotics

Course Duration: 30 hrs

Theory (4 Hrs.)

- **Overview of Automation System**
  - What is Automation?
  - Role of PLC in automation system
  - What is relay & its applications
  - Scope of Automation field in present & future
  - Comparison between Automated & Manual operated systems
- **Introduction to Different Communication Protocols**
  - Ethernet
  - RS232
  - Profibus DP
- **Different type of Signals**
  - Digital Signal
  - Analog Signal
- **PLC Fundamentals**
  - Comparison of PLC & PC
  - What is a PLC?
  - How does a PLC work?
  - Applications of PLC
  - Different types of PLC's available in market
- **Programmable Logic Controller**
  - Specifications of PLC
  - Onboard/ Inline IO's
  - Memory allocation in PLC
  - What is scan time of PLC?
  - Hardware details of PLC
  - Wiring & Connection Techniques
  - Safety measures for handling the PLC
  - Diagnosis of PLC status & other hardware connected to PLC

Practical (26 Hrs)

- **Introduction to PLC Software**
  - Overview of Software at a glance
  - Hardware Configuration
  - Communication Settings for PLC
  - Procedure to build project
- **PLC Programming**
  - Building simple logic in PLC
  - Online & Offline Change
  - Overview of Different data types in PLC programming
  - Standard Format for addressing the variables
  - Standard Time formats
  - Rules for Declaration of Variable Names
  - Local & Global Variables
  - Relay Logic
  - Different between Function & Function blocks
  - Introduction to Timers/Counters/Triggers/Flipflops
  - Examples based on Timers, Counters, Flipflops & Triggers
  - Usage of Mathematical Operators, Comparators, Conversion operators, Multiplexers & Logical gates in PLC program
  - Examples based on above operators

Announces Short Term Training Program

on

INDUSTRIAL AUTOMATION - BASIC

Program Schedule:

Duration : 30 hours for Hydraulic, Pnunatic & PLC's and 18 hours for Sensorics

Program Training Contents :

- **Hydraulics**
- **Pneumatics**
- **PLC**
- **Sensorics**
- **overview of Mechatronics and Robotics**

Program Fees:

Training cost per student: **Rs. 10,000=00 (DDU STUDENTS)**

Training cost per student: **Rs. 14,000=00 (NON - DDU STUDENTS)**

Industry Persons : **Rs. 25,000=00**

Batch size: - 18

Course commencement: **Jan 2022**

COURSE CONTENTS

Course Title: Basic Pneumatics **Course Duration: 30 hrs**

Theory (10 Hrs.)

- **Introduction to Pneumatics**
  - What is Pneumatics?
  - Use of Pneumatics
  - Industrial applications of Pneumatics
  - Advantages of Pneumatics
  - Basic pneumatics components
- **Preparation of Air**
  - Functions of air service unit
  - Compressed air filteration
  - Pressure regulator
  - Compressed air lubrication
- **Pneumatics Valves**
  - Introduction
  - Direction control valves
  - Flow control valves
  - Impulse valves
  - Quick exhaust valve
  - Time delay valve
  - Logic valves
  - Vacuum engineering
- **Pneumatic Cylinders**
  - Single acting cylinders
  - Double acting cylinders
  - Design of cylinders
  - Air motors
- **Pneumatics sensors**
  - Introduction
  - Reflex nozzle
  - Back pressure sensor
- **Cascade method of circuit design**
  - Introduction
  - Cascade method
  - Circuit design using cascade method

Practicals (20 Hrs)

- **Basic Pneumatics:**
  1. Direct control of double acting cylinder
  2. Indirect control of double acting cylinder
  3. Controlling a double acting cylinder using impulse valve and 2 push buttons.
  4. Speed control of single acting cylinder-slow speed extraction and rapid retraction
  5. Position dependent control of a double acting with mechanical limit switches
  6. Sequential control of two double acting cylinders without overlapping signals
  7. Time dependent control of 1 double acting cylinder
  8. Stop control of double-acting cylinder with 5/3 direction control valve under tensile load
  9. Pressure-dependent control of 1 double acting cylinder

- **Electro Pneumatics:**
  1. Command variable control of a single- acting cylinder with spring return valve
  2. Command-variable control of double-acting cylinder with spring return valve.
  3. Holding-element control of a double-acting cylinder with impulse valves, directly controlled
  4. Holding-element control of a double-acting cylinder with impulse valves, relay
  5. Basic circuit with AND function
  6. Basic circuit with OR function
  7. Basic circuits with electric latching circuits

Induction Program

For B.Tech. FY Students

(5th October – 16th October, 2020)

Faculty of Technology

Dharmsinh Desai University

Nadiad-387001

Coordinator

Prof. Rizwan Alad

Associate Professor

Dept. of Electronics & Communication Engg.

rizwan_alad.ec@ddu.ac.in

Mo: 9898757703

Program Objective

Students' Character needs to be nurtured as an essential quality by which they would understand and fulfil responsibility as an engineer, a citizen and a human being. One will have to work closely with the newly joined students in making them feel comfortable and make them work for excellence, build relations between teachers and students with a broader view of life. It is important to assist them adjust in the new environment and inculcate the ethos of the institution.

Program Content

An 11 days induction program for the new B Tech students is organized from 5/10/2020 to 16/10/2020 before the commencement of regular classes. The program contains sessions of variety of topics ranging from life health, life style to career prospects.

Universal Human Values module will help the student to explore oneself and experience the joy of learning, stand up to peer pressure, take decisions with courage, create awareness about the relationship with colleagues and supporting staff in the hostel and department, etc. Sessions on English language will help the student for easily adopting the new medium of instructions. This will be further enhanced by special talks on communication skills. Basic Maths lectures will not lay foundation for essential engineering mathematics understanding.

Invited talks on health and life style are also included in the program. Apart from visiting entire campus, all departments and facilities of Faculty of Technology, there will be department sessions intermittently to familiarize the students to branch, technologies and advancements. **The department visits will allow the student to see the laboratories, equipments, resources and facilities available at the department for their use in future.**

Course Outcomes

The students will

Understand importance of English proficiency

Revise basic mathematics fundamentals related to engineering

Realize human values for strong and meaningful relations and stress free life

Be encouraged to adopt healthy life style and personal care

Be familiar with the campus facilities, departments and resources available for them

Program Execution

Experienced faculty members from DDU, will conduct the sessions. Experienced speakers from the relevant fields are invited for sessions on health and communication skills.

Induction Program

For B. Tech. FY Students

(30th September – 14th October, 2021)

Faculty of Technology

Dharmsinh Desai University

Nadiad-387001

Coordinator

Prof. Rizwan Alad

Associate Professor

Dept. of Electronics & Communication Engg.

Mo: 9898757703

Program Objective

Students' Character needs to be nurtured as an essential quality by which they would understand and fulfil responsibility as an engineer, a citizen and a human being. One will have to work closely with the newly joined students in making them feel comfortable and make them work for excellence, build relations between teachers and students with a broader view of life. It is important to assist them adjust in the new environment and inculcate the ethos of the institution.

Program Content

An 11 days induction program for the new B Tech students is organized from 30/09/2021 to 14/10/2021 before the commencement of regular classes. The program contains sessions of variety of topics ranging from life health, life style to career prospects.

Universal Human Values module will help the student to explore oneself and experience the joy of learning, stand up to peer pressure, take decisions with courage, create awareness about the relationship with colleagues and supporting staff in the hostel and department, etc. Sessions on English language will help the student for easily adopting the new medium of instructions. This will be further enhanced by special talks on communication skills. Basic Maths lectures will not lay foundation for essential engineering mathematics understanding.

Invited talks on health and life style are also included in the program. Apart from visiting entire campus, all departments and facilities of Faculty of Technology, there will be department sessions intermittently to familiarize the students to branch, technologies and advancements. The department visits will allow the student to see the laboratories, equipments, resources and facilities available at the department for their use in future.

Course Outcomes

The students will

- Understand need of English proficiency
- Revise basic mathematics fundamentals related to engineering
- Realize human values for strong and meaningful relations and stress free life
- Be aware of banking, finance and cybercrime
- Be encouraged to adopt healthy life style and personal care
- Be familiar with the campus facilities, departments and resources available for them

Program Execution

Around 900 newly admitted students attended the previous year program in 2020.

Experienced faculty members from DDU, will conduct the sessions. Experienced speakers from the relevant fields are invited for sessions on health and communication skills.

Induction Program

For B. Tech. FY Students

(15th September – 23rd September, 2022)

Faculty of Technology

Dharmsinh Desai University

Nadiad-387001

Coordinator

Prof. Rizwan Alad

Associate Professor

Dept. of Electronics & Communication Engg.

Mo: 9898757703

Program Objective

Students' Character needs to be nurtured as an essential quality by which they would understand and fulfil responsibility as an engineer, a citizen and a human being. One will have to work closely with the newly joined students in making them feel comfortable and make them work for excellence, build relations between teachers and students with a broader view of life. It is important to assist them adjust in the new environment and inculcate the ethos of the institution.

Program Content

A one week induction program for the new B Tech students is organized from 15/09/2022 to 23/09/2022 before the commencement of regular classes. The program contains sessions of variety of topics ranging from life health, life style to career prospects.

Universal Human Values module will help the student to explore oneself and experience the joy of learning, stand up to peer pressure, take decisions with courage, create awareness about the relationship with colleagues and supporting staff in the hostel and department, etc. Sessions on English language will help the student for easily adopting the new medium of instructions. This will be further enhanced by special talks on communication skills. Basic Maths lectures will not lay foundation for essential engineering mathematics understanding.

Invited talks on health and life style are also included in the program. Apart from visiting entire campus, all departments and facilities of Faculty of Technology, there will be department sessions intermittently to familiarize the students to branch, technologies and advancements. The department visits will allow the student to see the laboratories, equipments, resources and facilities available at the department for their use in future.

Course Outcomes

The students will

- Understand need of English proficiency
- Revise basic mathematics fundamentals related to engineering
- Realize human values for strong and meaningful relations and stress free life
- Be aware of scholarship schemes and NSS
- Be encouraged to adopt healthy life style and personal care
- Be familiar with the campus facilities, departments and resources available for them

Program Execution

Around 780 newly admitted students attended the previous year program in 2021.

Experienced faculty members from DDU, will conduct the sessions. Experienced speakers from the relevant fields are invited for sessions on health and communication skills.
