To,
The Dean,
Faculty of Technology,
D. D. University, Nadiad

Subject: Approval for organizing seminar on "Maximize the value of IEEE Xplore e-resources" under DDU IEEE Student Branch.

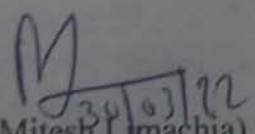

IEEE DDU SB wants to organized seminar on *Maximize the value of IEEE Xplore e-resources*. The seminar will be focused on understanding and usage of various IEEE Xplore e-resources, which helps the users to manage their projects/ research effectively and efficiently.

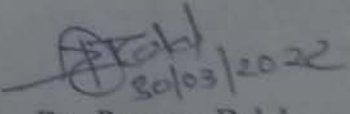

The details are as under.

Title	: Maximize the value of IEEE Xplore e-resources
Name of Speaker	: Mr. Gorakshanath Upadhyaya Sr.Training Manager, IEEE- EBSCO Information Services
Date & Time	: 8 th April-2022 & 2.00 pm to 3.30 pm.
Targeted Participants	: Students & Faculty Members of FoT branches
Venue	: Seminar Hall / Multimedia Hall

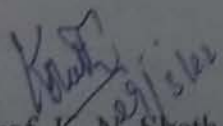

This seminar will be free of cost and does not require any financial assistance.

Kindly permit the same.

(Dr. Mitesh Limachia)
IEEE DDU SB Counsellor

Dr. Purvang Dalal
Head, EC Department

Approved

Prof. K. N. Sheth
Dean, Faculty of Technology

A Report on
IEEE DDU Student Branch Seminar
Maximize the value of IEEE Xplore e- Resource

Time: 2.00 PM to 3.30 PM
Date: 8th April 2022
Venue: Seminar Hall, FoT, DDU
Organised by: IEEE DDU SB and EC Department
Speaker: Gorakshanath Upadhyaya
Sr. Training Manager,
IEEE EBSCO Information Services

On 8th April, 2022, IEEE DDU Student Branch and EC Department organised the seminar on, **“Maximize the value of IEEE Xplore e- Resource”**.

The speaker for the event was Mr. Gorakshanath Upadhyaya from IEEE EBSCO Information Services. He demonstrated all the features and processes for getting benefits of IEEE Xplore platform so that the researchers, and scholars get maximum benefits of the platform for their projects and research work. The event was attended by the students of Second and Third Year students of EC (List is attached) , interested faculty members and Head of the Department Dr. Purvang Dalal. For the active participation four students were given prizes. The event was coordinated by Dr. Mitesh Limachia (Coordinator) and Prof. Marmik Soni (Co coordinator). Following are a few glimpses of the event.

A Report on
Seminar
Activities at R&D Center, DDU

Time: 10.30 AM to 12.30 PM
Date: 26th February, 2022
Venue: Multimedia Hall, DDU
Organised by: EC Department
Speaker: Dr. Himanshu Mazumdar
Head R&D Center and Prof. EC Dept.,
Dharmsinh Desai University

On 26th February, 2022, EC Department organised the seminar on, **“Activities at R&D Center, DDU”**.

The speaker for the event was **Dr. Himanshu Mazumdar**, Head, R&D Center, DDU. He briefed students in detail about the history of the R & D Center. He gave highlights of each project taken into hand and completed by the R&D Center over the period of time since inception. He presented the outcome of all the projects in the form of a presentation. Students were asked to interact, ask about any of the mentioned projects as well as in general about their ideas and understanding of projects with the speaker. The students also showed interest to work further at the R & D Center. Total **49 students** of Second and **14 students** of Third year attended the event. More than **15 faculties** have also attended the seminar. Students were given tea and breakfast also. The coordinator for the event was Dr. Yogesh Meghrajani and coordinator and MoC was Prof. Marmik Soni. Following are the glimpses of the event.

Webinar On AI IN E-COMMERCE AND FUTURE OF E-COMMERCE

DDU-IETE Students' Forum (IT department - Dharmsinh Desai University, Nadiad) has organized expert webinar on 'AI IN E-COMMERCE AND FUTURE OF E-COMMERCE', dated on 03rd July, 2021. Expert was invited from Brainvire Infotech Pvt. Ltd. - Ahmedabad. Around 63 students of various departments (CE/IT) and faculty members had attended the webinar, and obtained theoretical and practical knowledge. Moreover, the webinar session was very informative in the field of IT/Computer science field. It would really help students with excellent knowledge in the field of E-Commerce.

Experts Details:

Company Name : Brainvire Infotech Pvt. Ltd. - Ahmedabad

Expert Name: Mr. Kalarav R. Vasavada

Designation: Delivery Manager

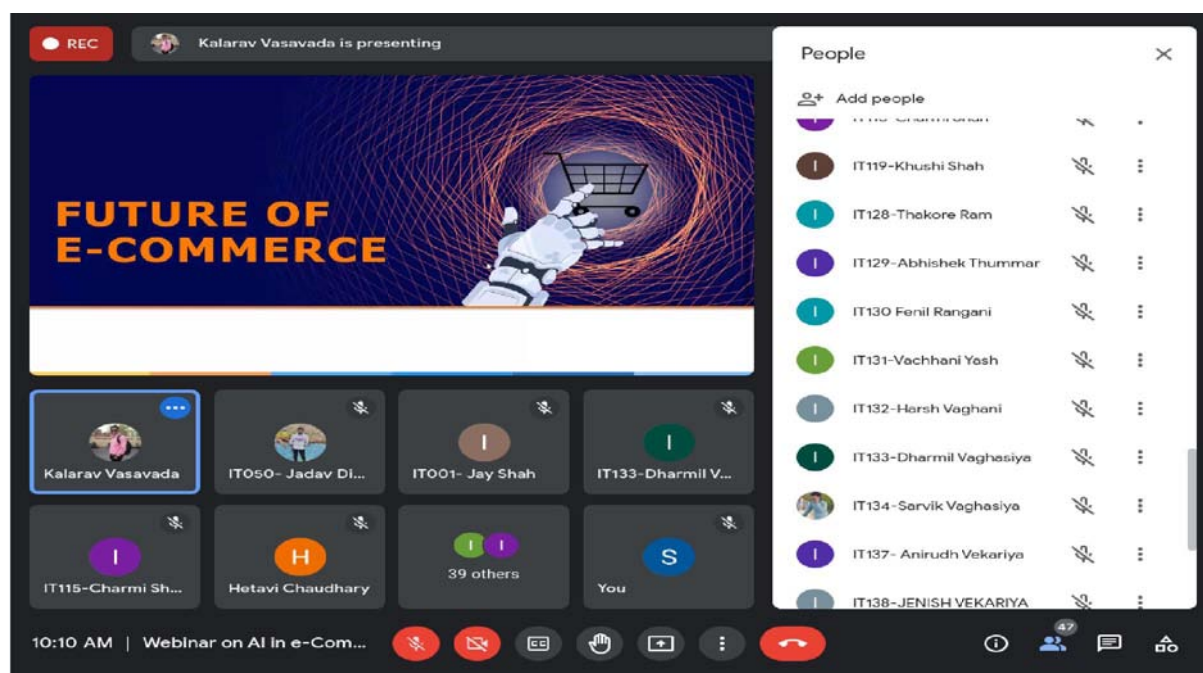

Experience: 14+ Years

Topic: AI in E-Commerce and Future of E-Commerce

Highlights of the Webinar:

- Hype around AI in Retail
- How AI helps in Customer Acquisition & Retention
- Data Generation & Tagging
- Data Driven Decision making
- AI Product Discovery

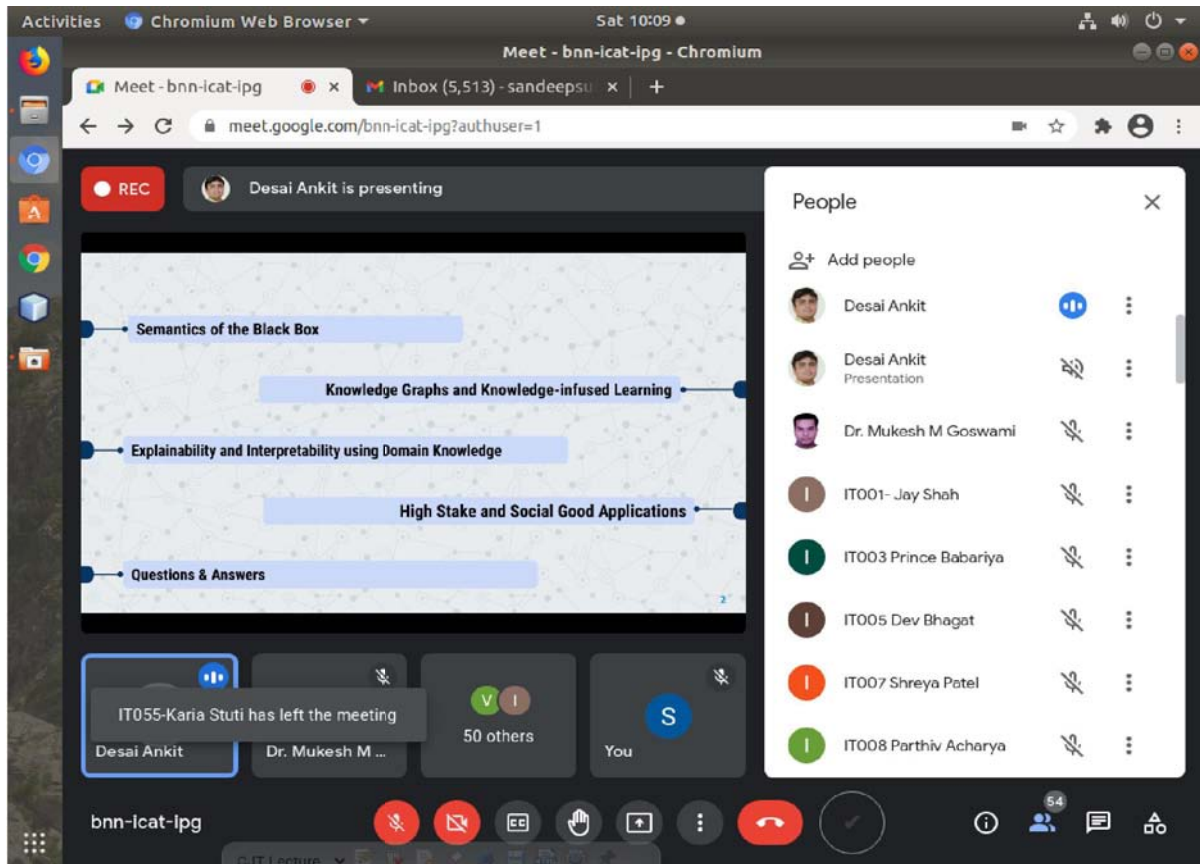

Figure 3: Mr. Ankit is Presenting and explaining the concept.

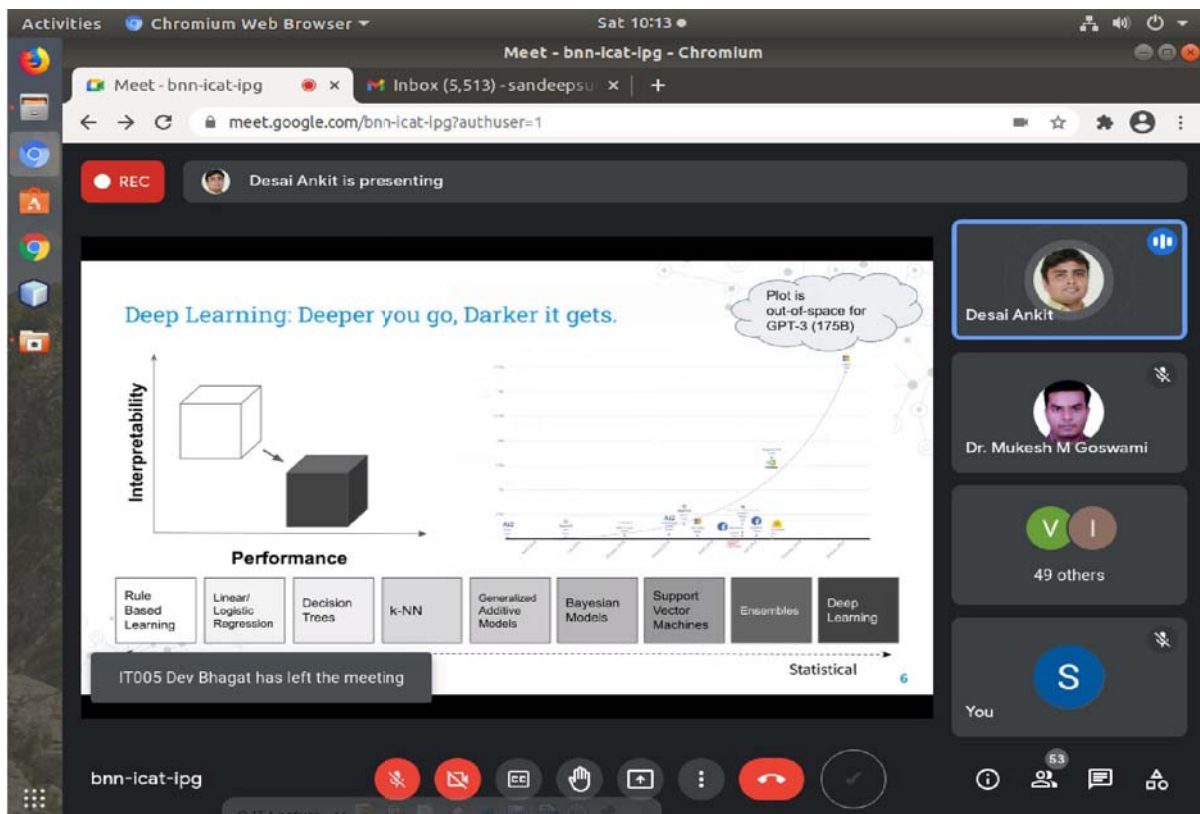

Figure 4: Webinar Screenshot

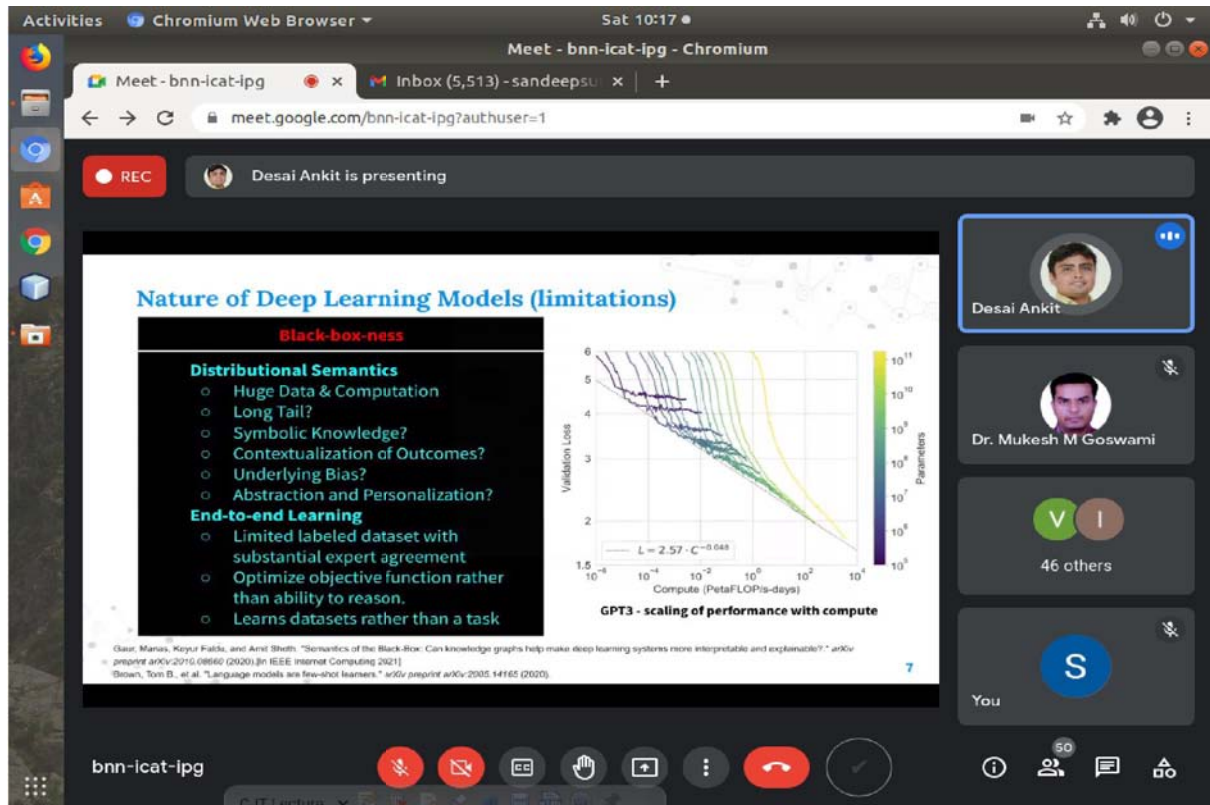

Figure 5 : Webinar Screenshot

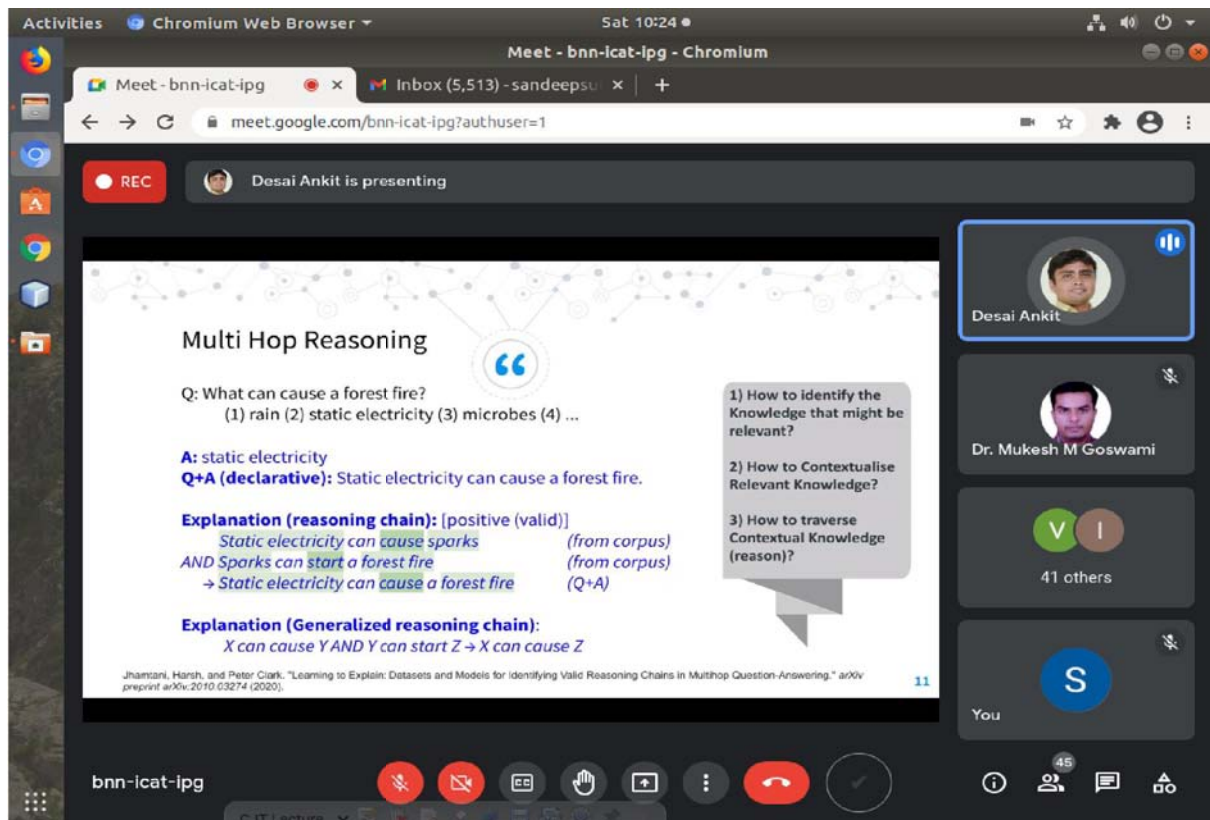

Figure 6 : Webinar Screenshot

The screenshot shows a Google Meet interface with a presentation slide titled "Predictions vs Symbolic Knowledge". The slide compares two approaches to answering the question "Who was the 44th President of the United States of America?".

- With KG and limited data:** Shows a profile of Barack Obama with a list of facts (born August 4, 1961, 44th U.S. President, etc.). An arrow points to the question, and the answer is "Barack Obama, Explain Why? See Info box or equivalently see KG. Who Succeeded? Who Preceded? Term?".
- Without KG:** Shows a box for "GPT-3, ~175 Billion Parameters". An arrow points to the question, and the answer is "Barack Obama (71%), Donald Trump (18%), ... Explain Why?".

The right sidebar shows participants: Desai Ankit, Dr. Mukesh M Goswami, and 38 others. The bottom status bar shows "bnn-icat-ipg" and various meeting controls.

Figure 7 : Webinar Screenshot

The screenshot shows a Google Meet interface with a presentation slide titled "Statistical Learning - Knowledge Representation". The slide discusses Graph Convolutional Networks (GCN) and Knowledge Representation.

- Graph Convolutional Network Ignores Relations:** A diagram shows "COVID19 Tweets" being processed by "Graph Convolutional Neural Network Training" to produce "Only Entity Embedding". A question "Q: Is similar, <Shelter in place causes anxiety> or <Shelter in place prevents anxiety>" is asked, with the answer "Yes".
- Hence, we concatenate Entity and Relation embedding to make the model attend to specific relations in a particular domain.** A diagram shows "COVID19 Tweets" being processed by "Tensor Factorization Models (e.g. TransE)" to produce "Relation Embedding". This is then combined with "Entity Embedding" to produce "Concatenating Embedding of Content and Relations". A question "Q: Is similar, <Shelter in place causes anxiety> or <Shelter in place prevents anxiety>" is asked, with the answer "No".
- Relationship at the heart of semantic web [Sheth 2004]** and **Modeling Relational Data with Graph Convolutional Networks [Schlichtkrull, 2018]** are cited.

The right sidebar shows participants: Desai Ankit, Dr. Mukesh M Goswami, and 34 others. The bottom status bar shows "bnn-icat-ipg" and various meeting controls.

5. On the occasion for celebration of World Oral Health Day, Department of Public Health Dentistry FDS DDU conducted an Oral Health Awareness Drive. This drive was organized under the leadership of our respected Dean Dr. Hiren Patel and HOD of (Public Health Dentistry) Dr. Heena Pandya. The drive was carried out from 19/03/2022 to 27/03/2022 under the guidance of Dr. Deesha Chaya and Dr. Harita Shah. During this session public awareness, education programs and oral health check up camps were organized at different places so as to benefit community at various levels. The detailed description of it is given below.

Oral health awareness program was organized at a public place to benefit large group of local population on 19/03/2022 to 21/03/2022.

01 CAMPUS RECRUITMENT TRAINING BY Mr. ALOK SHAH

IICHe DDU SC conducted a cardinal workshop on Campus Recruitment Training associated with GATE FORUM. This workshop was divided into 4 sessions that started on 20/07/21 and ended on 23/07/21. It was an online event carried out using platforms like Google Meet. To kickstart the academic year 2021, IICHe DDU SC conducted a mega workshop in association with GATE FORUM for students in their final & pre-final years. This mega workshop was open for the students of all the branches studying at DDU. This session was conducted by one of the most brilliant, experienced, and knowledgeable speakers of all time Mr. Alok Shah. a total of 303 students participated in the event.

The poster is for a workshop titled "Campus Recruitment Training" for 5th Sem onwards for all branch students. It is presented by IICHe DDU SC in association with GATEFORUM. The speaker is Mr. Alok Shah, an experienced mechanical engineer and educator. The poster includes a table with the following details:

HRS	DATE	TOPICS	TIME
1	20/7/2021	General Aptitude Tips & Tricks	8:30 AM TO 9:30 AM
1.5	21/7/2021	Group Discussion & Personal Interview	12:30 PM TO 2PM
1.5		Resume Building	2:30 PM TO 4 PM
1	23/7/2021	Technical Interview Questions Discussion	8:30 AM TO 9:30 AM

02 SEMINAR ON HOW TO PREPARE A STATEMENT OF PURPOSE FOR STUDYING ABROAD

On 14th August, IICHe DDU SC conducted a seminar for the students who are willing to go abroad but face many qualms. This LIVE session was taken by Neha Agrawal, she is the founder of WiseUp communications and an alumnus of NTU Singapore. This session was vital for those planning to go for higher educational studies abroad. This session covered all the essential topics to be kept in consideration for the student's interest to go abroad.

The poster is for a seminar titled "Seminar on How to prepare statement of purpose for studying in abroad". It is presented by the Department of Chemical Engineering, IICHe DDU SC. The speaker is Neha Agrawal, Founder of WiseUp Communications and an Alumnus of NTU Singapore. The seminar is scheduled for August 14, 2021, from 5pm to 6pm, and will be held on Cisco Webex. A photo of Neha Agrawal is included. Contact information for more details is provided, including phone numbers for Dhruv and Viren, and social media links for WiseUp Communications and IICHe DDU SC.

03 CHEM-O-STORM

‘CHEM-O-STORM’ was an erudite event solely staunched for the chemical engineering undergraduates across colleges in Gujarat. CHEMO-STORM was conducted on 26/02/2022 to 27/02/2022. The event was outlined in such a way that each participant was tested with questions based on their academic level. A total of We welcomed the contestants of all semesters (1st, 2nd, 3rd, 4th, 5th, 6th, and, 7th) to encounter this stormy event. A total of 252 students participated in the event across Gujarat. The event had 3 tweaking rounds:

I. Brain Fest.

This Round was designed for each semester to scrutinize their ability to solve 20 MCQs within the given time constraints on the chemical engineering topics. A total of 30 contestants were shortlisted, which later on competed in teams in the 2nd round.

II. Fortune Spin.

The contestants have been divided into 5 teams of six participants arbitrarily. Each team embraced 3 contestants from the 1st year, 2 contestants from the 2nd year, and 1 contestant ant from the 3rd year. The bottle was rotated on a virtual platform and each team was provided with a set of topics of chemical engineering or chemistry which will be pointed out by the neck of the bottle. Each topic has a set of questions that need to be answered within given time constraints. Out of a total of 6 teams, two teams (12 contestants) were finalized for the 3rd round on the grounds of their performance.

III. Spy's Investigation.

Participants were provided with 5-6 topics on which they have to present and explain the selected case study verbally. Out of those 12 participants, the 3 most convincing, logical, and knowledgeable participants were declared as winners.

04 निर्माण

IICChE DDU SC conducted a two-day erudite event निर्माण. It was focused to mould the students in all 4 dimensions that are Scrutinization, Communication, Analytics, and Presentation. The event was divided into 4 sessions i.e. Group discussion, Personal interview, Resume building, and General aptitude. It was an online event carried out on the Google Meet platform from 20/06/2022, Monday to 21/06/2022, and Tuesday. A total of 384 students across the university participated in this event.

Report of Session on "Breathing Practices(Pranayama)"

Date : 28-10-2021

Duration : 8.30 to 9.30 a.m.

Venue : Seminar Hall of DDU.

Speaker: 1) **Ms. Parul Mistry** (Gujarat Rajya Yoga Board designated Yoga Teacher, Nadiad)

Faculty Coordinator: Prof. H. M. Patel & Prof. M. V. Shah

A yoga session was arranged for MCA & MBA students.

The objective of this session is to increase the intake of oxygen by improving our breathing techniques in pandemic.

Breathing Practice by Pranayam is the Yogic Exercise of focusing on Breath. In Sanskrit, 'Prana' means "Vital Life Force", and 'Yama' means to gain control. In Yoga, Breath is associated with the Prana, thus, Pranayama is a means to elevate the Prana Shakti, or Life Energies. Pranayama is described in Spiritual texts like the Bhagavad Gita and the Yoga Sutras of Patanjali

The session was delivered by Ms. Parul Mistry which covered the following topics:

- How to use yoga in day to day life.
- Nadi Shodhana Pranayama (Alternate-Nostril Breathing)
- Kumbhaka Pranayama (Breath Retention)
- Kapalabhati Pranayama (Breath of Fire or Skull-Shining Breath).
- She gave tips for improving your eyesight, decrease the eyesight number.

44 students and 13 faculty members of MCA & MBA department participated in this session.

4	Resource Person	Dr. Digvijaysinh Rana, Associate Professor, Department of Pharmacology, Krishna School of Pharmacy (Formerly known as Babaria Institute of Pharmacy) Vadodara.

Programme/Event Summary

As a part of celebration of National Youth Day, also known as Vivekananda Jayanti, motivational talk on Inspirational life of Swami Vivekananda was organised where the talk was delivered by Dr. Digvijaysinh Rana sir, Associate Professor in Department of Pharmacology in Krishna School of Pharmacy and research (Formerly known as Babaria Institute of Pharmacy) Vadodara. In the webinar, Dr. Rana talked about various incidents from the life of Swami Vivekanand, teaching students values like love towards country, dedication, focus, concentration, selflessness, thinking for the people etc.

The incidents from the life of swami Vivekananda was highly motivated and inspiration for the students about life skill development, facing challenges, human values and responsibilities of person towards society.

Dr. Nishit Soni began his career in dentistry at the GDCH, Ahmedabad, graduating in 2003. He completed MDS in Oral Pathology from same institute in 2006. He began his academic carrier in oral pathology at K M Shah Dental College & Hospital in 2006. He has several scientific presentations and publications to his credit in both National & International journals. He has actively participated in various workshops, symposiums, conferences organized throughout the country. After 9 years of academic teaching he has been practicing full time at his private clinic in Ahmedabad.

Dr H.M. Desai Tobacco Deaddiction Centre, Faculty Of Dental Sciences, DDU celebrated 4th February, 2022 as World Cancer Day by organizing free oral cancer screening for all the patients. The interns of our college performed a flash mob, creating awareness amongst the general population. Dr Kevin Parikh conducted a lecture on oral cancer for our students. Our esteemed guests Shri R.K. Jain and Dr Hiren Patel graced the occasion with their presence.

3. Department of Periodontics, Faculty Of Dental Science, DDU in association with Indian Society of Periodontology organized “SELFIE AND REEL CONTEST” on the occasion of World oral health day, on 20th March 2022 for the students.

BEST SELFIE CONTEST

REEL MAKING CONTEST

Name of Event	Yoga Camp
Date	19/05/2022 & 20/05/2022
Details	<p>A certain day for yoga was introduced to raise awareness worldwide about the importance and impact of yoga on the health of people. Yoga is derived from the Sanskrit word "Yuja," which means "to unite," and refers to the integration of body and mind. It is an ancient type of mental, physical, and spiritual exercise that aids in mental and physical fitness. Yoga is an ancient Indian discipline that stretches back to pre-vedic times.</p>

Subject: Approval for organizing 3 Days workshop on under DDU IEEE Student Branch.

Respected Sir,

Department of Electronics & Communication Engineering is planning to organize the technical workshop for the 2nd & 3rd Year UG students of different Engineering colleges.

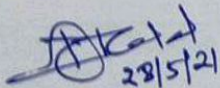

The workshop details are as under.

Title : **MATLAB-Simulink Basics and LTE/5G System implementation**
Duration & Time : June 10 -12, 2021
Mode of Execution : Online –Google Meet
Expected Participants : 50
Program Coordinators: Prof. Hardip K. Shah & Prof. Keyur M. Patel
Registration Fees : Free for All

The sessions will be conducted by the experts from Mathworks–Designtech (Ahmedabad), Reliance Jio (Mumbai) and the subject experts of the Department.

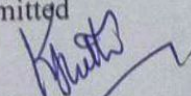

No financial support is required for organizing this workshop.

Kindly permit.

(Dr. Purvang D. Dalal)
Head, EC Department

Permitted

(Prof. K. N. Sheth)
Dean, Faculty of Technology

A Report

On

MATLAB-Simulink Basics and LTE/5G System Implementation

(10th June to 12th June, 2021)

The 3 days on-line workshop is **organized** by Department of Electronic & Communication, FoT, Dharmsinh Desai University, Nadiad and DDU IEEE student branch for B.Tech. Sem-IVth and VIth (EC) students of various institutes of India with the following objectives.

- To make students familiar with MATLAB Programming,
- To learn model based programming using Simulink,
- To learn MATLAB tool boxes – Signal Processing and Communication, LTE & 5G, Coder
- To learn FPGA implementation on Xilinx board using Vivado.

Registration Fee :Nil

Number of Participants :102

Following Experts and Senior faculty members of the department delivered the sessions:

Mr. Gaurav Dalwadi Reliance Jio Infocomm Ltd, Mumbai.	Mr. Suraj Senior Application Engineer, DesignTech System Ltd, Pune.
Mr. Prakash Ganesh Lead Application Engineer CoreEL Technologies, Bangalore	Dr. Hardip k. Shah Professor, EC. DDU, Nadiad
Mr. Dhiraj Jagtap Application Engineer – MathWorks MATLAB & Simulink, DesignTech System Ltd, New Delhi.	Dr. Mitesh J. Limachia Assistant Professor, EC DDU, Nadiad
Mr. Manoj Kumar Application Engineer, New Delhi.	Prof. Keyur M. Patel Assistant Professor, EC DDU, Nadiad

The experts covered the following points with hands on training:

- 1) Basics of MATLAB : MATLAB window, basic commands, use of variables with values, arrays, basic trigonometric functions, etc.
- 2) Function in MATLAB: defined, declared and used of the user defined functions.
- 3) Plot the graphs for given variable and check given system performance.
- 4) Live Script editor: It is used for series of MATLAB commands in a single interactive environment. Rn section in live script, create live script functions, etc. was explained.
- 5) Simulink: It is used to model the system and then simulates the dynamic behaviour of the system. Control system tools were used to simulate simple PID feedback control system.
- 6) Hardware support packages: It covered how to install third party hardware and used for small projects. Arduino, Xilinx, Android, STMicroelectronics, Keysight can be connected to MATLAB and through Simulink functionality we can implement good projects. For this Mathwork account is required.
- 7) Tool boxes: It covered hoe to use different toolboxes link LTE/5G tollbox coder toolbox and SPC tool box.
- 8) High Power amplifier: It covered different types of power amplifier their design and its application in 5G system with its performance parameters

Glimpse of Workshop

Google Meet interface showing a presentation slide titled "You're presenting to everyone". The slide includes a "Stop presenting" button. The meeting details panel on the right shows the meeting name "Online Class" and the link for attendance of morning session (12-09-2021). The participant list on the left includes searchb Mart, Dhruv Kothiga, Garav Dalwadi, Online Class, RAKSH, Dr. Hardip Shah, E, and E. The bottom status bar shows the meeting duration as 03:03:11.

Power Amplifier - Definition

In small-signal amplifiers the main factors are:

- Amplification
- Linearity
- Gain

Since large-signal, or power amplifiers (PA) handle relatively large voltage signals and current levels, the main factors are:

- Efficiency
- Maximum power capability
- Impedance matching to the output device

WORKSHOP SCHEDULE

Applications of Machine Learning in Wireless Communications & Computer Vision

Dates : June 24 - 26, 2021

		Topic	Expert	Duration	TIME (24 Hrs format)
		Welcome and Objective of the Workshop		15 Min	2:15 pm to 2:30 pm
Day 1 24-6-21	Session 1	Introduction to Machine Learning	Prof. Hetal Shah	1 Hr	2:30 - 3:30 pm
	Session 2	Introduction to Neural Network & Deep Learning	Prof. Shital Thakkar	1 Hr	3:30 - 4:30 pm
	Break				
	Session 3	Lab Session		2 Hrs	6 :00 - 8:00 pm
Day 2 25-6-21	Session 4	Introduction of Image Processing Techniques	Prof. Shital Thakkar	1 Hr	2:30 - 3:30 pm
		Interaction with Industry			3:30 - 3:50 pm
	Session 5	Applications of ML in Computer Vision	Prof. Shital Thakkar	1 Hr	3:50 - 4:50 pm
	Break				
	Session 6	Lab Session	2 Hrs	14:30 - 16:30	6 :00 - 8:00 pm
Day 3 26-6-21	Session 7	Introduction to Wireless Communications	Dr. Vinay Thumar	1 Hr	10: 00-11:00 am
		Interaction with Industry			11: 00-11:20 am
	Session 8	Signal Detection and Channel Estimation using Machine Learning	Prof. Hetal Shah	1 Hr	11: 20-12:20 pm
	Break				
	Session 9	Lab Session		2 Hrs	1:30 - 3.30 pm
		Feedback and Closing		30 Min	3:30 – 4:30 pm

Feedback Form for a 3-Day (Online) Workshop on "Applications of Machine Learning in Wireless Communications and Computer Vision "

Dear Faculties/Students,

Thank you for participating in this workshop. We hope this activity will create interest to learn further.

We want to hear your honest feedback so we can improve our further activities accordingly. Please answer each question and let us know your thoughts (your answers will be anonymous).

***Required**

1. How well the course content was covered? *

Mark only one oval.

- ☐ Excellent
- ☐ Very Good
- ☐ Good
- ☐ Fair
- ☐ Poor

2. Has the session organized in a right length of time? *

Mark only one oval.

- ☐ Yes
- ☐ No
- ☐ May be

3. Did the workshop build required foundation to take up activities further in the subject? *

Mark only one oval.

- ☐ Yes
- ☐ To some extent
- ☐ No

4. How was the clarity of the communication? *

Mark only one oval.

- ☐ Excellent
- ☐ Very Good
- ☐ Good
- ☐ Fair

Very nice experience 👍👍

Overall good

Great experience!! Many things I have learnt from this course.

Practical session on Day1 and Day3 could have been more basic.

Good to have more lab sessions

It was very good seminar of machine learning, we learn so many things from this seminar.

Nice workshop and please provide lab work videos iff possible

Nothing much, workshop was masterpiece

It was a great workshop but as it was a new topic to me so I found it a bit difficult so it

A Report
On
Applications of Machine Learning in Wireless Communications &
Computer Vision
(24th June to 26th June, 2021)

The 3 days on-line workshop is **organized** by Department of Electronic & Communication, FoT, Dharmsinh Desai University, Nadiad and DDU IEEE student branch for B.Tech. Sem-IVth and VIth (EC) students of various institutes of India with the following objectives.

- To make students familiar with following subjects
 - Machine Learning Fundamentals
 - Introduction to Deep Learning,
 - Fundamentals of Wireless Communication & Image Processing
- Implementation of Wireless Channel Estimation using Deep learning in Python
- Implementation of Computer Vision Applications using Deep learning in Python
- Interaction with Industry people for prospects of Machine Learning

Registration Fee : Nil

Number of Participants : 102

Following Experts and Senior faculty members of the department delivered the sessions:

Dr. Vinay Thumar Associate Professor, EC. DDU, Nadiad
Prof. Hetal Shah Assistant Professor, EC. DDU, Nadiad
Prof. Shital Thakkar Associate Professor, EC. DDU, Nadiad.

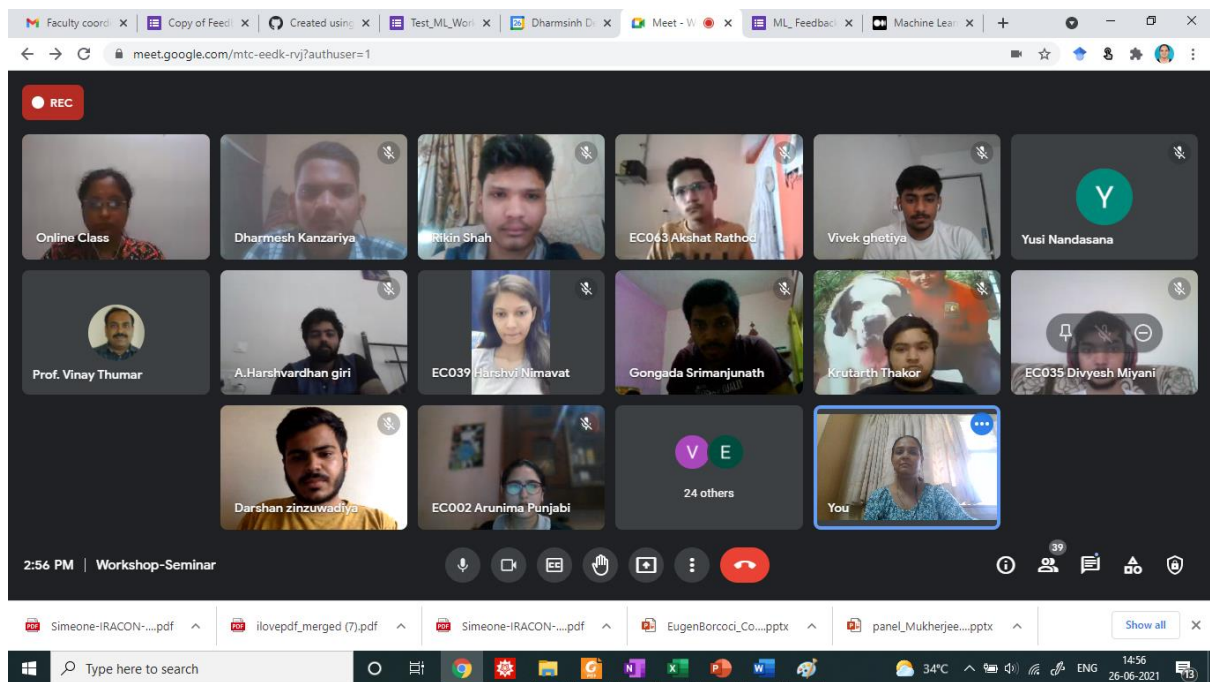

The experts covered the following points with hands on training:

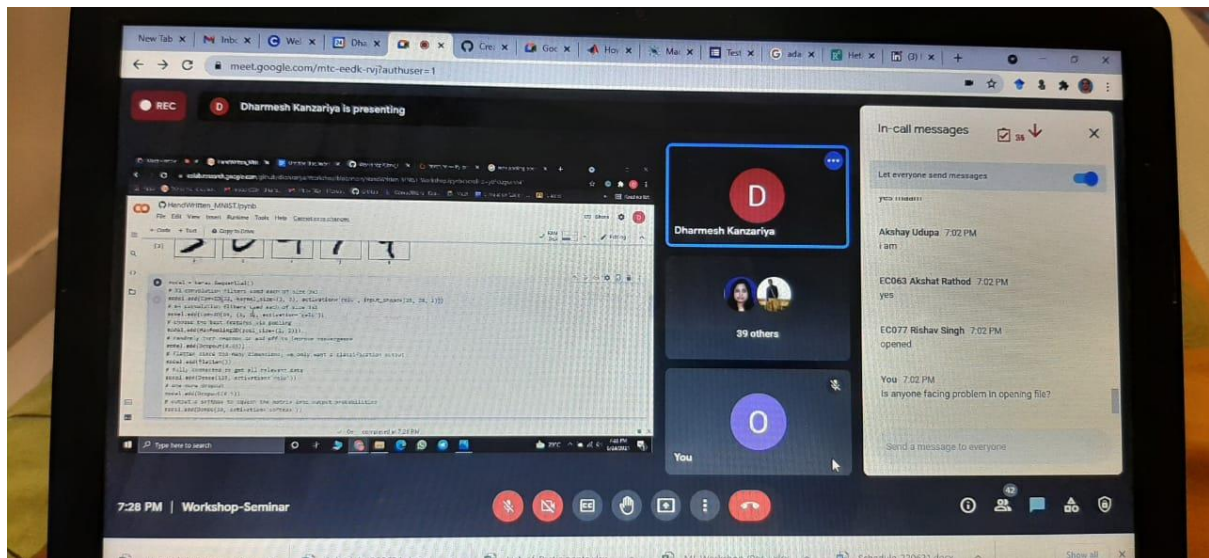

- 1) Basics Machine Learning Functions:
- 2) Introduction to Pytoarch tutorial.

- 3) Implementation of Boston Housing Price Prediction
- 4) MNIST dataset classification example
- 5) Tutorial on different layers of Convolution Neural Network
- 6) Image Segmentation using deep learning
- 7) Two class & Multiclass classification on using CIFAR10 dataset
- 8) Channel Estimation
- 9) Signal Detection

Furthermore, two industries “SPEC INDIA PVT. LTD. AHMEDABAD” and “MEGHNA AUTOMATION, PUNE” interacted with students to discuss the scope in the field of Machine Learning and briefed the students regarding their work in this domain.

Choose an appropriate Option.

***Required**

1. Email *

2. In image, How does noise affect?

Mark only one oval.

- ☐ adds to original gray level value
- ☐ subtracts to original gray level value
- ☐ OR operation with original value
- ☐ All of the above

3. For an image having gray levels = 64, how many bits required to represent one pixel?

Mark only one oval.

- ☐ 5
- ☐ 4
- ☐ 7
- ☐ 6

4. Which of the following method is used at the input layer for classification?

Mark only one oval.

- ☐ Linear
- ☐ softmax
- ☐ Linear or softmax
- ☐ None of these

5. In classification problem, which of the following loss function will be used?

Mark only one oval.

- ☐ Squared error loss
- ☐ cross entropy
- ☐ None of these

6. 45 filters of size 21 x 21 is applied to an image of size 327 x 327, with zero padding and stride of 3. The image is an RGB image. The depth of the filter is same as the depth of image. What will be the volume of the final image?

Mark only one oval.

- ☐ 103x103x3
- ☐ 103x103x45
- ☐ 327x327x3
- ☐ 327x327x45

7. What type of machine learning algorithm makes predictions when you have a set of input data and you know the possible responses?

Mark only one oval.

- ☐ Supervised learning
- ☐ Supervisory logic
- ☐ Deep learning
- ☐ Unsupervised learning

8. What is the output of a smoothing, nonlinear spatial filter?

Tick all that apply.

- ☐ Median of pixels
- ☐ Maximum of pixels
- ☐ Minimum of pixels
- ☐ Average of pixels

9. Which of the following possess maximum frequency?

Mark only one oval.

- ☐ Gamma Rays
- ☐ UV Rays
- ☐ Microwaves
- ☐ Radio waves

10. What category of machine learning algorithm finds patterns in the data when the data is not labeled?

Mark only one oval.

- ☐ Data prophecy
- ☐ Unsupervised learning
- ☐ Supervisory logic
- ☐ Supervised learning

11. What does a classification model do?

Mark only one oval.

- ☐ Predicts real number responses such as changes in temperature, date, or time
- ☐ Assigns data to a predefined category
- ☐ Clusters responses in groups based on similarity, to find patterns
- ☐ Compares predicted data classifications to the actual class labels in the data

12. Principles of optimization can be employed in

Mark only one oval.

- ☐ Wireless Communication
- ☐ Signal Processing
- ☐ Machine Learning
- ☐ All of the above

13. Which of the following is most noisy part of the communication system?

Mark only one oval.

- ☐ channel
- ☐ transmitter
- ☐ receiver
- ☐ modulator

To,
The Dean
Faculty of Technology,
Dharmsinh Desai University,
Nadiad.

Subject: Approval for organizing 5 Days Technical Workshop under DDU IEEE SB.

Respected Sir,

Department of Electronics & Communication Engineering is planning to organize the technical workshop for the 2nd, 3rd Year (UG students) and 1st year (PG students) of different Engineering colleges.

The workshop details are as under.

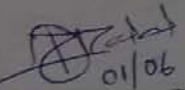

Title : *VLSI Systems - A Designer's Point of view*
Duration & Time : June 15-19, 2021
Mode of Execution : Online - Google Meet
Expected Participants : 50
Program Coordinators : Dr. Mitesh Limachia & Prof. Hardik B. Patel
Registration Fees : Free for All

The sessions will be conducted by the experts from various industries and other universities, and the subject experts of the Department.

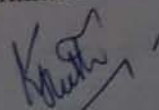

No financial support is required for organizing this workshop.

We would also like to offer the same as Online FDP for faculty members.

Kindly permit.

(Dr. Purvang D. Dalal)
Head, EC Department

Permitted

(Prof. K. N. Sheth)
Dean, Faculty of Technology

Encl : Detailed program schedule

A Report on a 5-days Workshop on ‘VLSI SYSTEM- A DESIGNER’S POINT OF VIEW’.

A 5-days Workshop on ‘VLSI SYSTEM- A DESIGNER’S POINT OF VIEW’ was organized by the Department of Electronics and Communication, Dharmsinh Desai University, Nadiad under the banner of IEEE DDU Student Branch. The workshop was conducted in association with various industry experts namely Mr. Ankit Gohel from *Synopsys*, Mr. Vishal Savsani from *Cadence*, Dr. R.A. Thakkar, Mr. Pinal Patel from *eInfochips* and Mr. Renjith C.V. from *Philips India Ltd.* The workshop was conducted in association with in-house experts namely Dr. Mitesh Limachia, Dr. Pallavi Darji and Prof. Hardik Patel. The workshop was conducted on a virtual platform- Google Meet from 15th to 19th June 2021.

The event was co-ordinated by Dr. Mitesh Limachia and Prof. Hardik Patel. It was conducted for the target audience of 2nd, 3rd year UG students, 1st year PG students and faculty members. This event was organized with the objective to provide an opportunity to learn research and development in the area of VLSI systems. Primarily, the workshop has covered characterization and optimization of various Analog and Digital circuits using SPICE simulations. Important aspects of Physical chip designing like placement, floorplanning, Clock Tree Synthesis (CTS) along with verification were also discussed during the workshop. Additionally in this workshop, the participants got an exposure to recently used semiconductor device like FinFET and recently used HDL language like System Verilog (SV).

The event was successful enough to attract as many as 150 participations from various colleges across Gujarat and India.

The details related to various expert sessions are as follows:

Prof. Hardik Patel

He introduced the participants to the LTSPICE software. He discussed the basics of LTSPICE and its essential features. Demonstration was shown for generating netlist and performing schematic simulations. He also demonstrated FinFET based simulations.

10:30 AM | mtc-eedk-rvj

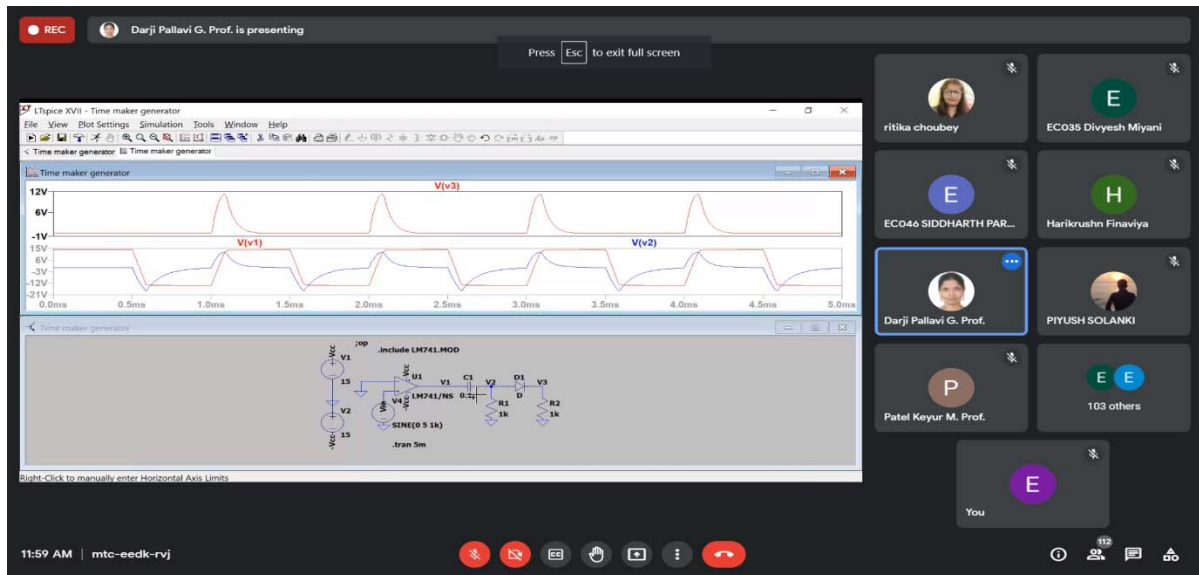

Dr. Mitesh Limachia

He discussed about characterization of SRAM 6T bit-cell in terms of its various functionalities like read, write and hold. He talked about the various measurement of various performance parameters of 6T SRAM bit-cell like s including read delay, write delay, read SNM, hold SNM among others. Moreover, he discussed about the effect of cell sizing on cell performance. He also demonstrated MOSFET and FinFET based simulations.

2:22 PM | mtc-eedk-rvj

Dr. Pallavi Darji

She discussed about the various parameters of CE/CS amplifiers and Feedback amplifiers and demonstrated it with hands-on session through LTSPICE. She also discussed about ASIC flow design and Physical Design along with Timing Analysis. Moreover, she briefed participants about Current Steering DAC and Communication Techniques for FPGA.

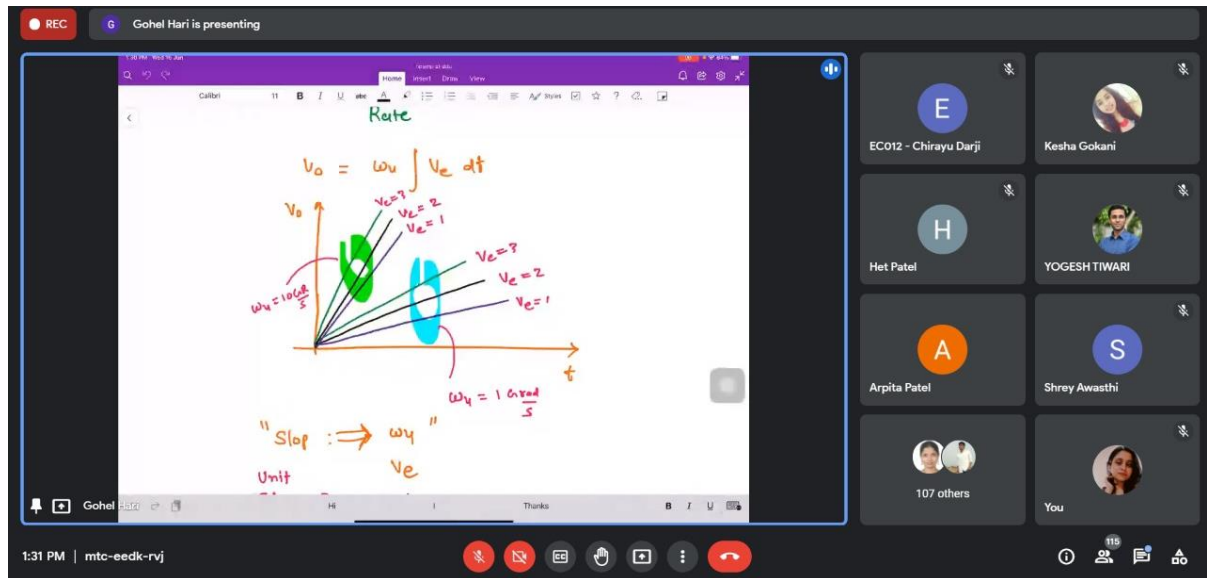

Dr. R.A. Thakkar

He gave an overview of the recently matured FinFET technology and its various parameters. He also discussed the roadmap for semiconductor industry. During his talk he also discussed about advanced nano-scale MOSFET devices like nanowire and Gate-All-Around devices.

http://electronicdesign.com/digital-ics/16nm14nm-finets-enabling-new-electronics-frontier. The slide also lists two bullet points: 'Like any new technology, FinFETs pose some design challenges, especially for custom/analog designers. One such problem is called "width quantization"' and 'Another challenge stems from the 3D topology itself, which increases the number of resistance (R) and capacitance (C) parasitics that must be extracted and modeled.' The Zoom interface shows a list of participants on the right, including EC039 Harshvi Nimavat, Upesh Patel, Jayadev RK, Rajesh Thakkar, siddh virani, Narendra Lokhande, Shonkho Shuvro, and 101 others. The bottom status bar shows the time as 10:05 AM and the meeting ID as mtc-eedk-rvj."/>

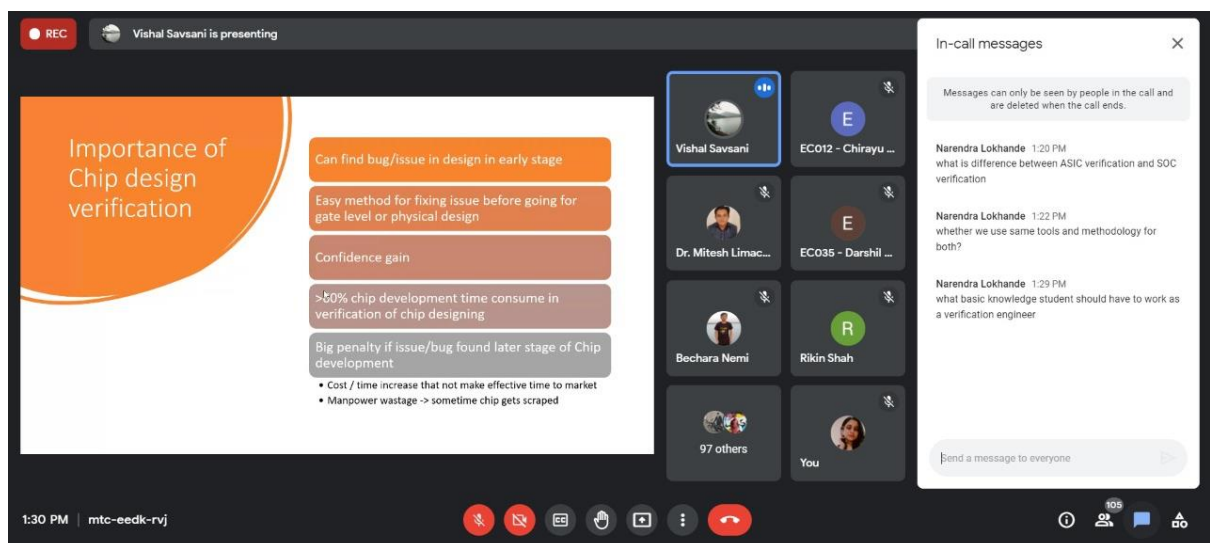

Mr. Ankit Gohel

He discussed the Analog Design criterion for Two-stage Op-Amps and gave overview about the Analog VLSI design. He also discussed in details role of analog circuit designing in the VLSI industries.

Mr. Vishal Savsani

He discussed about Digital Circuit verification. He discussed the various aspects and steps involved in verification, its importance, and tools and technologies involved on verification process.

Mr. Pinal Patel

He discussed about the System Verilog, how it is different from Verilog and VHDL, its importance and its application in VLSI verification. He provided brief overview about the test bench and the process of verification.

The screenshot shows a Zoom meeting interface. The main window displays a presentation slide titled "Fork-Join". The slide content includes a bulleted list: "Fork-Join", "Fork-Join_any", and "Fork-Join_none". Below the list is a diagram illustrating three types of fork-join operations: "fork" (splitting a signal into multiple parallel paths), "join any" (rejoining the paths as soon as any one path completes), and "join none" (rejoining the paths only after all paths have completed). The diagram uses red boxes to represent logic blocks and lines to represent signals. The Zoom interface shows a grid of participants on the right, including Pinal Patel, EC027 TRUSHAL, viral kansara, Hasmukh Koringa, Dr. Mitesh Limachia, Biren, and 110 others. The bottom status bar indicates the time is 10:52 AM and the meeting ID is mtc-eedk-rvj.

Mr. Renjith C.V.

He discussed about the architecture of various FPGA and its application in System Design. He also discussed about the use of DSP processors in system Design. He also discussed about the various types of VLSI circuits.

The screenshot shows a Zoom meeting interface. The main window displays a presentation slide titled "Classification of VLSI Circuits". The slide features a hierarchical tree diagram. At the top is "Monolithic highly integrated circuits", which branches into "Standard circuits" and "Custom circuits". "Standard circuits" further branches into "Fixed wires" and "Custom-programmable". "Custom circuits" branches into "Semi-custom" and "Hand layout". Below these, a detailed diagram shows various circuit types and their components: "Memory-programmable" (RAM, EPROM, ROM, DSP), "Wire-programmable" (EEPROM, ROM), "Programmable logic" (FPLD, CPLD, FPGA, SFLD), "Gate array", "Standard cell", "Full custom", and "Cell based". A horizontal arrow at the bottom indicates the spectrum from "ASIC" to "ASIC". The Zoom interface shows a grid of participants on the right, including EC012 - Chirayu Darji, Dr. Mitesh Limachia, RCV, viral kansara, Avinash M, Bhumi Vyas, and 106 others. The bottom status bar indicates the time is 11:33 AM and the meeting ID is mtc-eedk-rvj.

Shivam Prasad and Siddh Virani (6th semester students)

They discussed and demonstrated the verification using Verilog and system Verilog hardware description language (HDL). They also discussed in brief about universal verification methodology (UVM).

The screenshot shows a Google Meet interface. The main window displays a presentation slide titled "Basic System Verilog Testbench Functionality". The slide content is as follows:

Determine the correctness of the DUT.

This is accomplished by the following steps.

- Generate Random stimulus
- Apply stimulus to the DUT
- Capture the response
- Check for correctness
- Measure progress against the overall verification goals

Below the slide, a status bar shows the time as 2:05 PM and the meeting ID as mtc-eedk-rvj. The right sidebar shows a grid of participants, including Dr. Mitesh Limachia, Shivam Prasad, ECO27 TRUSHAL, Shahid Shaikh, Kalp Patel, siddh virani, 80 others, and You.

The screenshot shows a Google Meet interface. The main window displays a presentation slide titled "Testbench Components & Data Flow". The slide contains a block diagram illustrating the data flow in a testbench:

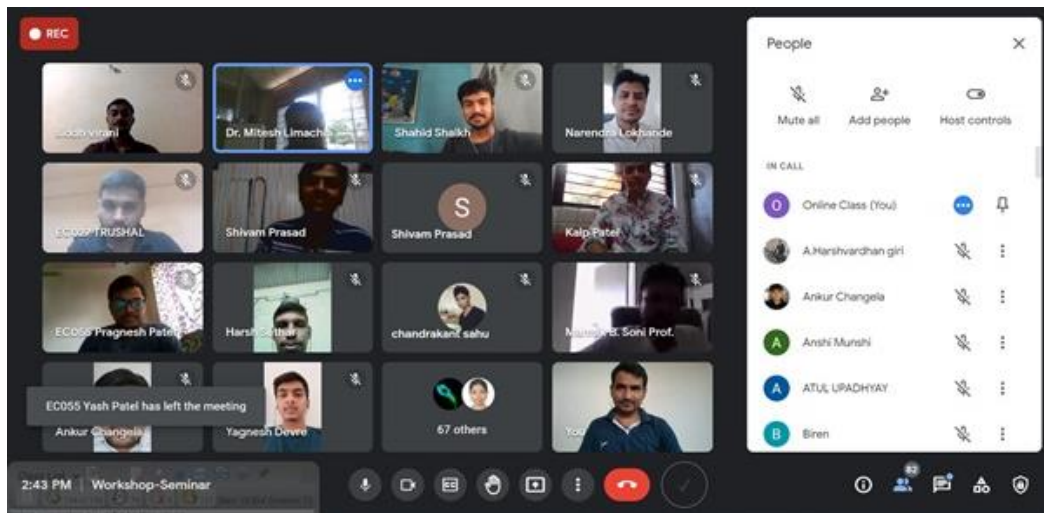

```
graph TD
    TRANSACTION --> GENERATOR
    GENERATOR --> MAILBOX
    MAILBOX --> DRIVER
    DRIVER -- VIRTUAL INTERFACE --> DUT
    DUT -- VIRTUAL INTERFACE --> MONITOR_1
    MONITOR_1 -- MAILBOX OR QUEUE --> REFERENCE_MODEL
    REFERENCE_MODEL -- MAILBOX OR QUEUE --> SCOREBOARD
```

Figure (a)

Below the slide, a status bar shows the time as 2:18 PM and the meeting ID as mtc-eedk-rvj. The right sidebar shows a grid of participants, including Shivam Prasad, siddh virani, Dr. Mitesh Limachia, Shahid Shaikh, ECO27 TRUSHAL, Kalp Patel, Online Class, 81 others, and You.

Valedictory function

The workshop was ended with vote of thanks given by Prof. Hardik Patel. The feedback of various participants were also taken to improve further during valedictory function. At the end of workshop, small photo session was also conducted with participants.

To,
The Dean
Faculty of Technology,
Dharmsinh Desai University,
Nadiad.

A Report
On
Mathematical Modeling & its Engineering Applications
(29th June to 1th July, 2021)

The 3 days on-line workshop is organized by Department of Electronic & Communication, FoT, Dharmsinh Desai University, Nadiad and DDU IEEE student branch for B.Tech. Sem-IVth and VIth (EC) students of various institutes of India with the following objectives.

- To make students familiar with application of Mathematical Modeling in engineering.
- To learn mathematical modeling in spacecraft technology using numerical and soft computing techniques.
- To learn mathematical model based programming using MATLAB.

Registration Fee : Nil

Number of Participants : 40

Following Experts and senior faculty members of the department delivered the sessions:

Mrs. Bhoomi Gajjar Institute of Plasma Research, Gandhinagar. e-mail Id: bhoomi.mehta@iter-india.org	Dr. Rizwan H. Alad Associate Professor, EC DDU, Nadiad e-mail id: rizwaan_alad.ec@ddu.ac.in
Prof. Ashish B. Pandya Assistant Professor, EC DDU, Nadiad e-mail Id: ashish.ec@ddu.ac.in	Prof. Keyur M. Patel Assistant Professor, EC DDU, Nadiad e-mail Id: keyurpatel.ec@ddu.ac.in

The experts covered the following points with hands on training:

- 1) Introduction to Plasma and its Application : Fourth State of plasma, Plasma in Nature, Classification of plasma, Need of energy, Nuclear energy, Fusion Nuclear Reaction, ITER, India contribution in ITER Major benefits of ITER.
- 2) Mathematical Modeling in Satellite Application: Plasma environment, Plasma Distributions, Method of Moment, Use of MoM in Satellite application for temoral profile of potential, Hands on MoM using MATLAB.
- 3) Mathematical Modeling in Radar Communication: Basic of antenna, Antenna radiation pattern, Radiation pattern parameters, Antenna used in radar communication,
- 4) Array antenna: Electric field pattern of linear array antenna, Beam shaping of linear array antenna radiation pattern, Hands on beam shaping techniques using MATLAB.
- 5) Soft computing optimization techniques: Application of Mathematical modeling of soft computing techniques.
- 6) Genetic Algorithm: Mathematical Modeling of Genetic algorithm, Application of Genetic algorithm in radar communication, Side lobe optimization using Genetic

algorithm, Null steering using genetic algorithm, Hands on genetic algorithm using MATLAB.

Glimpse of Workshop

This screenshot shows a Google Meet interface during a presentation. The main window displays a slide titled "Plasma Temperature Vs. Density" with a log-log plot of Temperature (K) vs. Number Density (Charged Particles / m³). The plot shows various plasma states like Nebula, Solar corona, and Solar core. A text box on the right explains that plasma densities range from those in a high vacuum to those in a detonating nuclear weapon. The Meet sidebar on the right shows participants: Bhoomi Gajjar (presenting), Dr. Rizwan Alad, Online Class, EC011 Neha Chaubey, EC201CHANDAN TIW..., VIKAS BHATT, Princee Parekh, and 32 others. The bottom status bar shows the time as 11:08 AM on 29-06-2021.

This screenshot shows a Google Meet interface during a "Workshop-Seminar" session. The main window displays a smaller version of the "Plasma Temperature Vs. Density" slide. The Meet sidebar on the right shows participants: Dr. Rizwan Alad (presenting), 20 others, and You. An "In-call messages" panel is open on the right, showing a message from VIKAS BHATT at 10:38 AM about the difference in main lobe and side lobe, and two messages from You at 10:40 AM and 10:42 AM providing links for attendance of the Morning session. The bottom status bar shows the time as 10:43 AM on 01-07-2021.

D. D. University.

Subject: Approval for organizing event *Brain it On*, under DDU IEEE Student Branch

Respected Sir,

IEEE DDU SB wants to conduct event *Brain it On*, which consists of technical, non-technical and riddle quiz questions.

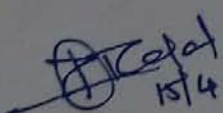

The details of the event are as under.

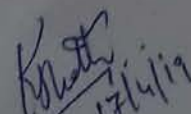

Event	: Brain it On
Online Platform	: Kahoot
Date & Time	: 18 th April-2021, 4. 30 pm to 5.00 pm.
Targeted Audience	: 2 nd and 4 th Semester B.Tech. Students of all branches
Conducted by	: Neha Chaubey - B. Tech (EC) Sem-IV Shahid Shaikh - B. Tech (EC) Sem-IV

This event will be free of cost and doesn't require financial assistance from the University.

Dr. Mitesh Limachia, DDU IEEE SB Counsellor will look after the same.

Kindly permit.

(Prof. Purvang Dalal)
Head, EC Department

(Prof. K. N. Sheth)
Dean, Faculty of Technology

REPORT ON BRAIN IT ON QUIZ

On 18th April 2021 (Sunday), IEEE DDU SB conducted a non-technical quiz named 'Brain It On'. The quiz was co-ordinated by Neha Chaubey and Shahid Sheikh from EC 3rd year.

Shahid and Neha supervised the registration process and prepared the questions for the quiz. A total of 23 students registered for the quiz and the participants were from various departments and year of study. Various non-technical questions related to current affairs in sports and politics were asked as a part of quiz.

The participants found the quiz very useful and interesting as it was something apart from the college curriculum.

Quiz Platform: Kahoot

25/02/2021

To,
The Vice Chancellor,
D.D.University,
Nadiad.

Subject : Approval for organizing **State Level Webinar** on *Fundamentals of Machine Learning*.

Respected Sir,

In order to motivate the students and make them aware about fundamentals of machine learning, IEEE DDU SB is planning to organize the webinar on the above mentioned topic. This webinar will be organized by IEEE DDU SB and in support with IEEE Gujarat Section under STEP expert session of IEEE.

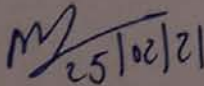

The details are as under.

Title : Fundamentals of machine learning
Name of Speaker : Dr. Mehul Raval,
Senior IEEE Member & Professor
Ahmedabad University.

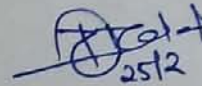

Date & Time : 6th March-2021, 10.00 a.m. onwards
Expected Participants : 300 (Internal + External)

This webinar will be free of cost and doesn't require financial assistance from the University. Dr. Mitesh Limachia & Prof. Sohil Dabhi will look after overall coordination.

Kindly permit for the same.

REPORT

State Level Webinar on *Fundamentals of Machine Learning*

In order to motivate the students and make them aware about basics of machine learning, IEEE DDU SB and IEEE Gujarat Section have jointly organized the above mentioned webinar on 6th March 2021 (Saturday). The webinar was conducted by Dr. Mehul Raval, Senior IEEE member and Professor at Ahmedabad University.

The webinar was getting over wheeling response from various institutes of Gujarat state and other states also. Total 209 participants were registered in this webinar. Out of 209 participants, 35 participants were from some of the other reputed institutes like DAIICT, VIT Vellore and Cambridge institute of technology, Bangalore etc.

The webinar commenced with formal introduction of speaker. Then, Dr Raval started the session with the explaining what an algorithm is and explained the basic process of what the machine learning is. He explained how a machine learns from previous information, in the same way as humans do.

The attendees were given insights on the difference between classification and regression, supervised learning and various algebraic functions used for development of algorithms.

The screenshot shows a Cisco Webex Events interface. The main window displays a presentation slide titled "Supervised Learning". The slide content includes a handwritten definition of supervised learning: "A computer program is said to learn from experience E with respect to some class of tasks T and performance measure P if its performance at tasks in T as measured by P , improves with experience E ". Handwritten notes in red ink include "Autonomous Experience - 'Domain Knowledge'", "More formal definition = CSE perspective", "Car Experience", "Task: 'Drive Safely'", "ML Performance Measure", "Driving rules", "Interacts", and "RADAR Camera". The slide also cites Mitchell, T. (1997), Machine Learning, McGraw Hill, p. 2. The interface includes a top bar with "Cisco Webex Events", "Event Info", and "Hide Menu Bar". A bottom bar shows "Unmute", "Share", and "Participants" buttons. A right sidebar shows a list of participants: Harshul Yagnik (Host), Mehul Raval, Chirayu Darji, Mitesh Limachia, sohil dabhi, and srinivasarao Meka. A chat window is also visible, showing a message from Harshul Yagnik to all attendees at 10:15 AM.

The screenshot shows a presentation slide titled "Basic ML framework". The slide content includes the equation $y = f(x)$ and the text "y: Output; x: input; f: Predictor". Handwritten examples in red ink show: $f(\text{Apple}) = \text{"Apple"}$, $f(\text{Orange}) = \text{"Orange"}$, and $f(\text{Tomato}) = \text{"Tomato"}$. Handwritten notes in red ink include "Images", "Apple", "Orange", "Strings", "Apple", "Orange", and a box containing "ML" and a red cross. The slide also includes a list of supervised learning concepts: "Input: X (e.g. images, text, videos, audio, principal components...)", "Output: Y: Numerical value or a category", "f: x → Y: Actual Mapping", "Given $(x_1, y_1), (x_2, y_2), \dots, (x_n, y_n)$ ", and "Learning means searching for 'Best' hypothesis, Best g in its class". The interface includes a top bar with "SHOW TASKBAR", "DISPLAY SETTINGS", and "END SLIDE SHOW". A bottom bar shows "Unmute", "Share", and "Participants" buttons. A right sidebar shows a list of participants: Harshul Yagnik (Host), Mehul Raval, Chirayu Darji, Mitesh Limachia, sohil dabhi, and srinivasarao Meka. A chat window is also visible, showing a message from Harshul Yagnik to all attendees at 10:15 AM.

Dr Raval also shared insights about the various tools used for machine learning.

0:59:02
11:05

Classification and Regression

$x \rightarrow f(x) \rightarrow y \in \{-1, 1\}$; Binary Classification

$x \rightarrow f(x) \rightarrow y \in \mathbb{R}$; Regression

Handwritten notes:

- $R_1, R_2 = S$
- $R_1 \cap R_2 = \emptyset$
- circle
- plus
- label
- x_1, x_2
- Decision boundary
- $f = mx + c$
- slope
- intercept

Next slide

Linear and Non linear case

Linear Classifier $y = \text{sgn}(g(x, W, b)) = \text{sgn}(\sum_{i=1}^n w_i x_i + b)$

Non linear Classifier: $X = [x_1, x_2, x_1^2, x_2^2]$ $y = \text{sgn}(W^T X + b)$

No Notes.

Slide 11 of 46

1:28:10
11:34

Gradient Descent: The work horse

$W \leftarrow W - \eta \frac{\partial E}{\partial W}$ Batch Gradient Descent (BGD)
 $W \leftarrow W - \eta \frac{\partial E_i}{\partial W}$ Stochastic Gradient Descent (SGD)

$E_i = \{y_i - g(x_i, W, b)\}^2$; for each (x_i, y_i)

Handwritten notes:
 $W^{(n)} - W^{(n-1)} = 0$
 $\frac{1}{m} \sum (y_i - y_{pred})^2$
 $\frac{\partial E}{\partial W}$
 W^* min
 Global min.

Generalization Problem in Classification

Underfitting — Overfitting

• Learning "Deep" is about accurate prediction on **unseen** rather than **seen** data.

No Notes.

Speaking: Mehul Raval

Keshav Gokani Bio	Harshul Yagnik Host
	Chirayu Darji

Almost 149 students/faculty members attended the session and the time span was of two hours (10:00am-12:00 Noon). He then encouraged the attendees by sharing his experience that anyone with good knowledge of statistics, algebra and basic knowledge of programming can pursue a career in machine learning domain. He motivated attendees to work in this domain, as they can discover and explore their interests and utilize their time to develop new skills. At the end Dr Raval answered the questions from the attendees to their utmost satisfaction.

The attendees found the session very useful and interesting as it was something apart from the university curriculum.

The webinar was concluded by vote of thanks delivered by Dr. Mitesh Limachia, IEEE DDU SB counsellor. He mentioned that some of topics covered by Dr. Mehul Raval during webinar like supervised learning and ML frame work were really informative and certainly useful to the students. He also mentioned that the webinar had created sufficient interest among students in the field of machine learning. Dr. Mitesh Limachia had also delivered vote of thanks to Prof. Harshul Yagnik, Saction Activity Chair, IEEE Gujarat Section for providing tremendous support for this webinar.

A Report

On

MATLAB-Simulink Basics and LTE/5G System Implementation

(10th June to 12th June, 2021)

The 3 days on-line workshop is **organized** by Department of Electronic & Communication, FoT, Dharmsinh Desai University, Nadiad and DDU IEEE student branch for B.Tech. Sem-IVth and VIth (EC) students of various institutes of India with the following objectives.

- To make students familiar with MATLAB Programming,
- To learn model based programming using Simulink,
- To learn MATLAB tool boxes – Signal Processing and Communication, LTE & 5G, Coder
- To learn FPGA implementation on Xilinx board using Vivado.

Registration Fee :Nil

Number of Participants :102

Following Experts and Senior faculty members of the department delivered the sessions:

Mr. Gaurav Dalwadi Reliance Jio Infocomm Ltd, Mumbai.	Mr. Suraj Senior Application Engineer, DesignTech System Ltd, Pune.
Mr. Prakash Ganesh Lead Application Engineer CoreEL Technologies, Bangalore	Dr. Hardip k. Shah Professor, EC. DDU, Nadiad
Mr. Dhiraj Jagtap Application Engineer – MathWorks MATLAB & Simulink, DesignTech System Ltd, New Delhi.	Dr. Mitesh J. Limachia Assistant Professor, EC DDU, Nadiad
Mr. Manoj Kumar Application Engineer, New Delhi.	Prof. Keyur M. Patel Assistant Professor, EC DDU, Nadiad

The experts covered the following points with hands on training:

- 1) Basics of MATLAB : MATLAB window, basic commands, use of variables with values, arrays, basic trigonometric functions, etc.
- 2) Function in MATLAB: defined, declared and used of the user defined functions.
- 3) Plot the graphs for given variable and check given system performance.
- 4) Live Script editor: It is used for series of MATLAB commands in a single interactive environment. Rn section in live script, create live script functions, etc. was explained.
- 5) Simulink: It is used to model the system and then simulates the dynamic behaviour of the system. Control system tools were used to simulate simple PID feedback control system.
- 6) Hardware support packages: It covered how to install third party hardware and used for small projects. Arduino, Xilinx, Android, STMicroelectronics, Keysight can be connected to MATLAB and through Simulink functionality we can implement good projects. For this Mathwork account is required.
- 7) Tool boxes: It covered hoe to use different toolboxes link LTE/5G tollbox coder toolbox and SPC tool box.
- 8) High Power amplifier: It covered different types of power amplifier their design and its application in 5G system with its performance parameters

Glimpse of Workshop

Google Meet interface showing a presentation slide titled "You're presenting to everyone". The slide includes a "Stop presenting" button. The meeting details panel on the right lists participants: searchb Mori, Dhruv Kothiga, Garav Dalwadi, Online Class, RAKSH, Dr. Hardip Shah, EC031 Nishita Luhara, and EC062 Anil Rupasinga. The chat panel shows messages from Online Class, Dr. Hardip Shah, and Prof. Anandha Chaudhary.

Power Amplifier - Definition

In small-signal amplifiers the main factors are:

- Amplification
- Linearity
- Gain

Since large-signal, or power amplifiers (PA) handle relatively large voltage signals and current levels, the main factors are:

- Efficiency
- Maximum power capability
- Impedance matching to the output device

Proposal for workshop on "Electronics Circuit Simulation using Multisim"

Inbox

Dr. Mitesh Limachia <mitesh.ec@ddu.ac.in>

to Nikhil, bcc: Rizwan, bcc: Pinkesh

Wed, Oct 28, 2020,

Respected Sir,
IEEE DDU SB is planning to organize the following workshop.

Workshop name: Electronics Circuit Simulation using Multisim

Outline of workshop:

- Introduction related to scope of Multisim simulator in electronics circuit simulations
- Implementation and simulation of various circuitries like ohms law, sound amplifier , discrete gates, decade counter using Atmega 32 Microcontroller.
- Informative talk on benefits of being IEEE member (10 minutes)

Date: 31/10/2020 (Saturday)

Time: 10.00 a.m. to 12.30 p.m.

Targeted Audience: B. Tech (E.C.) Sem-I students.

Workshop Conducted by: Minu Chaudhary and Poulami Chowdhury (Sem-VII students)

Workshop Coordinated by: Dr. Mitesh Limachia, Dr. Rizwan Alad and Prof. Pinkesh Patel

There is no financial expense involved in this event.

8051 Simulation using Proteus

[Manage this Event](#)

Share

On 20th September 2020 (Sunday), IEEE DDU SB conducted a webinar on 8051 simulations using Proteus. The webinar was conducted by Minu Chaudhary, of the 7th semester.

Minu started the session with the introduction of proteus and its various libraries which would be useful for project development. The attendees were given insights on the programming in Keil for different applications, which was followed by implementing the circuit in the Proteus. The importing of code from Keil and simulation of the circuit in Proteus was shown in depth. Minu then presented a live demo of the LED blinking project.

IEEE DDU SB PRESENTS

8051 SIMULATION USING PROTEUS

Conducted by:
MINU CHAUDHARY

DATE : 20-09-2020
TIME : 10AM TO 12PM

Almost 73 students attended the session, the period was of two hours (10:00 am-12:00 Noon). Minu also shared insights about one of her projects she undertook based on Logic Gate IC Fault Detection using 8051. She explained in detail the code used, circuit design, and its working.

She then motivated the attendees to start working on such projects as this kind of skill is important for an aspiring engineer and while working on these kinds of projects, they can discover and explore their interests and utilize their time instead of wasting it. In the end, there was a question and answer round where questions of attendees were answered by Minu.

The attendees found the session very useful and interesting as it was something apart from the college curriculum.

Computer Society of India

DDU Student Branch

DATA ANALYTICS WITH ML

On 27 February, a webinar - “**Data Analytics With ML**” was held via Google Meet at 11 A.M. by the **Computer Society of India, DDU Student Branch** along with **TOPS Technologies**.

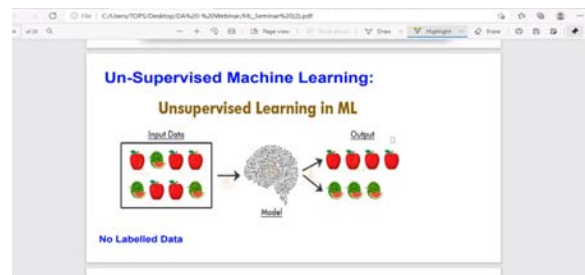

The speaker of the event was **Jigar Parmar**. He began by introducing himself and gave a brief idea of what the event was all about and what the participants were about to learn.

Then he gave the introduction on data science and data analytics with ML. Then he went on explaining about differences between **Artificial Intelligence, Machine Learning** and **Deep Learning**. He also explained the types of data in Machine Learning problems i.e, labelled and unlabelled data.

Advancing further he then explained types of machine learning and gave a brief introduction about its types, which are **Supervised Learning, Unsupervised Learning** and **Reinforcement Learning**.

Furthermore he explained applications of ML in daily life and then went on to explain about **Jupyter Notebook**.

```
in [1]: import pandas as pd
import numpy as np

#Loading dataset for modelling Apple / Orange classification
data = pd.read_csv('fruit_101_apple.csv')

fruit_data_set = pd.DataFrame()
fruit_data_set['fruit'] = np.array([1, 2, 3, 4, 5, 6, 7, 8, 9, 10])
fruit_data_set['weight'] = np.array([150, 170, 180, 190, 200, 210, 220, 230, 240, 250])
fruit_data_set['months'] = np.array([10, 11, 12, 1, 2, 3, 4, 5, 6, 7])

In [2]: data
Out[2]: (0: 'orange', 1: 'apple')

In [3]: data
Out[3]: (0: 'orange')

In [4]: fruit_data_set
```

He also gave an example of classification of an orange using the decision tree Algorithm in Jupyter Notebook.

Participants were encouraged to raise questions and clear their doubts on the topic. Speaker then advised participants to build technical know-how in ML and Data Analytics. Also participants received certificates for attending the event.

Computer Society of India

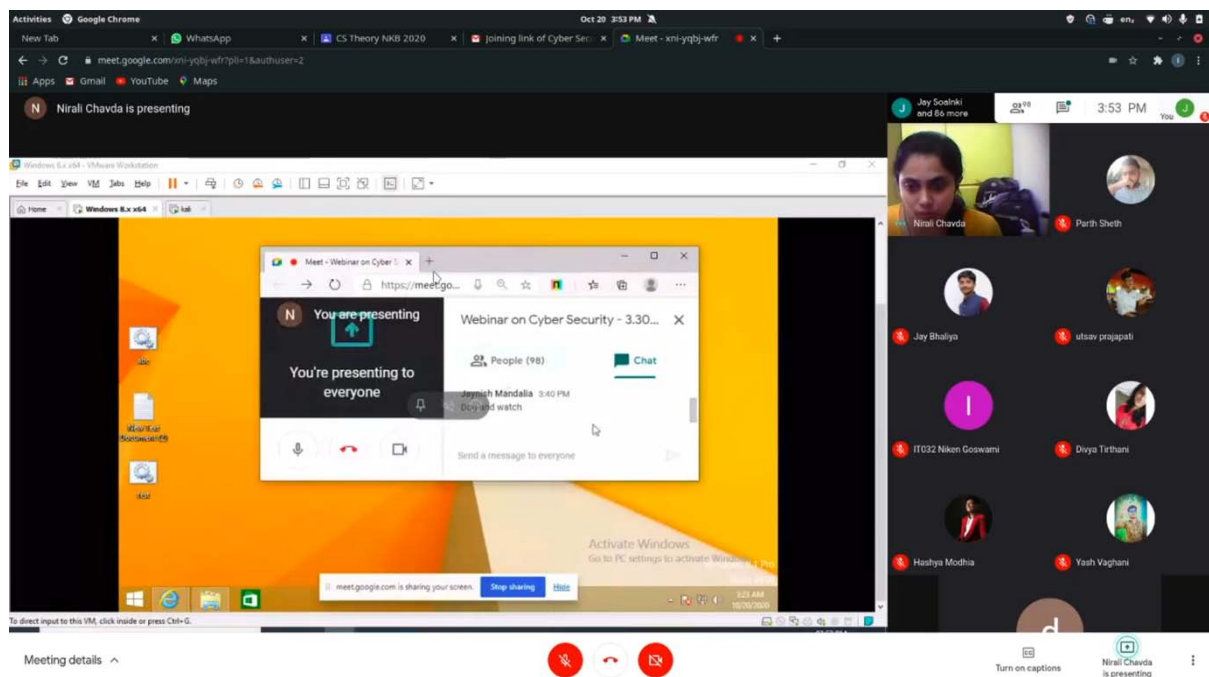

DDU Student Branch

Webinar on Cyber Security

On the 20th of October, a webinar was held via Google Meet at 3:30 pm by the Computer Society of India, DDU Student Branch.

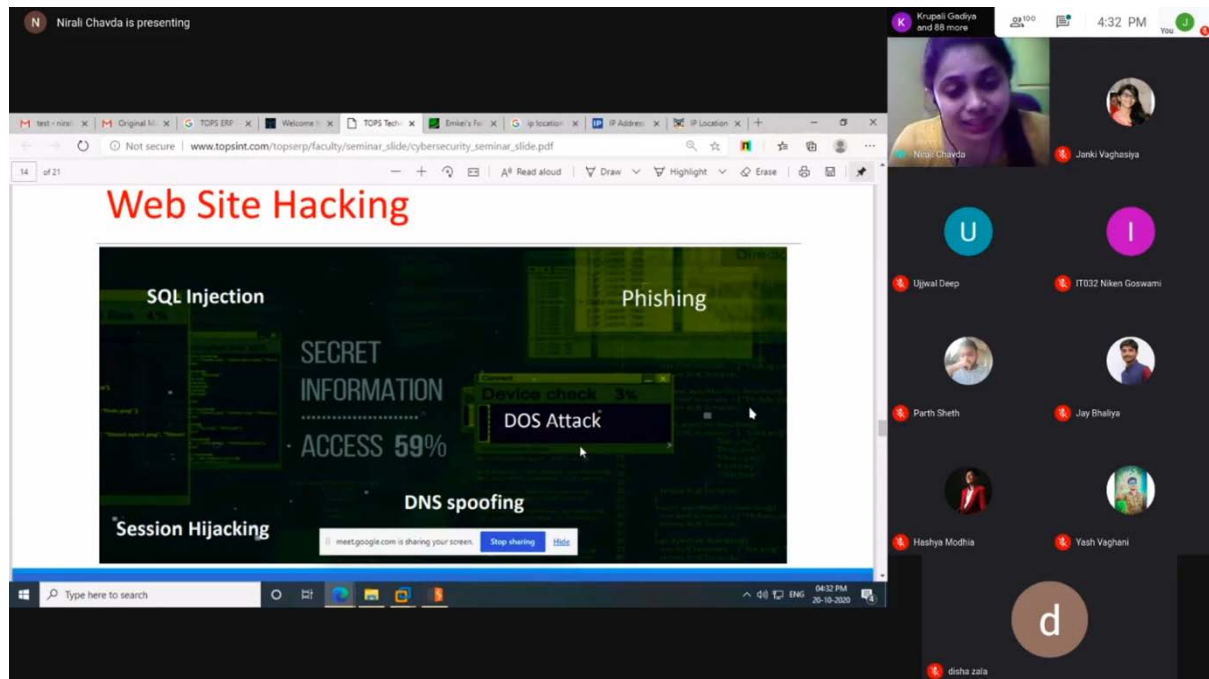

The speaker of the event was Nirali Chavda from Tops Technologies. She began by introducing herself and gave a brief idea of the courses provided by Tops Technologies.

The session on “Cyber Security” started with a simple .bat file showing how a simple looking file can slow down our computers.

Further diving deep into the topic she explained about common computer viruses and malware like trojans, rootkit, worms, spyware, and ransomware. Participants were informed about hackers around the world and how they use malware to operate a person’s computer processing power for their malpractices. To safeguard computer, they

were advised not to install any crack software and always use a strong password everywhere.

Then, she showed how the improperly built website can be easily hacked with a few hacking tools. Also covering on email security threats and safety measures, the vulnerability of the android operating system and its applications was also shared. Participants were encouraged to raise questions and clear their doubt on the topic. Session concluded with an advise to protect our data and think well before making any impressions on the internet. All the participants enjoyed the session, also they were felicitated with the certificates.

CHEM-HUNT

SESSION ON WRITING RESEARCH

ARTICLE

This time IICHe DDU-SC came with some out of the box session for our future chemical engineers. “Session on Writing a Research Article” was conducted by IICHE DDU-SC in collaboration with Neha Agrawal(founder of WiseUp Communications Alumnus, NTU Singapore) on 30/08/2020 from 5 pm to 6 pm. It was an online webinar carried using platform Cisco Webex for which registration was mandatory. All the participants who registered received the meeting invite on the day of the webinar, through Gmail.

IICHE DDU SC
presents

Session on Writing a Research Article

Neha Agrawal

BP105T.COMMUNICATION SKILLS (Theory)

30 Hours

Scope: This course will prepare the young pharmacy student to interact effectively with doctors, nurses, dentists, physiotherapists and other health workers. At the end of this course the student will get the soft skills set to work cohesively with the team as a team player and will add value to the pharmaceutical business.

Objectives:

Upon completion of the course the student shall be able to

1. Understand the behavioral needs for a Pharmacist to function effectively in the areas of pharmaceutical operation
2. Communicate effectively (Verbal and Non Verbal)
3. Effectively manage the team as a team player
4. Develop interview skills
5. Develop Leadership qualities and essentials

Course content:

UNIT – I

07 Hours

- **Communication Skills:** Introduction, Definition, The Importance of Communication, The Communication Process – Source, Message, Encoding, Channel, Decoding, Receiver, Feedback, Context
- **Barriers to communication:** Physiological Barriers, Physical Barriers, Cultural Barriers, Language Barriers, Gender Barriers, Interpersonal Barriers, Psychological Barriers, Emotional barriers
- **Perspectives in Communication:** Introduction, Visual Perception, Language, Other factors affecting our perspective - Past Experiences, Prejudices, Feelings, Environment

UNIT – II

07 Hours

- **Elements of Communication:** Introduction, Face to Face Communication - Tone of Voice, Body Language (Non-verbal communication), Verbal Communication, Physical Communication
- **Communication Styles:** Introduction, The Communication Styles Matrix with example for each -Direct Communication Style, Spirited Communication Style, Systematic Communication Style, Considerate Communication Style

Agarwal
25.2.21
Faculty of Pharmacy
Chaitanya Desai University
Nadiad - 387 001, (INDIA)

UNIT – III

07 Hours

- **Basic Listening Skills:** Introduction, Self-Awareness, Active Listening, Becoming an Active Listener, Listening in Difficult Situations
- **Effective Written Communication:** Introduction, When and When Not to Use Written Communication - Complexity of the Topic, Amount of Discussion' Required, Shades of Meaning, Formal Communication
- **Writing Effectively:** Subject Lines, Put the Main Point First, Know Your Audience, Organization of the Message

UNIT – IV

05 Hours

- **Interview Skills:** Purpose of an interview, Do's and Dont's of an interview
- **Giving Presentations:** Dealing with Fears, Planning your Presentation, Structuring Your Presentation, Delivering Your Presentation, Techniques of Delivery

UNIT – V

04 Hours

- **Group Discussion:** Introduction, Communication skills in group discussion, Do's and Dont's of group discussion

BP111P.COMMUNICATION SKILLS (Practical)

2 Hours / week

The following learning modules are to be conducted using wordsworth® English language lab software

Basic communication covering the following topics

Meeting People

Asking Questions

Making Friends

What did you do?

Do's and Don't's

Pronunciations covering the following topics

Pronunciation (Consonant Sounds)

Pronunciation and Nouns

Pronunciation (Vowel Sounds)

Advanced Learning

Listening Comprehension / Direct and Indirect Speech

Figures of Speech

Effective Communication

Writing Skills

Effective Writing

Interview Handling Skills

E-Mail etiquette

Presentation Skills

DONATE ORGANS : LIVE FOREVER

Ms Bhavna Chhabaria is the CEO of shatayu. She has been relentlessly working for the cause of organ donation awareness since past 10 years with Shatayu. She wholeheartedly dedicates most of her time to this Nobel cause with a strong vision. Her passion for the cause has led to take the onus upon herself to increase the rate of organ donation by educating and motivating people in turn saving lives.

The poster is for a CDE Webinar titled "DONATE ORGANS: LIVE FOREVER" held at the Faculty of Dental Science, DDU, Nadiad. The event is scheduled for March 13, 2021, at 11 AM. The speaker is Ms. Bhavna Chhabaria, CEO of SHATAYU. The poster includes a photo of the speaker, a brief biography, and logos for Facebook Live and Google Meet. Various organ donation icons (heart, eye, kidney, liver, pancreas) are also present.

Guest Lecture

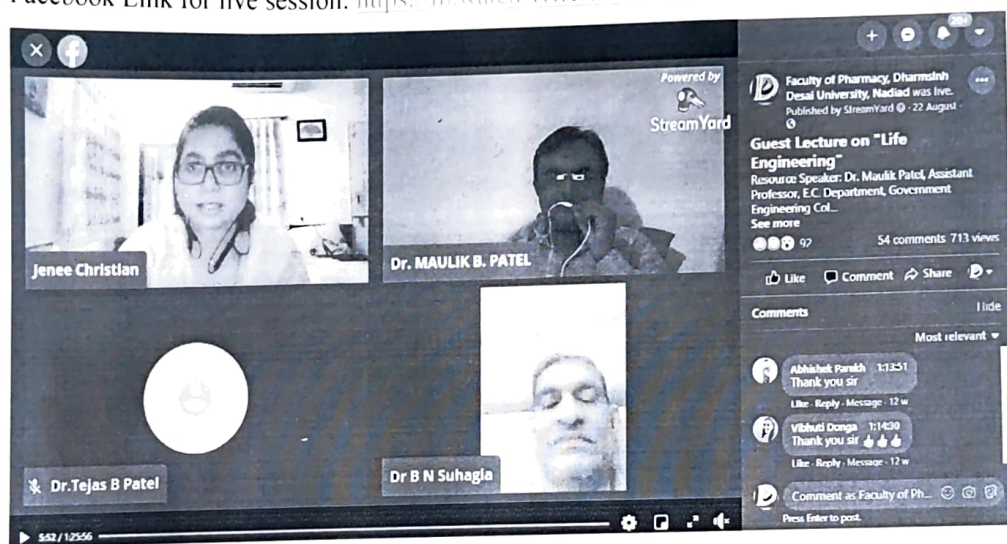

Topic: Life Engineering

Resource Person: Dr. Maulik Patel, Assistant Professor,
E.C. Department, Government Engineering College, Patan, Gujarat

Date: 22nd August, 2020

Guest lecture was scheduled on 22nd August, 2020, by Faculty of Pharmacy, Dharmsinh Desai University. The talk was delivered by Dr. Maulik Patel Sir, Assistant Professor, E.C. Department, Government Engineering College, Patan, Gujarat, on the topic of Life Engineering. Total 78 participants from VII semester B. Pharm and II semester M. Pharm (Quality Assurance and Pharmaceutics) and faculties, registered for the guest lecture.

Facebook Link for live session: <https://fb.watch/IRKXYrrCmF/>

In his motivational lecture he had talked about what is life and its meaning, one should do their best and should not focus on results, he talked that our responsibility is to work hard and fruits will be given from above. Also, he talked about dynamic meditation, different types of meditation, theories of success where he focussed on hardwork, smart work, time management etc.

Schedule and topics covered:

	Date	Topics	Sub Topics	Expert
Day 1	28/8/2020	Introduction to Programming	Why Programming?	UPP
			The Scenario	
			What is a program?	
			Problem Solving	
		Algorithms	Introduction and representation	
		Pseudo code	Variables and Operators	
			Decision constructs	
			Iteration constructs	
		Introduction to Programming	What is a programming language?	

			Variables and Datatypes	
			Operators	
			Implicit/Explicit Type conversions	
		Day 1 Assignments	Go to Assignments	
Day 2	09-04-2020	Introduction to Programming	Functions in Programs	UPP
		Control Structures	Selection Control Structures	
		Unit Testing	Path Coverage	
			Boundary Value Analysis	
		Eclipse Plug-in	Introduction	
		Day 2 Assignments	Go to Assignments	
Day 3	09-11-2020	Control Structures	Iteration Control Structures	NAJ
		Debugging	Introduction to Debugging	
		Collections	Introduction to Collections	
			List and Array	
			Tuple	
		Unit Testing	Introduction to pytest	
		Eclipse Plug-in	Tip to handle infinite loop	
		Day 3 Assignments	Go to Assignments	
Day 4	18/9/2020	Collections	String	NAJ
			Set	
			Dictionary	
		Functions	Revisiting Functions	
		Day 4 Assignments	Collaborative Activity	
			Go to Assignments	
Day 5	25/9/2020	Functions	Argument behavior	UPP
			Types of arguments	
			Variables and its scope	
		Unit Testing	Intro to parameterized pytest	
		Day 5 Assignments	Go to Assignments	
Day 6	10-03-2020	Exception Handling	Handling exceptions in code	UPP
		Recursion	Recursive Functions	
		Day 6 Assignments	Go to Assignments	
Day 7	10-09-2020	Code Organization	Modules and Packages	UPP

		Libraries and Functions	Random Library	
			Math Library	
			String functions	
			List functions	
			Dictionary functions	
			Date and Time functions	
		File Handling	File Handling	
Day 8	16/10/2020	Day 7 Assignments	Go to Assignments	UPP
		Advanced Topics	Regular Expressions	
			Concurrency	
			Lambda functions	
			Higher Order functions	
		Conclusion	Conclusion	
Day 9	23/10/2020	Day 8 Assignments	Go to Assignments	UPP
		Practice Day	Collaborative Assignment	
			Go to Assignments	
		Programming Playground	Start Playing	
		Practice Quizzes	Start Quizzing	
		Practice Problems	Start Practicing	
		Reference Document	Reference Document

Report of 36 hours (15 Days) Online Workshop on Skill Development Programme on 'Aptitude & GDPI Preparation'

A 36 hours online workshop was organized by Department of MCA on **Skill Development Programme on 'Aptitude & GDPI Preparation'** for the students of MCA during July-August,2020.

We had jointly organized this workshop with Dhyey Career Academy, V.V.Nagar. Dhyey Career Academy was providing us trained experts from their academy.

The purpose behind this workshop was to prepare the students for their campus placement and to get good placement.

In 15 days, We have conducted 36 hrs completing important topics of aptitude that are asked in every company after that we have conducted a 1 day workshop on GD, PI and Resume writing where we have conducted 2 hrs of Do's and Don'ts and orientation session each for GD, Resume and PI and GD and PI Mock for the same.

The workshop covered the following topics for the Aptitude test

Academic Program Details-

1) Quant-

1. Mental Ability
2. Number System
3. Averages
4. Ratio and Proportion
5. Percentages
6. Profit and Loss
7. Simple and Compound Interest
8. Time and Work
9. Time, Speed and Distance
10. Permutations and Combinations
11. Geometry

2) Verbal-

1. Reading Comprehension
2. Grammar

3) Logical Reasoning

During the workshop we provided total 7 mock tests to the students to analyze their strength and weakness. We had also arranged group discussion and mock PI for all the participants online.

Total no of hours: 36

Total no of days: 15

Total no of students: 24

No of batches: 1

Fees per student: Rs 2390/- (Inclusive of G.S.T).

There were 24 students participated. We have also provided certificate to all the participants.

Two-Day Workshop on “Salesforce”

DDU - IETE Students' Forum (IT department - Dharmsinh Desai University, Nadiad) has organized two - day workshop on “Salesforce”, held on 21st-22nd September, 2019. Experts were invited from INCAPSULATE, Ahmedabad based company. 78 students of various departments (CE/IT) had attended the workshop and obtained theoretical and practical knowledge about the Salesforce – cloud-based CRM platform. Outline of the workshop is as below:

- Salesforce Career Exploration for students
- Salesforce Platform Basic
- CRM for Salesforce classic
- Customize a Salesforce object.
- Quick start process Builder
- Apex Basic & Database
- Create Reports and Dashboards for sales and marketing managers

INCAPSULATE TEAM

Experts, Mr. Nimit Shah, Mr. Swagat Talsania and INCAPSULATE team were invited for the workshop.

Expert Name: Mr. Nimit Shah

Designation: Salesforce Technical Architect, INCAPSULATE – Ahmedabad.

Experience: 11+ Years

Expert Name: Mr. Swagat Talsania

Designation: Salesforce Technical Lead, INCAPSULATE – Ahmedabad

Experience: 7+ years

Expert Seminar

DDU-IETE Students' Forum (IT department - Dharmsinh Desai University, Nadiad) has organized expert seminar on various computer science technologies, dated on 28th December, 2019. Experts were invited from MasterCard-Vadodara. Around 61 students of various departments (CE/IT) had attended the seminar, and obtained theoretical and practical knowledge about the trending technologies of the IT field. Various seminar topics were covered like Android Development, Version Control using GIT, Security in Digital World and IT projects and methodologies.

Experts Details:

Company Name : Mastercard Ltd. - Vadodara

Expert Name: Mr. Pruthvirajsinh Solanki

Designation: Tech Lead (Architect, Consultant)

Experience: 12+ Years

Topic: Security in Digital World

Expert Name: Mr. Nilesh Madhudia

Designation: Technical program manager (TPM)

Experience: 14+ years

Topic: IT Projects and Methodologies

Expert Name: Mr. Jitendra Nath

Designation: Software Developer Engineer II

Experience: 9+ years

Topic: Android Development

Expert Name: Mr. Tejas Mehta

Designation: Sr. Software Engineer

Experience: 8+ years

Topic: Version Control using GIT

Sub.: Approval for a workshop on "Getting started with Arduino nano" on 20th & 21st July 2019 under IEEE Student Branch

Respected Sir,

In order to motivate the students and make them aware about developing project using the Arduino nano board, we are planning to organize the above mentioned workshop on 20th & 21st July, 2019 for the students of our University.

The details are as under.

Title : Getting started with Arduino-nano

Date & Time : Day 1 : 20/07/2019 14:00 hrs. – 18:00 hrs.
Day 2 : 21/07/2019 10:00 hrs. – 18:00 hrs.

Venue : Room No. 22

Expected
Participants & Fee : 30 Teams (Minimum) - Two students per team
from B. Tech. (EC/IC/CE/IT) Sem. III
Rs. 300 per team of two for IEEE Members
Rs. 350 per team of two for Non-IEEE Members

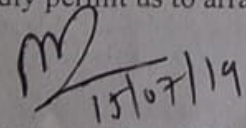

Expected Income : Rs. 10500.00

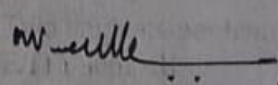

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Refreshment (65 persons)	1500.00
2	Arduino nano board along with hardware components (30 teams)	8400.00
2	Certificates (65)	600.00
Total		10500.00

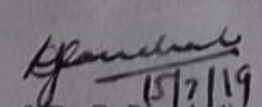

Dr. Mitesh Limachia will co-ordinate the event.

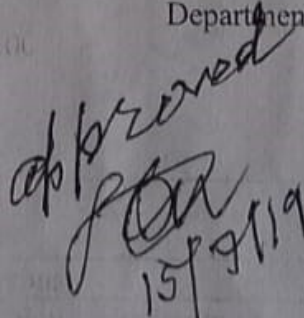

Kindly permit us to arrange the workshop and sanction the budget.

Report on Workshop Getting started with Arduino nano

On 20th July (Saturday) , The **IEEE DDU student branch** conducted an educational workshop on “**Arduino nano**” . This workshop aimed to explain the Arduino’s internal structure . The participants of the workshop were all **2nd year students (EC,IC,IT,CE)**. The workshop was conducted by **EC (sem-5)** students , the duration of the workshop was of two days.

Students were at first exposed to the Arduino software and the coding techniques , they were also introduced to the Arduino website . There are various I/O ports , working of every single port and its applications were explained .

The second day of workshop was basically based on the concept of PWM signals , types of converters which included A to D converter and D to A converter. The analog port along with its pins was explained.

Types of communication were discussed which included wired as well as wireless communication, the communication protocol UART and its data sequence were also aligned.

Some problems such as interrupt in microcontroller were shown , the simultaneous process going on was explained and the interrupts were also handled carefully.

Various experiments were performed by the students in which Arduino nano was loaded with the code and the hardware was to be observed:

- Turn ON LED using Push Button
- LED fading with PWM
- LED fading by LDR
- Displaying temperature
- Visualizing LED fading by LDR

At the end of the session, a competition was conducted in which all the concepts taught in this workshop were to be implemented .

The winners were:

- 1.) Kushal Parmar
- 2.) Kenil Patel

Sub: Approval of budget for GUJCOST sponsored three days workshop on "Analog/Digital Circuit Simulations and PCB Layout Designing using eSim"

Respected Sir,

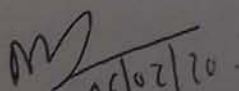

We are glad to inform you that we received financial assistance of Rs. 40,000 from GUJCOST. Gandhinagar for the aforementioned workshop. The objective of this workshop is to motivate the students of EC/IC/CE/IT towards using open source software for the design of electronics circuit. The workshop would also cover PCB layout design and fabrication process. This three days workshop is scheduled from 21/02/2020 to 23/02/2020.

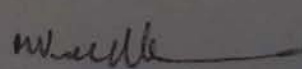

The estimated budget for the workshop with maximum 50 participants is as follows.

Income		Expenditure		
		Sr. No.	Title	Approximate Cost (Rs.)
Financial Assistance from GUJCOST	40,000	1	Lunch, Tea & Refreshment for participants (60 persons)	19000
		2	Travelling & logistic expenses for experts	8000
		3	Purchasing of Electronics Components and PCB making materials	10000
Participant Registration Fees (100/- per Participant)	100 * 50 = 5000	4	Learning material, Brochure Printing, Stationary, Registration Kit, and other consumable items	5000
		5	Contingency, Photography, Flex Banner,	5000
Total	45000	Total		45000

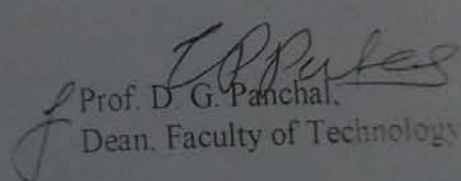

Kindly approve the budget.

Sub: Financial Support of GUJCOST for the programme on "Analog/ Digital Circuit Simulations and PCB Layout Designing Using eSIm"

Ref: Your proposal, dated 9th January, 2020

Dear Sir,

Greetings from Gujarat Council on Science and Technology (GUJCOST), Gandhinagar.

With reference to above, it is our pleasure to inform you that your proposal for holding the "Analog/ Digital Circuit Simulations and PCB Layout Designing Using eSIm" during 21-23rd February, 2020 has been considered for the financial support of GUJCOST.

GUJCOST, is in principle approved an amount of Rs. 40, 000 /- (Rupees forty thousand only) for this programme on the following terms and conditions.

1. If you change the venue, date and speakers or proposed resource person then please, intimate to GUJCOST.
2. The programme will be organised as per the proposal and guidelines of GUJCOST for the grant.
3. GUJCOST will release the sanctioned amount after the completion of the programme and on receipt of the programme report, Utilization Certificate, list of participants, statement of income & expenditure copy of vouchers, photographs, press notes, etc. with necessary stamp and signature of the Programme Coordinator and Head of the Institute.
4. The organiser should send one illustrative poster including the title of the programme, dates, venue and other information details in one-week advance to publish on GUJCOST website and social media for broader outreach.
5. The organiser shall acknowledge the support of GUJCOST, DST, and Govt. of Gujarat in all the publications including poster, brochure, banner, backdrop, invitation card, press release, souvenir and proceedings.
6. The organiser shall invite the DST, Govt. of Gujarat institutions as Resource Person / Expert Member as per the subject matter concern.
7. Once the programme is over, the organiser shall submit the program report, statement of expenditure and Utilization Certificate within one month of completion of the programme.

We once again thank you for your kind effort and interest in organising the programme and wish the programme a grand success.

Thank you and with best regards.

Yours sincerely,

(Narottam Sahoo)

About Department of Electronics & Communication

Accredited twice by NBA, the department was established in the year 1981 and at present offers UG as well as PG Program. Well qualified faculty strength of the department includes doctorates and faculty members pursuing Ph. D. The department is engaged in research activities in the fields of Wireless Communication & Networking, Digital Signal Processing, VLSI, Image Processing and Antenna Modeling.

The department has ten well-equipped laboratories with state of the art equipments to cater to the needs of UG and PG students.

Program Details

The three days workshop aims at motivating the students of EC/IC/CE/IT branch to use eSim (open source software developed by IIT Bombay). eSim offers similar capabilities and ease of use as any equivalent proprietary software for schematic creation, simulation and PCB design, without having to pay a huge amount of money to procure licenses. It can serve as an alternative to commercially available/ licensed software tools like OrCAD, Xpedition, Proteus and Multisim. eSim is used in order to design and characterize the given electronics circuit with the help of circuit simulations. The software is also used for the PCB (Printed Circuit Board) layout designing.

In this workshop, students will learn eSim through Spoken Tutorials. Additionally, the workshop also covers demonstration related to PCB fabrication process. At the end of workshop, students will be able to design their own circuitry and also fabricate the PCB.

Speakers from academic institution and industry will discuss the fundamental and practical aspects related to circuit simulation in the area of electronic circuit design and PCB designing and fabrication process.

The contents of the program are as follows:

- Importance of circuit simulation in the area of electronic circuit designing.
- Design and simulation of Analog/Digital circuits in eSim
- PCB design and fabrication process
- PCB layout design and creation of GERBER File using eSim
- Hands on Session
 - Circuit Simulations
 - Layout Designing

Registration Details

The course is open to the students B.Tech EC/IC/CE/IT from Engineering Colleges.

Registration fees for students: 100/-

(*Tentative figures. Actuals will be decided based on financial support available.)

This course fee includes working lunch, High tea and a certificate upon successful participation.

The mode of payment can be Cash or through DD. The DD drawn in favour of **Dharmsinh Desai University A/C**, Payable at Nadiad.

Last Date of Registration: 21/11/2019

Registration on first come first serve basis

To,
The Vice Chancellor,
D. D. University.

Sub.: Two Days Workshop on "IoT using NodeMCU and Raspberry Pi" under the banner of DDU IEEE Students' Branch.

Respected Sir,

In order to motivate the students and make them aware about developing project using the NodeMCU and Raspberry Pi, We are planning to organize the above mentioned workshop on 21/12/2019 & 22/12/2019 for the students of our University. The details are as under.

Title : IoT using NodeMCU and Raspberry Pi
Date & Time : Day 1: 21/12/2019 Day 2: 22/12/2019
14:00 hrs. – 18:30 hrs. 09:30 hrs. – 18:30 hrs.

Venue : Lab-7 of EC Department
Expected
Participants & Fee: 30 (minimum)
from B. Tech. (EC/IC/CE/IT) Sem. IV/VI
Rs. 150.00 for IEEE member
Rs. 200.00 for Non-IEEE member

Expert : Mr. Keyur Chauhan, Shreejicharan Electronics, V. V. Nagar

Expected income: 200*30=6000.00

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Remuneration of expert for two days	3000.00
2	Refreshment (40 persons)	1600.00
3	Certificates & printed material	800.00
4.	Stationeries	300.00
5.	Remuneration of Peon	300.00
Total		6000.00

Dr. Mitesh Limachia and Prof. Pinkesh Patel will co-ordinate the workshop.

Kindly permit us to arrange the workshop & sanction the budget.

(Signature)
(Dr. Mitesh Limachia)
DDU IEEE Student Branch Counselor

(Signature)
(Dr. Nikhil Kothari)
Head, Dept. of E & C Eng.

A Report on the Workshop held on

“IoT based system with Raspberry Pi and Node MCU”

December 24, 2019

A workshop on “IoT based system with Raspberry Pi and Node MCU” was organised by IEEE DDU Student Branch for a duration of 1.5 days on 21st and 22nd December 2019. The target audience were students of semester 4 and 6. Mr Keyur Chauhan, an industrial expert, was the speaker.

The workshop commenced at 2:00 pm, beginning with a presentation on the Internet Of Things(IoT) and its applications. Some current industry trends and future scope of the domain were also discussed. After the briefing, components like NODE MCU, Raspberry Pi, DHT sensor etc. were shown to the students. Afterwards, kits were provided to the students according to created groups. Participants then began working on the tasks given on NODE MCU. The required files and software were pre-installed on computers. Alongside, the IEEE volunteers also helped the students throughout the session. The first day ended with the completion of the task on LED blinking at different intervals.

The second session started at 9:15 am on the 22nd of December. Mr Chauhan continued from the previous session with a few examples and tasks using NODE MCU along with the DHT sensor. He also demonstrated different setups using the devices. After lunch at 1:00 pm, a presentation on different devices which can be used to build an IoT project was given. Then tasks were performed based on Node MCU being used as both Host and client. Students also came up with innovative ideas of their own. Then the participants coded a program for detecting variations in temperature and pressure and then observed the simulation results on 'ThingSpeak' site.

Lastly, a short description of Raspberry Pi, the ways of its installation and uses was given. The speaker made a complete setup of Raspberry Pi to explain how to get started.

The workshop concluded at 5:30 pm. The students received hands-on experience on working with Raspberry Pi and Node MCU. This was an exciting opportunity for students as it enabled them to explore things outside of the curriculum.

May 6, 2020,

Respected Sir,

In order to aware the students of B. Tech E.C. about the technology advancement in the area of communication engi requirement of skills and qualities for entrepreneurship, IEEE DDU SB is planning to arrange following webinars.

Webinar-1Topic : **Understanding 5G services and specifications**

Speaker : Dr. Hardip Shah, EC,DDU

Date: 13/05/2020

Time : 11.00 a.m.

Audience : (1) Sem-II/IV/VI EC DDU students

(2) EC students of other (SF/GIA) institutes of Gujarat state.

Platform: Google Meet

Webinar-2Topic : **Journey of Entrepreneurship**

Speaker :Mr. Pritesh M Shah (Chairman, PRIMA Group, Vadodara)

Date: 17/05/2020

Time : 11.00 a.m.

Audience : (1) Sem-II/IV/VI EC DDU students

(2) EC students of other (SF/GIA) institutes of Gujarat state.

Platform: Google Meet/ZOOM

Respected Sir,

This is to request you to grant the permission for conducting an IEEE seminar, titled, "Understanding Behaviour and Timing in Digital Circuits" on August 2, 2019, during 11:00 Hrs. to 13:00 Hrs. for the students of B. Tech. (E&C), Sem. -III. *(Sessional Week)*

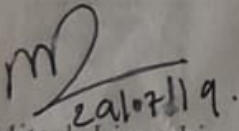

The session will be conducted by Dr. Nikhil Kothari and Prof. Marmik Soni.

The program has no fees and expenditure.

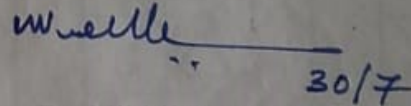

Kindly allow us to use seminar hall.

Report of IEEE seminar on Understanding Behavior & Timing in Digital Circuits

The IEEE seminar on ‘**Understanding Behavior & Timing in Digital Circuits**’ was conducted on 5th August, 2019 at the Seminar Hall of D.D.U. from 11.00 AM to 1.00 PM. The sole objective of this seminar was to make the students of IIIrd sem., E&C to understand the critical timing consideration in the context of sequential circuit.

Initial half of the session was conducted by Dr. Nikhil Kothari, Head of the EC Department. He briefly gave the introduction of the verilog platform and importance and objective of the seminar arranged. He tried to create a strong link between practical issues being faced while designing Digital Logic Systems and important theoretical concepts. The way he explained the concepts to the student was very lucid. He also made it look very simple. Help of verilog HDL simulation on Quartus platform was taken while explaining the concepts clearly to the students.

Second half of the program was conducted by Prof. Marmik Soni. In the second half extensive use of verilog and Quartus for Digital Logic Design. He also demonstrated various problems related to Digital Electronics subject which to make the understanding clear and also demonstrated the timing diagram relation between signals of those designs. Following are a few pictures from the seminar.

Summary:

The program was free of cost and there were no expenditures.

The program was attended by 92 students from Sem. III.

Date: 20th & 21st June, 2020

Experiments in Electronics on Virtual Platform

IEEE student branch of DDU organized a webinar on “Experiments in Electronics on Virtual Platform” on 20th & 21st June, 2020 for the B.Tech. SEM-II (EC/CE/IC/IT) students. The primary objective of the webinar is to provide a virtual platform for simulating the electronics circuits. In this COVID-19 pandemic era, the physical access of the laboratory is not possible for the students. The virtual laboratory (VLabs) is an interactive environment for creating and conducting simulated experiments, a playground for experimentation. The virtual laboratory provides remote access to labs in various discipline of science and engineering along with a complete learning management system that includes web-resources, video lectures, animated demonstration and self-evaluation. In this webinar the following basic electronics circuits was demonstrated with working and result analysis,

- Ohm’s Law Experiment
- V-I Characteristics of P-N Junction Diode
- Bridge Rectifier
- CE Amplifier Frequency Response
- Zener Voltage Regulator

Total 130 students from the aforementioned branches have registered for the webinar.

Registration Fee: NIL

Faculty Coordinator:

Prof. Pinkesh Patel
Prof. Hardik Patel

Students Feedback

(1) Have you ever perform simulation experiments in VLabs?

(2) How useful do you think Virtual Labs is for an engineering students?

(3) Do you think doing experiments through virtual lab helps to perform better in actual lab?

(4) How well the course content was covered?

(5) Did the webinar build required foundation to take up activities further in the topic?

(6) What is your overall opinion about the webinar?

(7) Any other suggestions?

- Looking forward for more webinars like this!
- Arrange more webinars on various topics during this paramedic condition.
- Conduct many more such webinars in this covid period.
- Please do next webinar on webex or Google meet because in zoom application there is fluctuation in voice and screen sharing.
- Thank you for aware us about VLabs.
- Send the video link because due to network inconvenience some could nt even join or some could only see some parts.
- It is the great webinar

Bhavika Gambhava <gambhava.b@gmail.com>

to sem, Sowjanya, Ipshita ▾

Mon, Dec 7, 2020, 8:30 PM

Dear students,

We have arranged an expert session by a very resourceful and reputed expert. We strongly recommend you to register for it and attend it. It will help you in the next semester in placement. Please fill the following form for registration.

<https://forms.gle/gmN9Wi1sDYm1vaBL7>

Session- Introduction to Bridge: Employability Toolkit for Students

Date and Time- 12th Dec (3pm-5pm)

Session Details-

Employers are often looking for skills that go beyond qualifications and experience. According to many research findings the students with skills like positive attitude, effective communication, problem solving, domain knowledge, team spirit, self confidence, handling criticism, etc which are also known as Behavioral or Soft skills have higher employability rate.

The focus of the session will be:

ADA-Aptitude, Domain and Attitude- The right mix to improve your employability

Effective Communication to crack an interview

The students can submit/ share their questions on this topic by using the google [form](#). Request for all the question submission by **10th Dec 7 pm**. The resource people will try to accommodate your concerns in the session.

Copy paste this hyperlink in case there are access issues above: https://docs.google.com/spreadsheets/d/1e7rotHM_PLvpO3fSBsWs1dGB3fifbqjpJps_u6z3ykk/edit?usp=sharing

Thank you.

Bhavika

CodeZilla-A Coding Competition

On 16th August, 2020(Sunday)
CodeZilla – A Coding Competition
was conducted by **Computer Society of India, DDU Student Branch**.

"There are two ways to write an error-free program, only the third way works." ~ Alan J Perlis

So, here students were given a chance to show their third way of programming.

This competition was held on HackerRank platform. Participants were given **120 mins** to solve **five problems** with its difficulty level being from easy to peer.

This competition was mainly for moderate level programmers. Hence, both **sophomores and semi-final year students** actively participated in the competition.

Students enjoyed a lot while solving the problems. They struggled solving the peer level problems. But, some of them surpassed that and won the competition.

Jenish Vekariya(IT-5th Sem) was the winner of the contest. While **Kiran Bhanushali**(IT-5th Sem) was the runner-up.

Editorial of all the problems were provided after the competition so that students can learn from their mistakes.

At the end of the competition, there was a flood of positive response in the feedback given by participants which encourages CSI Club to conduct such coding competition in future as well.

Computer Society of India

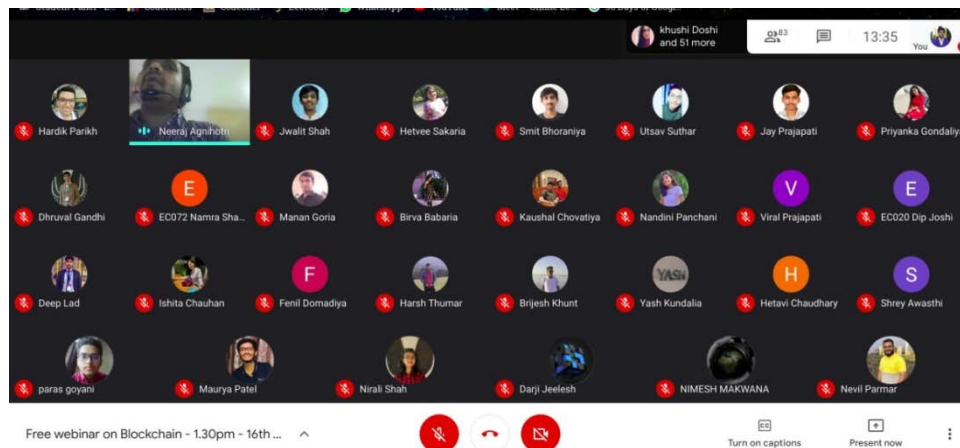

DDU Student Branch

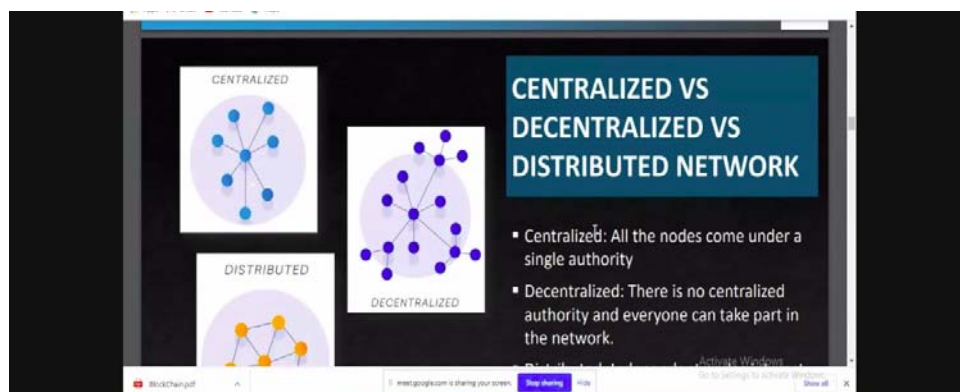

Webinar on Blockchain

On 16th of October 2020 a webinar on Blockchain was conducted by Computer Society of India, DDU Student Branch.

The speaker of the event was Neeraj Agnihotri from TOPS technologies. He began by introducing himself and gave a brief idea about how TOPS technology help students achieve their dream job with the help of their courses.

He then headed to explain what actually Blockchain is and also gave a brief history how it got started. He then explained how a Blockchain transaction takes place. He also explained how original Blockchain was designed to operate without a central authority (i.e. with no bank or regulator controlling the transaction), but transactions still have to be authenticated.

He also explained the properties of Blockchain which are programmable, secure, anonymous, distributed, immutable(irreversible), etc. He explained the difference between centralized, decentralized and distributed systems. He also talked about Blockchain framework. He gave a brief idea about the cryptocurrency(digital currency) and the way it works. He cleared the mentality of students that Blockchain is only useful in Cryptocurrency and also gave an example that how Universities can give a degree implemented with Blockchain so that no one can make fake degrees in market, because paperwork can be manipulated, but data stored by blockchain cannot be changed.

Then, he gave the brief future of these technologies, and it's demand in the market, and how one can make his/her career in Blockchain technology. Then, he gave information about how one can become data miner(one who makes the transaction successful). Anyone with a PC with good computational power and good internet can become a data miner and earn bitcoins on successful transaction.

He then concluded the session by asking for doubts and cleared them as well. He asked the participants to fill a feedback form. Participants enjoyed the session and asked him if he could conduct more webinar on other technologies on which he readily agreed.

BP105T.COMMUNICATION SKILLS (Theory)

30 Hours

Scope: This course will prepare the young pharmacy student to interact effectively with doctors, nurses, dentists, physiotherapists and other health workers. At the end of this course the student will get the soft skills set to work cohesively with the team as a team player and will add value to the pharmaceutical business.

Objectives:

Upon completion of the course the student shall be able to

1. Understand the behavioral needs for a Pharmacist to function effectively in the areas of pharmaceutical operation
2. Communicate effectively (Verbal and Non Verbal)
3. Effectively manage the team as a team player
4. Develop interview skills
5. Develop Leadership qualities and essentials

Course content:

UNIT – I

07 Hours

- **Communication Skills:** Introduction, Definition, The Importance of Communication, The Communication Process – Source, Message, Encoding, Channel, Decoding, Receiver, Feedback, Context
- **Barriers to communication:** Physiological Barriers, Physical Barriers, Cultural Barriers, Language Barriers, Gender Barriers, Interpersonal Barriers, Psychological Barriers, Emotional barriers
- **Perspectives in Communication:** Introduction, Visual Perception, Language, Other factors affecting our perspective - Past Experiences, Prejudices, Feelings, Environment

UNIT – II

07 Hours

- **Elements of Communication:** Introduction, Face to Face Communication - Tone of Voice, Body Language (Non-verbal communication), Verbal Communication, Physical Communication
- **Communication Styles:** Introduction, The Communication Styles Matrix with example for each -Direct Communication Style, Spirited Communication Style, Systematic Communication Style, Considerate Communication Style

Agarwal
2021
Faculty of Pharmacy
Chaitanya Desai University
Nadiad - 387 001, (INDIA)

UNIT – III

07 Hours

- **Basic Listening Skills:** Introduction, Self-Awareness, Active Listening, Becoming an Active Listener, Listening in Difficult Situations
- **Effective Written Communication:** Introduction, When and When Not to Use Written Communication - Complexity of the Topic, Amount of Discussion' Required, Shades of Meaning, Formal Communication
- **Writing Effectively:** Subject Lines, Put the Main Point First, Know Your Audience, Organization of the Message

UNIT – IV

05 Hours

- **Interview Skills:** Purpose of an interview, Do's and Dont's of an interview
- **Giving Presentations:** Dealing with Fears, Planning your Presentation, Structuring Your Presentation, Delivering Your Presentation, Techniques of Delivery

UNIT – V

04 Hours

- **Group Discussion:** Introduction, Communication skills in group discussion, Do's and Dont's of group discussion

Report of Workshop on Basic Python Programming

A workshop was organized by Department of MCA on “Basic Python Programming” for the students on 5th & 6th July, 2019.

This workshop was arranged for the students who need to learn Python programming language from basic and to get enough understanding on Python programming language.

The workshop covered the following topics

- ➔ Importance of Python in today's world
- ➔ How python is different from other languages and easy to learn?
- ➔ Setup of Python and its IDE
- ➔ Syntax of python programming
- ➔ Variable types and Operators
- ➔ Decision making and loops
- ➔ Strings and various operations on strings
- ➔ Lists, Tuples, Date & Time
- ➔ Functions, Module, Name space & Scope and Packages
- ➔ Question & Answer session

We have also arranged practical sessions on both days.

There were total 40 students participated. We have provided certificate to all the participants of this workshop.

Expert: Dr. Narayan A. Joshi
Professor & Head,
MCA Department,
Dharmsinh Desai Univeristy.

Convener: Dr. Narayan A. Joshi

Report of 6 Days Workshop on Skill Development Programme on 'Aptitude & GDPI Preparation'

A 6 day workshop was organized by Department of MCA on **Skill Development Programme on 'Aptitude & GDPI Preparation'** for the students of MCA during July-August, 2019.

We had jointly organized this workshop with Endeavor Careers Pvt. Ltd. , V.V.Nagar. Endeavor were providing us trained experts from their academy.

The purpose behind this workshop was to prepare the students for their campus placement and to get good placement.

In 6 Days, We have conducted 36 hrs completing important topics of aptitude that are asked in every company after that we have conducted a 1 day workshop on GD, PI and Resume writing where we have conducted 2 hrs of Do's and Don'ts and orientation session each for GD, Resume and PI and GD and PI Mock for the same.

The workshop covered the following topics for the

Aptitude test Academic Program Details-

1) Quant-

1. Mental Ability
2. Number System
3. Averages
4. Ratio and Proportion
5. Percentages
6. Profit and Loss
7. Simple and Compound Interest
8. Time and Work
9. Time, Speed and Distance
10. Permutations and Combinations
11. Geometry

2) Verbal-

1. Reading Comprehension
 2. Grammar
- Logical Reasoning

During the workshop we provided total 7 mock tests to the students to analyze their strength and weakness. We had also arranged group discussion and mock PI for all the participants.

Total no of hours:

Dear Sir

On behalf of Endeavour coaching VVN , we are thankful for providing us the opportunity to serve you .. We had covered entire syllabus that had been promised in our previous communication. During our training period between July-19 to august-19, we found your students were really obedient and quick learner. They had been wonderful in their homework and assignment.. We want to thanks all concern people associated with this project for providing us chance to train your students.

In case of future requirement, we wish you will provide an opportunity to us.

Thank you..

Yours faithfully

Two Day Workshop on “Salesforce”

DDU-IETE student chapter (IT department - Dharmsinh Desai University , Nadiad) has organized Two day workshop on “Salesforce” held on 19th-20th Jan, 2019. Experts were invited from INCAPSULATE company, Ahmedabad. 85 students of Information Technology department has attended this workshop and gain very good practical knowledge about how to use Salesforce – cloud based CRM platform. Outline of workshop was as below:

- Salesforce Career Exploration for students
- Salesforce Platform Basic
- CRM for Salesforce classic
- Customize a Salesforce object.
- Quick start process Builder
- Apex Basic & Database
- Create Reports and Dashboards for sales and marketing managers

INCAPSULATE TEAM

Expert Name: Mr. Nimit Shah

Designation : Salesforce Technical Architect

Experience: 11 Years

Expert Name: Mr. Swagat Talsania

Designation: Salesforce Technical Lead

Experience: 7 years

Expert Name: Mr. Tejas Shah

Designation: Salesforce Technical Lead

Experience: 4.5Years

Expert Name: Mr. Harsh Shah

Designation: Salesforce Sr. Developer

Experience: 7 Years

Expert Name: Mr. Nikunj Vedia

Designation: Salesforce Sr. Developer

Experience: 4 Years

Expert Name: Mr. Rajat Koradia

Designation: Salesforce Sr. Developer

Experience: 3 Years

Seminar on Protection Against Cyber Attacks

DDU-IETE student chapter (Dharmsinh Desai University, Nadiad) has organized a seminar on protection against cyber-attack on 2nd March, 2019. Seminar has been presented by Mr. Arshit Vaghasiya. 85 students of EC/CE/IT/MCA departments have attended this seminar and gain knowledge about how to protect system from different kind of cyber-attacks. In seminar he has also guided about how hacking/attack is possible in PC, Mobile, Wi-Fi, Google databases and in other areas. He has also explained how to protect system against these kinds of attacks.

Expert Name: Mr. Arshit Vaghasiya

Designation: Student

University Name: Dharmsinh Desai University,

Experience: 4 years in this area

Fig 1: Mr. Arshit Vaghasiya explaining about types of attacks

A large group of students, mostly young adults, are seated in a lecture hall. They are all looking towards the front of the room with attentive expressions. Many of the students are wearing glasses. The students are dressed in casual attire, including t-shirts, polo shirts, and button-down shirts. The room has a warm, brown-toned wall in the background. The lighting is bright, coming from the front of the hall.

To,
The Vice Chancellor,
D. D. University.

Sub.: Approval for a seminar on Artificial Intelligence on 01/03/2019 under IEEE
Student Branch

Respected Sir,

We are planning to organize the above mentioned seminar on 01/03/2019 for the students of our University. The details are as under.

Title : Artificial Intelligence
Date & Time : 01/03/2019
15:00 hrs. – 17:00 hrs.

Venue : Seminar Hall, Faculty of Technology

Expected
Participants & Fee: 50 (minimum) B. Tech. (EC/IC/CE/IT) Sem. IV/VI
No registration fee will be charged.

Expert : Dr. Suman Mitra, Dean - Academic Program,
Dhirubhai Ambani Institute of Information and Communication
Technology, Gandhinagar.

The travelling expenses of the expert will be borne by IEEE Gujarat Section.

Estimate of Expenditure:

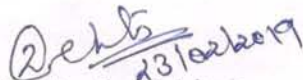

Sr. No.	Item	Estimate in Rs.
1	Tea and refreshment for expert	150.00
2	Memento for the expert	500.00
Total		650.00

The expenses may be reimbursed from the DDU IEEE Students' Branch account.

The current balance in DDU IEEE Students' Branch account is more than Rs. 1,11,000.00

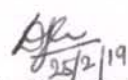

Dr. Prarthan Mehta will co-ordinate the event.

Kindly permit us to arrange the workshop and sanction the budget.

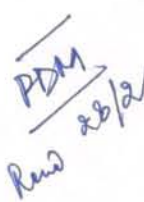

(Dr. Prarthan Mehta)
DDU IEEE Student Branch Counselor

(Dr. Nikhil Kothari)
Head, Dept. of E & C Eng.

Expert Talk by

Dr. Suman Mitra

on

Dimensionality Reduction for Image Recognition (March 01, 2019)

Organized by Dharmsinh Desai University IEEE Student Branch

In collaboration with

Expert : Dr. Suman Mitra, Dean - Academic Programs, DAIICT, Gandhinagar.

Total No. of Participants : 95 (27 IEEE Members + 58 Non IEEE Members)

On 1st March 2019 DDU IEEE Student Branch conducted an Expert Talk under Section Technical Expert Program (STEP) titled Dimensionality Reduction for Image Recognition. The talk started at around 3.30 pm in Seminar Hall. The expert for the event was Dr. Suman K. Mitra, Dean - Academic Programs at DA-IICT, Gandhinagar. Dr. Prarthan Mehta, Student Branch Counselor greeted the speaker.

Dr. Suman Mitra briefly discussed about a couple of buzz words namely, Artificial Intelligence and Machine Learning. He, then focused on importance of dimensionality reduction for image recognition. He, further gave details of existing techniques for dimensionality reduction namely, Principal Component Analysis and Linear Discriminant Analysis. He also discussed Isometric Map and Locality Linear Embedding techniques for dimensionality reduction. A brief approach for motivation behind improving those techniques further was then covered. Then, he presented modifications done by them in the existing techniques with a variety of case studies. He also presented implementation of the modified algorithms on video data. A wide range of results were presented and analysed to show that the modified algorithms published by Dr. Suman Mitra's group were proved superior in many aspects with reference to the existing techniques for dimensionality reduction for image recognition.

The talk concluded at 5:30 p.m. Dr. Prarthan Mehta, Student Branch Counselor, thanked the speaker with a memento. Dr. Prarthan Mehta and his team, then discussed about the benefits of joining IEEE as Student Member to the students. Dr. Suman Mitra and Dr. Mukesh Goswami presented discounts and benefits while joining Signal Processing Society.

REPORT ON BEGINNIG WITH ELECTRONICS PROJECTS WORKSHOP

The "IEEE Student Branch" of Dharamsinh Desai University organized a two-day workshop on "Introduction to PIC and STM32 Microcontrollers" for under-graduate students during 29th to 30th of December, 2018 at Dharamsinh Desai University, Nadiad. The workshop was specifically meant for freshman year students to junior year students. This introductory workshop was targeted for those students, who wanted a Career in "Embedded Systems". A survey was conducted before a workshop to see how many students were interested in attending a workshop, and we got response of 50 students from ECE, ICE, ITE branch. Out of 39 students 37 NON-IEEE Members and 2 IEEE Member students participated in workshop in a team of two members by paying fees 100Rs for Non-IEEE student members and 50Rs for IEEE student members.

Speaking on the occasion, Orator Jenish Rudani, 6th semester student of Electronics and Communication Engineering started the workshop by giving brief explanation on some of his past projects. After that he gave some of the factual data on average salary for Embedded System Engineer. Then he explained which microcontroller participants were going to study. One of the student from participants asked why 'PIC' microcontroller why not "Arduino" or famous "Raspberry PI". To explain answer that question, he asked the question "If I want to design a spacecraft flight controller, Which will take off from earth and touches the orbit of earth and lands on earth surface, what specification I might need in terms of speed and memory of controller". There were several answer e.g. "3GHz, 64 Gb", "1 MHz, 16 Gb" and then he answered that flight controller used in "Sojourner" rover had only single CPU called 80C85 with 2MHz clock at 100KIPS(0.1 M Instruction per seconds) and 64Kb max memory. Students were shocked after hearing this, and then orator explained why it was necessary for the students to learn about "PIC" and alike microcontroller. After the installation process of software he started explaining how to interface LEDs with "PIC16F877A" and simulate it on another software. Students were given different tasks to simulate LEDs connected with microcontroller.

After the break, Jenish explained hexadecimal and binary numbers which was necessary for interfacing "Seven Segment" with microcontroller. Then after students were given a task to display 0 to 9 numbers onto Seven segment, many students quickly interpreted the logic to print the numbers but were unsuccessful in simulating it because they had to do it with "Embedded C Programming" which they were using first-time. Jenish explained them basic model of the programming language, which were the error that might show up, how to solve such errors. He also explained the use of taking unsigned variables in the program since microcontroller don't work with signed number, for memory optimization. He stated "It's okay, if you are not able to grasp what all this is. Just try to analyse how we are writing the code, how we are defining variables. You will eventually understand

the method with little bit of practice". After then co-ordinators helped students solve some error, gave their personal experiences, when they started doing this. At the end of first day, students were given the assignment to "Interfacing two seven segment with PIC16F877A and display 00 to 99 numbers". They could take the help from "Google.com" by surfing same assignment statement with a condition that they should be able to explain it next day.

Moments Of 1st Day:

On 2nd Day, Rahul Ajemriya, 6th semester student and Dharm Patel, 4th semester student of ECE branch started by sharing some of their past projects. Students were taught interfacing "Two Digit Seven Segment", after they successfully interfaced and simulated it, Jenish explained "Analog To Digital Converter". He explained interfacing of ADC in "PIC16F877A". At the end, Students were given a task to interface ADC to take reading from "LM35-Temperature Sensor" and print readings onto "Two Digit 7-Segment". Many students were able to quickly write logic and program of it. After that students did hardware interfacing in form of group. Then after Jenish explained basics of "STM32F407VG-DISC1 Kit" and workshop was concluded.

At the end student were asked to give their honest **Feedback** and we have received total 29 responses and data is displayed below:

Was the venue accessible?

29 responses

● Yes
● No
● Maybe

How relevant was agenda?

What could we have done better?

22 responses

Installation should be done from the home itself.

Everything was good, just make next workshop of 4to5 days. 1-2 days makes a bit fast for learning new things.

Yes

It's a request plz decide proper timings so that there is no alternate change in it..

More preparation required for such kind of workshop and details should be mentioned that what the workshop is exactly about in the registration form to get better understanding

Please provide all the software installation before workshop

Solve our problems very well give many knowledfe

No, every thing was good .I think...but yeah.....all these can't be done in 2 days.. if more days we had then it would become more satisfied and more interesting.

Do more project discussion in workshop

You had try your best

The Event is not conducting in two days, its learn too fast. So more time for any event to understand that

If installation process could have been faster.
Provide a description of workshop in the registration form.

By increasing the no. Of days of workshop

You all would have focused more on managing the installation time and the workshop shold have been of 3 to 4 days so u all could convey some topics in detail to us so we could understand better.

Your performance is very good .only reduce the speed of teaching

Time management

While teaching coding ,go slow

The allotted time (in terms of days)of the workshop would have been little more but otherwise was a good learning experience.

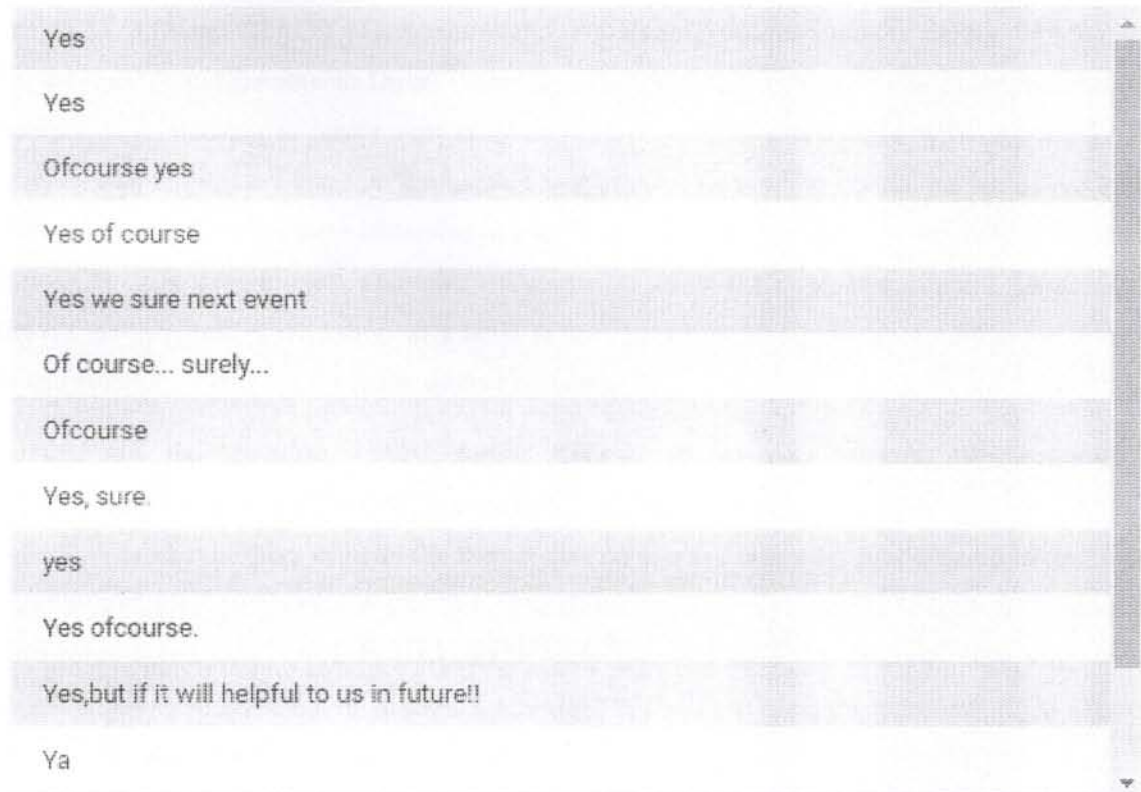

The Seminar was based on quite a lengthy topic. We got the insights into this topic but would also like to learn more on that topic. More no. of Seminars for the particular topics can be good and also better for the the topic experts not to hurry up in any manner. Overall it was nice but no. of seminars increment is what I am suggesting.

Can add more number of team members for teaching, sothat everyone can easily solve their difficulties.

Practical experience of Working as well as Usefulness of Embedded software and secure products...

Would you attend another event with us?

28 responses

Yes

Yes

Ofcourse yes

Yes of course

Yes we sure next event

Of course... surely...

Ofcourse

Yes, sure.

yes

Yes ofcourse.

Yes,but if it will helpful to us in future!!

Ya

Workshop was conducted successfully, students seemed excited and interactive throughout the workshop. Looking at their responses from workshop and curiosity throughout the workshop, We the members of "IEEE Student Branch" of "Dharamsinh Desai University" would be looking forward for many such workshops and events in Future.

Subject: Proposal to organize GUJCOST sponsored STTP at EC Dept.,

Respected Sir,

The Dept. of E & C Engg. has got sponsorship to organize STTP on "Emerging Wireless Communication Technologies - Fundamentals, Applications and Challenges". GUJCOST has sanctioned Rs. 30000/-. The details of the program are given below.

Coordinators : Dr. Hardip Shah and Dr. Prarthan Mehta
Tentative Dates : 26th - 30th November 2018.
Venue : Seminar Hall, Faculty of Technology
Number of Participants : 40
Reg. Fee : Rs. 750.00 (Rs. 250 for internal participants)
(with lunch for external only)

Estimate of Income & Expenditure:

Expenses			Income	
Sr. No.	Item	Estimate in Rs.	Item	Estimate in Rs.
1	Registration Kits & Speaker/Chair Felicitation	2500	Grant approved by GUJCOST	30000
2	Stationary, Printing Expenses & Miscellaneous Expenses	7500		
3	Lunch & Refreshments	15000	Income through registration fees	20000
4	Honorarium	12000		
5	Traveling Expenses for experts	8000		
6	Videography/Photography	5000		
	Total	50000	Total	50000

The expenses will be curtailed within the available fund, if required.

Kindly permit us to arrange the STTP and sanction the budget.

Manager - QA,
Reliance Jio, Mumbai

Sub: Sponsorship for STTP at D. D. University.

Dear Sir,

Department of Electronics & Communication, Faculty of Technology is organizing a one week training program on "Emerging Wireless Communication Technologies - Fundamentals, Applications and Challenges", for faculty members and research scholars from different technical institutes as per following details.

Dates: 26th - 30th November 2018.
Coordinators: Dr. Hardip Shah and Dr. Prarthan Mehta
(Associate Professors, EC Dept.)

Reliance Jio has successfully launched low cost telecom services with latest technological support of LTE 4G, which has completely changed scenario in this sector throughout the country. Further, Reliance Jio has continued to be the leader in offering other services based on the next generation wireless technology. We understand that the company would be not only interested but enthusiastic also to support a program that is crafted to provide awareness about next generation wireless communication technology by a leading technical institute of Gujarat.

We request your financial as well as technical support for this program. Your company experts may engage the sessions and explain features and challenges in LTE.

You may revert back to the program coordinator for specific concerns and expectations if any.

Looking forward to your favourable reply.

Dear Sir,

Thank you very much for supporting the activity.

Since we received the approval after the proposed dates (i.e. 30/04/2018), we have planned to conduct the program in October/November 2018 as GUJCOST being the Main Sponsor of the event. Exact dates will be intimated later.

We will submit the Utilization Certificate & the necessary documents within one month after the completion of the Program.

Regards,

D. G. Panchal

Report

Short Term Training Program
on
Emerging Wireless Technologies – Fundamentals, Applications and Challenges
(26th to 30th November, 2018)
Organized by Department of Electronics and communication

sponsored by

**GUJARAT COUNCIL ON
SCIENCE & TECHNOLOGY**

Department of Science & Technology
Government of Gujarat

and

IEEE GUJARAT SECTION

Number of Participants: 27

Faculty members from Faculty of Technology, Dharmsinh Desai University from EC, CE and IT dept. , GCET, Vallabh Vidyanagar and CGPIT, Bardoli have participated in the program

List of the Experts :

1. Mr. Brijesh Shah, Asst. Vice President, Reliance Jio Infocomm, Mumbai
2. Dr. Dhaval Patel, Professor, Ahmedabad University, Ahmedabad
3. Mr. Manindersingh Virk, IAN Lead, Reliance Jio, Vadodara
4. Dr. Nikhil Kothari, Professor and Head, EC, FoT, Dharmsinh Desai University, Nadiad
5. Dr. Vinay Thumar, Associate Professor, EC, FoT, Dharmsinh Desai University, Nadiad
6. Dr. Hardip Shah, Professor, EC, FoT, Dharmsinh Desai University, Nadiad
7. Mr. Yogesh Solunke, Jyoti Microelectronics, Ahmedabad

Group Photo graph of all the participants with Head, EC and one of the experts.

Day 1, 26 November, 2018

The program started with expert Lecture of Mr. Brijesh Shah, Asst. Vice President, Coverage and Capacity RF quality Assurance, Reliance Jio Infocomm, Mumbai. He covered various topics like Evolution of cellular Technology, 4G LTE and pre 5G scenario and delivered his talk whole day.

Mr. Brijesh Shah, Asst. VP, Reliance Jio Infocomm, Mumbai - delivering expert talk on Day 1.

Day 2, 27th November 2018

Few advance topics in wireless communication like Cognitive Radio, WCDMA , cooperative Relay were covered by Dr. Vinay Thumar, Asso. Professor, DDU in the morning session. Fundamentals of MIMO and OFDM were discussed by Dr. Hardip Shah, Professor EC and coordinator of the event in the post lunch session. The participants carried out hands on in the last session.

Day 3, 28th November 2018

In the mornig Session, Dr. Dhaval Patel, Professor Ahmedabad University has shared details on Next Generation wireless communication and importance of upcoming technologies related to artificial intelligenlge, Machine learning etc. He had also discussed his projects in collaboration with universities in UK.

Another sessions on the day was related to importance of research documentation and presentation using LaTeX followed by handson. The session was carried out by one of the coordinators of the event Dr. Hardip Shah. The session was made open for all the faculty members of FoT irrespective of their registration in the program.

Day 4, 29th November, 2018

Dr. Prarthan Mehta discussed the basics of metamaterials followed by a variety of its applications. He also demonstrated few implemented work based on the concept. To conclude the session he presented applications of his GUJCOST sponsored project.

Post lunch sessions were engaged by the experts from Jyoti Microelectronics, Ahmedabad. They have presented a typical design workflow for CST Microwave Studio followed by hadson sessions. They have also discussed a few design based on 5G technology also.

Day 5, 30th December, 2018

The morning session was aimed at motivating the research scholars and making them cautious about various factors during their research. The title was "Research – Simulations, Presentation and Publication" delivered by Dr. Nikhil Kothari, Professor and Head, EC Dept. DDU. He has presented with several case studies of research activities by some faculty members of the department. The session was made open for all the faculty members of FoT irrespective of their registration in the program.

The final session on "LTE 4G with service provider's perspective" was delivered by Mr. Manindersingh Virk, IAN Lead, Reliance Jio, Vadodara. The event was concluded with feedback from participants and certificate distribution.

About Department of Electronics & Communication

Accredited twice by NBA, the department was established in the year 1981 and at present offers UG as well as PG Program with doctorate studies extension. Well qualified faculty strength of the department includes doctorates and faculty members pursuing Ph. D. The department is engaged in research activities in the fields of Wireless Communication & Networking, Digital Signal Processing, VLSI, Image Processing and Antenna Modeling.

The department has ten well-equipped laboratories with state of the art equipments to cater to the needs of UG and PG students.

Program Details

The recent migration of telecom networks to 4G wireless communication has not only enhanced data rate and quality of service but also changed the network architecture and consequently behavior and operation at network level. The trend is most likely to continue in case of the development and deployment of 5G networks as well. This is a result of successful application of different advance communication technologies of air interface (such as OFDM, MIMO...), network architecture (HetNet, SoN, CoMP, Relays...), Antenna design etc., which have undergone extensive investigations attempted by research community since long. This program is designed to address the need of faculty members, research scholars and professionals engaged in relevant field of technology.

The program includes sessions on design of Base Station (eNodeB), the issues and challenges in PHY and MAC layer of 4G LTE and challenges in development and deployment of the latest technologies. The program also covers design aspects of antenna miniaturization and numerical modeling. Additionally, simulation based hands-on for the relevant topics are planned during this STTP. The program will also equip the young researchers with the documentation and presentation skill using LaTeX. Technical sessions will be conducted by experts from industry and research organizations besides senior faculty members of the department.

The contents of the program are as follows.....

- Fundamentals of OFDM, MIMO and Massive MIMO systems
- Migration from 2G / 3G to 4G LTE
- Issues and challenges in eNodeB design
- PHY and MAC layer of 4G LTE / WiFi
- Pre - 5G scenario
- Cognitive Radio
- Deep space (interplanetary) networks
- Advancements in Antenna Technology
- Research documentation and presentations using LaTeX

Registration Details

The course is open to the academicians from Engineering Colleges and Polytechnics and PG students. Professionals working in R&D Organizations/Industries are also eligible to apply for the course.

The registration fees for different categories is mentioned below:

Academicians	₹ 750.00
Delegate from Industry	₹ 2000.00
PG students	₹ 500.00

The course fee includes working lunch, tea and a certificate upon sincere participation. Accommodation will be provided to the participants on chargeable basis on demand.

The mode of payment can be Cash or through DD. The DD should be drawn in favour of Dharmsinh Desai University A/C, Payable at Nadiad.

Last Date of Registration: 03/11/2018

Sub.: Permission for organizing 'Law Awareness Program for Women' Sponsored by Gujarat State Commission for Women

Respected Sir,

We are glad to inform you that we have been given another opportunity to conduct one day seminar - 'Law Awareness Program for Women' with grant of Rs.2.16,000/- (Max) by Gujarat State Commission for Women.

We are planning to invite legal advisors, doctors and senior government officers for conducting sessions of the seminar. The program will also be supported by top officials of Mahila Ayog.

We wish to conduct this program for our students and lady faculty members as well as participants from other institutions of town on 24/01/2018 in Multimedia Hall.

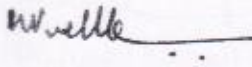

We have already received, an advance of Rs. 1,00,000/- from the commission. Additional expenses will be reimbursed after completion of the program on submission of bills.

Prof. Shital Thakkar and Prof. Hetal Shah of the department will coordinate the event.

The budgetary estimate of various expenses for the program is attached for your kind approval.

Report

Law Awareness Program for Women

Date: 22nd January, 2019

Venue: Multimedia Hall, Dharmsinh Desai University, Nadiad.

The program was sponsored by Gujarat State Commission for Women, Govt. Of Gujarat, Gandhinagar and organized by Department of Electronics & Communication Engineering, Dharmsinh Desai University, Nadiad.

The program was inaugurated at 10:00 am. in presence of esteemed guests including Mrs. Veenaben Patel (Additional Collector & Member Secretary - GSCW & Guest of Honor) , Mr. Divya Mishra (Superintendent of Police, Kheda District) , Mr. Prerak Patel(Undersecretary, GSCW). Prof. D. G. Panchal (Dean, Faculty of Technology, DDU), Prof. Rajnikant Jain (Registrar, DDU) and Dr. Nikhil Kothari (Head, EC Dept., DDU) represented Dharmsinh Desai University. Inaugural function started with lamp lighting and prayer followed by speeches of the members on the Dias. Dr. Nikhil Kothari presented the details of the event and event participation. He also provided outline of Electronics & Communication Department activities. Prof. D. G. Panchal (Dean, FoT) welcomed the gathering and gave information about Faculty of Technology. He talked about progress of the University and importance of basic values in the education at the campus. Mr. Divya Mishra (SP) appreciated the idea of such program and its necessity. Being in police department, he also discussed various cases related to women harassment, and safer as well as meaningful use of social media etc. Mr. Prerak Patel (Undersecretary, GSCW) introduced the Gujarat State Commission for Women. The Guest of Honor, additional collector of Gujarat State Commission for Women, Mrs. Veenaben Patel delivered keynote address and explained the role of commission for women in problems and encouraged women for approaching the commission for any troublesome situations like insensitive behavior of in laws or husband, divorce or health related issues. She talked in detail about various provisions made by the state government including commission helpline number 181, which can help the girls/women in case of any emergency related to social or family issues.

The inaugural function was attended by heads of other department of the University, faculty members and media representatives, apart from participants of the program.

The inaugural function of the program concluded with vote of thanks from the faculty coordinator Prof. Mrs. Hetal Shah.

Participation

Total of 540 participants including students of different institutions and faculty members attended the program. Participants registered in the program from different faculties of Dharmsinh Desai University and other leading medical institutes of Nadiad. Out of all students

participation are from B. Com. (170) , B. B. A. (39) , M. Com. (23) Pharmacy (42) and Electronics & Communication Engg. (171). Above these, 45 faculty members also attended the program.

Lectures of the Event:

After inaugural function, lectures were delivered on different topics by three eminent experts in their respective fields. The topic of the lectures were carefully planned as role of police in women harassment cases, medico-legal issues concerning women in India and women and well-being.

1. Mrs. Arpita Patel (DySP, Kapadvanj)

The first speaker of the lecture series, Mrs. Arpita Patel is DySP in Kapadvanj area. She is M. A. with B. Ed. in English literature. She is recruited as DySP through direct recruitment in 2011. She has also served as Assistant Commissioner of Police at Ahmadabad in sabarmati, ranip, madhupura and chandkheda branch. She delivered lecture on **‘Role of Police in Women Harassment Cases’**.

Her in depth presentation covered different situations that can be considered as harassment to women, such as domestic violence, Eve-teasing, rape , murder and dowry related issues. She also advised to identify type of behavior in home or office environment, which should be noted as sexual assault. She imparted knowledge on POSCO act and IPC 498. The Protection of Children from Sexual Offenses (POCSO) Act, 2012 was enacted to provide a robust legal framework for the protection of children from offenses of sexual assault, sexual harassment and pornography, while safeguarding the interest of the child at every stage of the judicial process. She urged to use 1098 child helpline number for any problem with child. She also suggested precautions and solutions or support given to women in above mentioned cases. She explained various verbal and physical measures for protecting herself in difficult situations. Besides, she highlighted care taken by police department in sensitive cases.

2. Dr. Swapnil Agarwal (Head, Forensic Medicine, Pramukhswami Medical College)

The second lecture was on the topic **‘Medicolegal Issues Concerning Women in India’**, by Dr. Swapnil Agarwal. Dr. Agarwal is currently a professor at department of Forensic Medicine & Toxicology, Pramukhswami Medical College & SK Hospital, Karamsad. He is MBBS, MD, DNB [Forensic Medicine & Toxicology]. He has published more than 36 papers in various indexed journals and written two books.

He discussed various serious health related issues for women specifically from a legal view point. He explained health related problems in which women can ask for divorce. He deals with cases of domestic violence. He explained protection available from laws for a women in rape or domestic violence cases. He also explained role of forensic science in medico legal issues.

3. Dr. Archana Parikh (Gynecologist)

The third and last lecture in the event was conducted by Dr. Archana Parikh on the topic of '**Women and Well-Being**'. Dr. Archana Parikh is practicing Gynecologist in Nadiad since many years.

Being doctor, she enquired students about their fitness. She prompted for knowing their capacity to run for 5 kms or cycle/Swim for longer period. With such relevant questions, she explained the need of exercise and well balanced food in diet for overall health.

Coordinators

Prof. Mrs. Shital Thakkar and Prof. Mrs. Hetal Shah of Department of Electronics & Communication Engg., Faculty of Technology, Dharmsinh Desai University coordinated the event. Prof. Shital (M. E.) and Prof. Hetal (M. E.) have more than 18 years of teaching at the department.

05-OCT-18

Sub.: Approval for a seminar on Current Market Trends and Opportunities on
05/10/2018 under IEEE Student Branch

Respected Sir,

We are planning to organize the above mentioned seminar on 05/10/2018 for the students of our University. The details are as under.

Title : Current Market Trends and Opportunities
Date & Time : 05/10/2018
13:30 hrs. – 16:00 hrs.
Venue : Room No. 22
Expected
Participants & Fee: 40 (minimum) B. Tech. (EC/IC/CE/IT) Sem. III/V/VII
No registration fee will be charged.
Expert : Mr. Sswayam P Ranjan
CEO
Analytics Valley Technologies Pvt. Ltd.

The travelling expenses of the expert will be borne by IEEE Gujarat Section.

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Memento for the expert	500.00
Total		500.00

The expenses may be reimbursed from the DDU IEEE Students' Branch account.
The current balance in DDU IEEE Students' Branch account is more than Rs. 80000.00

Dr. Prarthan Mehta will co-ordinate the event.

Kindly permit us to arrange the workshop and sanction the budget.

Sswayam P Ranjan
CEO
Analytics Valley Technologies Pvt. Ltd.

PROFESSIONAL SUMMARY

- Currently Serving as CEO of Analytics Valley Technologies Pvt.Ltd.
- Good at **Sales management, Service Management, Marketing Management, Loyalty Management, Social Media and Subscription management.** Adept at **mapping client's requirements**, custom designing solutions & troubleshooting for complex Information Systems Management. Exceptional in collaborating with & motivating multiple groups for completing tasks & exceeding expectations. Change agent & problem solver with a passion for finance & technology; skilled in grasping the big picture, conceptualizing, developing, implementing solutions & partnering closely with business leaders & senior level executives in the parent and customer organization. **Excellent in CRM Analytics, Leveraging OLTP CRM experience to Customer Analytics, in Automotive, Banking, Retail, Airlines, Telecom. Diligent and self-motivated Technocrat with over 10 years of rich & qualitative experience majorly in Project Execution Application Management, Team management, Project Delivery in CRM. Domain Expertise:** Public Service, Telecom, Retail, Banking, e-Governance, Pharma, Airlines, Hi Tech Industry & Automotive Sector.

- Areas of expertise includes**

Project Management	Business Analysis	Requirements Gathering
GAP Analysis	Testing & Implementation	Software Testing
Application and System Support	SLA Management/Client Relationship Management	Operational Reviews & Analysis
Presales		

Professional Experience

CRM/ Billing:

• Siebel CRM	9.2 Yrs
• Subscription Management	1.6 Yrs
• Sales Module	3 Yrs
• Marketing Module	3 Yrs
• Service Module	3 Yrs
• SFDC	1.6 Yrs

Project Management/Presentation Tool:

• Microsoft Project	2 Yrs
• Microsoft Visio	9 Yrs
• MS Office	9 Yrs
• Quality Center	4 Yrs
• Igrafix	3 Yrs

Advance Analytics

• R	2 Yrs
• Tableau	2 Yrs
• Stata	6 M
• Mini Tab	1 Yr
• Tibco Spotfire	1 Yr

Concepts on Advance Analytics:

• Machine Learning	2 Yrs
• Liner Programming	1 Yr
• Statistical Analysis	2 Yrs
• Predictive Modeling	1 Yr
• Clustering and Classification	2 Yrs

PUBLICATIONS / PAPERS

- Thesis on Asset Management "Transportation and Highway".

PROJECT DETAILS

CEO of a company CEO since 2014 - Till Date.

Title:	CBS Transformation Project, Siebel Upgrade from 8.1.1.0 to 8.1.1.8 / VIVA / Bahrain
Tenure:	July 2013 - Dec 2014
Technologies:	Siebel 8.1.1.8, Oracle 12g, Windows
Project Profile:	VIVA is one of the youngest and leading Service Provider in Bahrain. VIVA has multiple line of business i.e GSM, Broadband. Oracle Billing was replaced by Huawei Billing System. Most of the existing pain areas was resolved I Siebel by using Out - of - the box upgraded features.

Role: Project Management / Sr. Business Analyst

Highlights

- Conducted Project Planning for CBS transformation
- Interacted with multiple stakeholders within Project about project Status.
- Resource planning Onsite - Offshore
- Co-ordinated with offshore project manager, on multiple activities.
- Administered 20 members who were from onsite were reporting.
- Weekly Steering Committee with customers, highlighting risk, project status and dependency
- Understanding AS - IS telecom process and deployment process of Siebel.
- Defining Technical Proposal, Scope of work for Drop 2 and Drop 3 to meet phase release.
- Requirement Gathering for drop 2 and 3 with a team of Business users.

- Preparation of High Level Design and Functional Design / Business Requirement Specification documents.
- Close co-ordination with the business team and developers.
- Worked closely with configuration/ Technical team for Application development.
- End-to-end analysis of business requirements, mapping the requirements to new test cases for Siebel front end.
- Defining the Organization Structure preparation of Visibility Matrix.

Title: Pre Sales/ CYTA - VIP- VODAONE GHANA - VIVA - GLO - ZAIN/ in Multiple Geography
Technologies: Siebel 8.1.X Oracle
Tenure: June 2011 - June 2012
Highlights

- Worked closely with Huawei Local Regional Office and Sales person.
- Won GLO / VIVA project proposal.
- Understanding existing RFP release from the customer.
- Complete Siebel compliance / Siebel Solution to the response for proposal.
- Given multiple Pre-sales presentations to the customer at customer location based on the evaluation criteria.
- Responded multiple queries on live customer session.
- Complete ownership for response raised by customer.

Title: Order Management, Handheld deployment / Alpina / Bogota, Columbia

Title: Lead Enhancement Generation System, Direct Sales Center / Assurant Health / Pune, India

Title: Loyalty Program and Universal Customer Master / Kenya Airways. / Nairobi, Kenya

Title: Wave II Siebel Support / National Australia Bank / Melbourne, Australia.

Title: AARP Marketing Campaign / Walgreens / Chicago, USA

Title: Voyager / Agilent Technologies / Santa Clara, USA

Title: National Home Builders Registration Council / NHBRC / Pretoria, South Africa.

Title: NMAC STeP Program - Phase IB/ NISSAN / Texas, USA

[Note : Above Projects stated are done in Siebel with multiple Version]

ORGANISATIONAL EXPERIENCE

Sept 14 - Till Date	Founder of Analytics Valley Technologies Pvt. Ltd.
May'11- Aug '14:	Huawei Technologies, Bangalore as Technical Lead Services
Jul'09- May'11:	Zensar Technologies, Hyderabad as Sr. Business Analyst
May'05-Jul'09:	Satyam Computer Services Ltd., Chennai / Hyderabad as Business Analyst Executed gamut of tasks like Project Management, Pre-Sales, Customizations Development, Support and Maintenance, Migration and Up-gradation projects in Siebel CRM

Some Precious Moments of The Talk: -

5-10-18

Report on expert talk on Current trends in technology

The industry is an ever-changing phenomenon and their demand changes according to change in technology in the era. So, it is important for students to know the irrefutable needs of the market with respect to their academics and current technologies. Keeping this in mind, the IEEE DDU Student branch organized a two-hour expert talk on Current trends in technology on 5th October 2018 at the Seminar hall of Faculty of technology in Dharmasinh Desai University. The audience consisted of 1st to 4th year Engineering students.

The expert invited was Mr. Swayam Ranjan who is Chief Executive Officer and a co-founder of the company "Analytics Valley". Being alumni of ISB Hyderabad and IITM Gwalior, he has immense knowledge in management studies. Having worked with many industries he has rich & qualitative experience in fields of Application Management, Team Management, Project Delivery and CRM. The Chief Guest invited was Ms. Anjali Diwan, the student activity head of IEEE Gujarat section.

With an expert as accomplished as Mr. Swayam Ranjan, the seminar started at 15:00 hrs with the felicitation of our expert and our chief guest by Dr. Prathan Mehta, Associate Professor of DDU college and head of IEEE DDU Student Branch. After which the talk started with some meaningful questions by the attendees for the expert. The expert responded with clear and meaningful answers. Mr. Ranjan then talked about his company and its vision to add value of life through data insight. The difference between idea, knowledge and innovation was clearly resolved by him. The topic of start-up vs multinational companies was also discussed. The hardships and needs of a start-up company were also explained by him.

Mr. Swayam Ranjan then gave us idea about the type of skills a company expects from an employee. He also introduced us to the difficulties faced by industry due to always changing demands of the customer and market. Our contribution to reduce these problems were explained by him. The example of his company and its demands was given to give us the general idea of the industry. The expert also motivated us to do our own projects and research in college. He gave us the excellent idea to create aims and vision for our life and explained how it can help achieve what we want in our life. His presentation was ended on this note and was followed with some quick questionnaire from the audience.

There were total of 67 enthusiasts participated, among which 20 IEEE members and 47 non-IEEE members present. In managing the whole seminar in short notice the credit goes to Hetvi Shah, Mahek Vyas, Rinal Dhokai, Abbas Rangwala, Rahul Ajmeriya, Dhruvit Vasavada.

The talk was followed by some insights of Ms. Anjali Diwan on how IEEE can help students in various aspects and shared the benefits of IEEE to the new members of IEEE DDU Student Branch. The seminar was ended by a little gossip between Ms. Diwan and existing IEEE members of the college.

2018-19

Date: 11th October, 2018

To,
Vice Chancellor,
D. D. University

**SUB: Three Day Workshop on "Simulation of Electronics Circuits and Single Layer PCB Design"
under the banner of DDU IEEE Students' Branch.**

Respected Sir,

We are planning to organize the above mentioned workshop on 29/10/2018 to 01/11/2018 for the students of our university. The details are under,

Title : Simulation of Electronics Circuit and Single Layer PCB Design
Day & Time : Day-1: 29/10/2018 (10:00 to 12:00 AM) & (1:00 to 3:00 PM)
Day-2: 30/10/2018 (10:00 to 12:00 AM) & (1:00 to 3:00 PM)
Day-3: 01/11/2018 (10:00 to 12:00 AM) & (1:00 to 3:00 PM)

Target Audience: B. Tech. (EC/IC/CE/IT) Sem.-III

Venue : Room No. 21

Expected Participants & Fee: 20 (Minimum)
INR 150.00 for IEEE Member
INR 200.00 for Non-IEEE Member

Expected Income: $30 \times 200 = 6000$

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Poster Printing	300
2	Certificates & Printed Material	800
3	Electronics Components	3000
4	Stationary & Miscellaneous	900
5	Refreshment (Last Day Only)	1000
Total		6000

The shortfall may be adjusted from the DDU IEEE Students' Branch account.

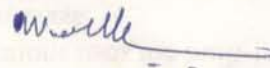

Prof. Pinkesh Patel and Prof. Rachit Dana will Co-ordinate the workshop.

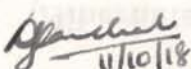

Kindly permit us to arrange the workshop & sanction the budget.

**SUMMARY REPORT
of
3-DAY WORKSHOP
on**

“Simulation of Electronics Circuit & Single Layer PCB Design”

DDU IEEE student branch has organized a 3-day workshop on “Simulation of Electronics Circuit & Single Layer PCB Design” dated 29th October, 30th October & 1st November, 2018. Total 19 students from D. D, University has attended the workshop. The content covered in this workshop as mentioned in below table,

Date/Day	Session-1 (10:00 AM to 12:00 PM)	Session-2 (1:00 to 3:00 PM)
29 th October, 2018 (Monday)	<ul style="list-style-type: none"> ✓ Learning Objective of Workshop ✓ Installation of Multisim ✓ Simulation of Digital Circuits <ul style="list-style-type: none"> • Half & Full Adder • 2-bit Counter using J-K Flipflop • 8*1 Multiplexer • BCD to 7-Segment Display • 4-Bit Counter • Shift Register ✓ Question Answers Session 	<ul style="list-style-type: none"> ✓ Simulation of Analog Circuits <ul style="list-style-type: none"> • Transistor as a Switch • CE Amplifier • Effect of R_C Variation on Gain • Effect of R_E Variation on Gain • Emitter Follower • CB Amplifier • Multistage Amplifier ✓ Question Answers Session
30 th October, 2018 (Tuesday)	<ul style="list-style-type: none"> ✓ Installation of Proteus 7.1 ✓ Layout Design of Analog Circuits ✓ Layout Design of Digital Circuits 	<ul style="list-style-type: none"> ✓ Circuit Design of 12V Power Supply ✓ Layout Design of 12V Power Supply ✓ Procedure of PCB Design Process
1 st November, 2018 (Thursday)	<p style="text-align: center;">(08:30 AM to 2:00 PM)</p> <ul style="list-style-type: none"> ✓ PCB Design of 12V Power Supply Etching, Drilling, Soldering, Verification of PCB Design 	

At the end of workshop students has designed single layer PCB of 12 V variable power supply.

To,
The Vice Chancellor,
D. D. University.

Subject: Approval for organizing a workshop on Raspberry Pi under DDU
IEEE Student Branch

Respected Sir,

We are planning to organize a workshop on "Beginning with Raspberry Pi" on 19th (Thursday) and 20th (Friday) of July, 2018.

Title : Beginning with Raspberry Pi
Date & Time : Day 1: 19/07/2018 09:00 hrs. – 17:30 hrs.
Day 2: 20/07/2018 09:00 hrs. – 17:30 hrs.
Venue : **Seminar Hall, Faculty of Technology.**
Expected Participants & Fee : 15 teams (3 student per team) (B. Tech. EC/CE/IT/ME)
NIL for IEEE member
Rs. 210.00 for Non-IEEE member

Expected income : $210 \times 15 = 3150.00$

Estimate of Expenditure:

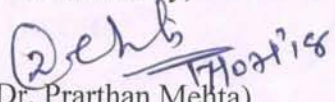

Sr. No.	Item	Estimate in Rs.
1	LAN Cables and connectors	2000.00
2	Jumper Wires and LEDs	675.00
3	Certificates, posters and banners	475.00
Total		3150.00

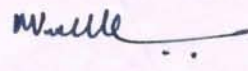

The expenses will be curtailed as per the income generated.

Dr. Prarthan Mehta will co-ordinate the workshop.

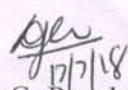

Kindly allow us to conduct the workshop and approve the budget.

Yours sincerely,

(Dr. Prarthan Mehta)
DDU IEEE Student Branch Counselor

19-July-18

Report on Raspberry-Pi workshop 2018

IEEE DDU SB has organized a two day workshop on Raspberry-Pi and the purpose was to make the students learn what basically is Raspberry Pi ,how it can change the modern day computer system, what are the developments that has been taking place in this field.

The schedule of the workshop was that, in two days the 1st day will be devoted to introduce the topic and some practical to the students and 2nd day will be the further more information about Raspberry Pi and Raspberry OS and ideas about some real time projects.

There were 6 IEEE members and 21 non-IEEE members participation.

DAY-1

On the first day of the workshop the students were taught the introduction to Microcontroller, Introduction to programming, Introduction to python programming language. There were several topics which were covered inside the main topics stated below & those are as follows:

Introduction to Microcontroller

- . Difference between Microcontroller and Microprocessor
- . Introduction to Raspberry Pi
- . GPIOs

Introduction to programming

- . Basic of python
- . Programming Raspberry Pi using python
- . LED blinking using programming
- . H&S coding

Students were divided into group of 3. Day 1 of the workshop was focussed on the theoretical aspect of the Raspberry Pi , the basic concepts of electronics & coding language were given importance as well. The students were briefly explained about the latest technology that is been developing around Raspberry Pi. Students were provided with the Raspberry Pi kit by co-ordinator.

DAY 2

19/9/18

Day 2 session was included with the practical utilization of the Raspberry Pi kit. Students were taught the technical part of the Raspberry Pi and told the application of Raspberry Pi on Home automation. Following are the events that occurred on second day:-

H&S on session

.Setting up Raspberry Pi

.Flashing the SD card with the OS

.Booting with OS

.Introduction of items on the desktop

.Enabling GPIO pins

.LED interfacing using the GPIO

External peripheral interface programming

.LED & Switches interface using Breadboard

The workshop was conducted successfully. The students seemed to be enthusiastic throughout the workshop. Looking at their response we the members of IEEE DDU SB would be looking forward for many such workshops n events in future.

Few Glimpse of the Workshop:-

Sub.: Approval for an event titled *Seekers' Quest* on 09/03/2019 under IEEE
Student Branch

Respected Sir,

We are planning to organize the above mentioned ^{event} on 09/03/2019 for the students of our University. The details are as under,

Title : Seekers' Quest
Date & Time : 09/03/2019
10:00 hrs. – 17:30 hrs.
Venue : Room No. 21 and 22
MMH Garden, Faculty of Technology

Expected
Participants & Fee: 15 Teams from B. Tech. Sem. II/IV/VI
Rs. 200.00 per team for IEEE Student Members
Rs. 250.00 per team for Non-IEEE Student Members

Expected Income: Rs. 3000.00

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Print, Stationary, Banner, etc.	1000.00
2	Winning Price	2000.00
Total		3000.00

Expenses will be curtailed to the total income as registration fees.

Dr. Prarthan Mehta will co-ordinate the event.

Kindly permit us to arrange the workshop and sanction the budget.

Encls. : Details of planned event.

Title:- Seekers' Quest! (Fun event)

Students have to participate as a team of 4 members.

This event is divided into 4 LEVELS:

***LEVEL 1*:** (riddle/puzzle solving)

Only one member from the team is allowed to solve the given question and after he/she solves it the answer will be the clue (a word) for the second member of the team.

***LEVEL 2*:**

Second member have to pick up the envelope of the name which was the answer of the first riddle. In the envelope there will be a list of 20-30 different items. Limited time will be given to the second member to memorize the items and then write them down in a sheet. Later after submitting the sheet to the respective volunteer, they will be given back the original list. From the first letters of each item they can form a proper word which will describe a place in the college campus. Again the points will be given according to the time they take in finding the correct word.

***LEVEL 3*:**

Rest of the two members of the team can now participate in this level. This level will include some physical tasks, and at last they will be given a hint which will direct them to reach the next level.

***LEVEL 4*:**

All the 4 members will participate. In this level, coordination skills matter. Mind-games are planned during this level.

Date: 09/03/2019

Fun After Run

IEEE student branch of DDU organized one Non-Tech Event named “Fun After Run”. The event was divided into four rounds. There were a bunch of participating teams; each team had four participants in it. Total 6 number of teams participated in this non-tech event named "Fun After Run". 2 IEEE teams and 4 Non - IEEE teams took part in this event. All four rounds had different activities. The first three rounds were to evaluate mental ability test & puzzle solving. The fourth round had a different yet interesting kind of activity. In this round they arranged one quiz for the participating team which entered the 4th round by clearing 1st, 2nd and 3rd round subsequently. The team which passed all these four rounds flawlessly, was declared the winner team among all the participating teams. Winner of the event is Avnish Mishra (EC 8th semester) and Laxmikant Upadhyay (EC 8th semester) The winners were then felicitated with the prizes, which contained coupons to a movie and lunch at restaurant. The program ended after taking a group photo of all teams.

Sub.: Approval for a workshop on *Simple Automated Systems - DIY* on 21st February 2019 under IEEE Student Branch

Respected Sir,

We are planning to organize the above mentioned workshop on 21st February, 2019 for the students of our University. The details are as under.

Title : Simple Automated Systems - DIY
Date & Time : 21/02/2019 08:30 hrs. – 17:30 hrs.
Venue : Seminar Hall, Faculty of Technology

Expected Participants & Fee : 10 Teams (Minimum) - Three students per team of from B. Tech. (EC/IC/CE/IT) Sem. II/IV

Rs. 150 per team of three (IEEE Members)
Rs. 250 per team of three (Non-IEEE Members)

Expected Income : Rs. 2000.00

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Tea and refreshments	900.00
2	Certificates	300.00
3	Banners and printing materials	800.00
Total		2000.00

Dr. Prarthan Mehta will co-ordinate the event.

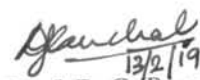

Program will be conducted by the student members of DDU IEEE Student Branch.

Kindly permit us to arrange the workshop and sanction the budget.

(Dr. Prarthan Mehta)

Simple Automated System - DIY

On 2nd March, Saturday the IEEE DDU Student Branch organized workshop "Simple Automated System - DIY" based on Application of Node MCU and google Assistant. Workshop was started by a general introduction to electronic circuits, IOT(Internet of Things) and other fundamental concepts. In this workshop live presentation was prepared so it was easy to understand for participants. Electronic and Communication , Computer Science , Information and Technology 2nd and 4th semester students participated in this workshop. Total 10 teams 5 IEEE teams and 5 NON-IEEE teams. After introduction participant students working on Hardware. In this session, they taught how to connect Home appliances to Google Assistance and Node MCU. Home appliances can be controlled by relay module so It's information and working was given in form of Live demonstration and presentation ppt. In afternoon snack was provided. Coordinator of Workshop was Rutvij Shah, Dharam Patel, Dixit Tanna. Many IEEE volunteer was present to help participant. In End of Workshop provide information about many Open-source projects and GitHub.

e-Info

To,
The Vice Chancellor,
D. D. University.

Sub.: Approval for a workshop on *VLSI Design* on 21st February 2019 under IEEE Student Branch by the experts from e-Infochips, Ahmedabad.

Respected Sir,

e-Infochips, Ahmedabad, initiated a program titled Industry-Academia Partisanship - 2019. As a part of this program they have planned to organize a workshop at our University with following details.

Title : VLSI Design
Date & Time : 16/03/2019 08:30 hrs. – 17:30 hrs.
Venue : **Computer Laboratories of the Department**
Expected
Participants : 50 from B. Tech. (EC) Sem. VI

There is no registration fees for the workshop.

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Mementoes for 04 experts from e-Infochips, Ahmedabad	4 x 500 = Rs. 2000.00
2	Lunch and refreshments for 04 experts	1000.00
Total		3000.00

Dr. Prarthan Mehta will co-ordinate the event.

Program will be conducted by the experts from e-Infochips, Ahmedabad.

Kindly permit us to arrange the workshop and sanction the budget.

Encls.: E-mail conversation with Mr. Nilesh Ranpura, e-Infochips, Ahmedabad

Dear Academia team

Thanks a lot for your kind support in Campus walk in and overall relationship.

We believe in simple belief : "Just Hire good people. Good people will make Good/Great/Eminent organisations..!!

We have been able to have wonderful engineers from your college and we sincerely thank from bottom of our heart.

We are starting following activities from Dec'18 to March'19

1. Industrial visits for EC, CE/IT students at elinfochips

- a. This covers elinfochips overview covering technology journey in various domains where Electronics and IT have reached in terms of idea implementation, product development and challenges we have seen. It also covers overview of job requirements, what kind of role Engineer play in organisation etc.

2. Expert lecture on below technologies at colleges

- a. Advance challenges in VLSI
- b. Advance software technologies : Cloud, Big Data, Android, Device driver
- c. Other : Robotics, IoT, DSP, Automotive and many more

3. Workshop on any of below covering industry based experience

- a. IoT
- b. Advance software testing
- c. Emerging trends in Embedded technologies
- d. Advance Verification in VLSI
- e. FPGA desing in VLSI
- f. Challenges in VLSI from RTL to GDSII

We will need your following help immediately (Do not respond to All while responding email)

- 1. We will need your date/schedule for industrial visit at EI immediately. Date range is Dec'18 to March'19**
2. Expert lecture schedule(You can discuss with your team and come up for schedule/topic/needs)- we will take
3. Workshop schedule (You can discuss with your team and come up for schedule/topic/needs)
4. **OR** any other such partnership you want to explore/experiment.

Respected Sir,

We shall now proceed for formal approval for which we request you to provide the followings:

1. Any specific requirement/expectation in addition to logistics.
2. Team size of experts.
3. Duration and tentative schedule, if possible.

Please note that Friday and Saturday (i.e. 8th and 9th) in the second week of March is not possible here.

We are planning to organize this workshop under the banner of DDU IEEE Student Branch.

Yours Sincerely,

[Quoted text hidden]

Hi Prathan

1. FPGA board, Desktops etc will be needed. We can freeze later. You can visit EI for a day to discuss this.
2. Experts : 4
3. Duration : 9am to 5pm.

Can we keep workshop on 15th or 16th march?

Workshop on ASIC Flow Conducted by E-Infochips

On 16th March 2019, IEEE DDU Student Branch Organized a Workshop on ASIC Flow which was addressed by the Experts from E-Infochips Ltd. It was a one day workshop in which 32 students took part from them 6 were IEEE members, Faculties also took part in it. Workshop started at 9'o clock in the morning, total 5 experts were present who took a lecture each, first lecture at 9:00 AM was on ASIC Flow Introduction and gave little insight on what we were going to study next, it was followed by a lecture on Verification and Testing of the HDL, which consisted the information on how to set input and test cases for the code to be sure of its authenticity and working, next lecture was on Chip analyzing and Floor Planning which was about mapping the circuit in our chip so that we can get reduced delay and overall better performance after its manufacturing, around 1:30PM students and experts were given a break for lunch and after lunch they continued the workshop by telling about DFT that is Design for testability and at last they gave a brief on how they work at E-Infochips and how others can apply for joining the company. Concluding the Session they showed various videos about the topics mentioned above, Session ended at 5:30 PM.

Photos of the workshop

Computer Society of India

DDU Student Branch

Cloud Computing

On 14th September, 2019(Saturday) an expert session on **Cloud Computing** was held by **Computer Society of India, DDU Student's Branch**.

The session began with a welcome speech for experts- **Sumit Udani** who is Microsoft Certified Technology Specialist in the .Net & Cloud solution and **Jay Doshi** (one of the alumni of DDU) who has experience in the .Net and cloud computing field, by CSI committee member, **Dipali Mishra**.

Thereafter, Mr. Udani began the session discussing some basic ideas of Cloud and gradually started building up deeper understanding .Further linking it to key services of Cloud Computing. The experts asked questions in between to make the session more interactive and lively.

Mr. Sumit Udani also acknowledged the '**Pay-as-you-go-Pricing**' feature and other features by relating them to real world problems. Cloud Segments like- **IaaS, PaaS** and **SaaS** were explained in brief.

The first half of the session ended with the experts briefing the key takeaways and some rapid fire questions.

Lunch break of approximately 45 mins was given and the session was further continued by Mr. Jay Doshi. After discussing Cloud Environment Terminology in detail a **live demo** of around an hour was performed. For this, Mr. Doshi created a virtual machine on Microsoft Azure and detailed the use of features in it.

The session was ended with some FAQs and students were satisfied. The entire session was kept very much interactive for students. The positive response of participants encouraged the CSI Club to take such expert session in future as well.

Rebase - A Developer Conference2 messages

Jatayu Baxi <jatayubaxi.ce@ddu.ac.in>

Wed, Mar 11, 2020 at 12:24 PM

To: Department of Computer Engineering <ce@ddu.ac.in>

Respected all Faculty Members ,

Developer Student Club and Microsoft Student Partner Club has organized below mentioned event on Saturday (14th March).

Tentative Schedule of the event is as follows :

Morning Slot : 9 AM to 12 Noon - Sessions on Flutter and SQL Server by External Speakers (Dhrumil Shah and Hemantgiri Goswami)

Afternoon Slot : 1 PM to 4 PM - Sessions by Internal Faculties (Prof. Jigar Pandya, Prof. Ashish Gor, Prof. Apurva Mehta, Prof. Jatayu baxi)

If you want to attend the above event, please reply to this email / WhatsApp me by Today 5.30 PM.

For more details and speaker Profiles, visit :

<https://www.ddustudent.com/rebase>

--

Prof. Jatayu H. Baxi
Assistant Professor,
Computer Engineering Department,
Dharmsinh Desai University,
Nadiad.
Mob : 99257 80426

The banner features a grid background. At the top, it displays the logos for 'Developer Student Clubs' and 'Microsoft Student Partners'. Below these, the word 'Rebase' is written in large blue letters, followed by 'A Developer Conference' in smaller text. The date 'Date : 14th March, 2020' and the phrase 'Save the Date' are prominently displayed in the center. On either side of the central text, there are diagrams illustrating Git branching models (Master, Feature, Develop) and icons representing a person and a menu.

Developer Student Club DDU and **Microsoft Student Partners** are organizing a joint event this Saturday, **Rebase!** Lots of computer science branches are advancing independently, with (git) Rebase we are hoping you will all catch up to these diverse technologies and domains. We will have different lectures from industry experts and veteran academics.

Speakers and their respective topic

- **Dhrumil Shah (Google Developer Expert of Flutter):** Build your first app on Mobile, Web & Desktop with Flutter
- **Hemantgiri Goswami (Microsoft MVP):** Let's avoid common mistakes in SQL Server
- **Prof. Apurva Mehta:** A glimpse of the Computational Biology
- **Prof. Ashishkumar Gor:** Intro to Blockchain Technology
- **Prof. Jatayu Baxi:** Basics of NLP and its applications
- **Prof. Jigar Pandya:** Support Search using Apache Solr

1. Expert lecture: Future Guidance

Prepared by: Abhay katrodiya

Date: 25th September, 2018

Venue: SAMINAR HALL,FoT,Dharmsinh Desai University ,Nadiad

Attendance: 74 students of Final year B.tech Chemical engineering, Dharmsinh Desai University, Nadiad.

Guest Lecturer: Mr Nirav Agrawal (Consultant at SI Visa Consulting Pvt. Ltd.)

An expert lecture for the students of chemical engineering was organized by the committee of IICHE under the guidance of Prof. Nirav Bhavsar (Associate Professor at DDU, Nadiad).

To begin the seminar with, Mr Nirav Agrawal introduced himself and shared his experience about how the further studies can be planned in foreign countries and how the foreign admission committee works. The most important thing he mentioned was about “how to write a decent SOP (statement of purpose)”. Mr Agrawal made us aware about the mistakes which generally students perform when they are asked to write their SOP. He guided the students with some remarkable tips about writing an SOP, for e.g. what to include in it and what not to. A good SOP contains a clear-cut intension of the student to join the organization, how he/she is favourable for the course/job i.e. mentioning his/her past experiences which makes him/her suitable for that course/job, and also the student should mention his/her ambitions in it. An SOP shall not contain bluff sentences and flowery words. These were the major points which were taught to the students.

To conclude the event we had an interactive session with the experts and students even cleared their doubts regarding foreign study planning. The Seminar was worth conducting as it removed a big question mark from the minds of students about writing a convincing SOP.

FACULTY OF DENTAL SCIENCE DHARMSINH DESAI UNIVERSITY

College Road, Nadiad - 387001.

Faculty of Dental Science in association with Department of health, Kheda District Panchayat had organized an awareness program on harmful effects of tobacco on 8th feb 2019 in lecture hall no 1 at 11:00 am onwards. Dr AjitThakar (Epidemic medical officer) had come as chief guest and gave brief information about harmful effects of tobacco. Many first year students and Interns had taken part in Anti-tobacco speech competition and first three rankers were rewarded with gifts. Staff members and Interns had participated enthusiastically and appreciated the programme.

**MECHANICAL ENGINEERING DEPARTMENT
FACULTY OF TECHNOLOGY
DHARMSINH DESAI UNIVERSITY, NADIAD**

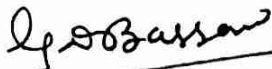

A Report on Expert Lecture on Career Development through Lean Six Sigma

Mechanical Engineering Department had organized an expert lecture on "Career Development through Lean Six Sigma" On 29/12/2018, during 10.30 AM to 1.30 PM, by Mr. Hiren Kakkad, Senior Consultant, Concept Business Excellent Pvt. Ltd., at Multimedia Hall, for the third year Mechanical Engineering students. Mr. Hiren Kakkad had very clearly explained to the students the concept of Lean Practices and concept of Lean Six Sigma Methodology. He illustrated importance and positive effect on business of these methodologies with the help of case studies. He also provide the approximate earnings of a technocrat possess Lean Six Sigma Training Certificate and the cost of various levels of Lean Six Sigma Training. The lecture gave the students an another option to develop their career as Lean Six Sigma Consultant. The lecture was attended by 92 Students in a live and enthusiastic manner.

BP105T.COMMUNICATION SKILLS (Theory)

30 Hours

Scope: This course will prepare the young pharmacy student to interact effectively with doctors, nurses, dentists, physiotherapists and other health workers. At the end of this course the student will get the soft skills set to work cohesively with the team as a team player and will add value to the pharmaceutical business.

Objectives:

Upon completion of the course the student shall be able to

1. Understand the behavioral needs for a Pharmacist to function effectively in the areas of pharmaceutical operation
2. Communicate effectively (Verbal and Non Verbal)
3. Effectively manage the team as a team player
4. Develop interview skills
5. Develop Leadership qualities and essentials

Course content:

UNIT – I

07 Hours

- **Communication Skills:** Introduction, Definition, The Importance of Communication, The Communication Process – Source, Message, Encoding, Channel, Decoding, Receiver, Feedback, Context
- **Barriers to communication:** Physiological Barriers, Physical Barriers, Cultural Barriers, Language Barriers, Gender Barriers, Interpersonal Barriers, Psychological Barriers, Emotional barriers
- **Perspectives in Communication:** Introduction, Visual Perception, Language, Other factors affecting our perspective - Past Experiences, Prejudices, Feelings, Environment

UNIT – II

07 Hours

- **Elements of Communication:** Introduction, Face to Face Communication - Tone of Voice, Body Language (Non-verbal communication), Verbal Communication, Physical Communication
- **Communication Styles:** Introduction, The Communication Styles Matrix with example for each -Direct Communication Style, Spirited Communication Style, Systematic Communication Style, Considerate Communication Style

Agarwal
25.2.21
Faculty of Pharmacy
Chaitanya Desai University
Nadiad - 387 001, (INDIA)

UNIT – III

07 Hours

- **Basic Listening Skills:** Introduction, Self-Awareness, Active Listening, Becoming an Active Listener, Listening in Difficult Situations
- **Effective Written Communication:** Introduction, When and When Not to Use Written Communication - Complexity of the Topic, Amount of Discussion' Required, Shades of Meaning, Formal Communication
- **Writing Effectively:** Subject Lines, Put the Main Point First, Know Your Audience, Organization of the Message

UNIT – IV

05 Hours

- **Interview Skills:** Purpose of an interview, Do's and Dont's of an interview
- **Giving Presentations:** Dealing with Fears, Planning your Presentation, Structuring Your Presentation, Delivering Your Presentation, Techniques of Delivery

UNIT – V

04 Hours

- **Group Discussion:** Introduction, Communication skills in group discussion, Do's and Dont's of group discussion

Nadiad - 387 001. (INDIA)

BP111P.COMMUNICATION SKILLS (Practical)

2 Hours / week

The following learning modules are to be conducted using wordsworth® English language lab software

Basic communication covering the following topics

Meeting People

Asking Questions

Making Friends

What did you do?

Do's and Dont's

Pronunciations covering the following topics

Pronunciation (Consonant Sounds)

Pronunciation and Nouns

Pronunciation (Vowel Sounds)

Advanced Learning

Listening Comprehension / Direct and Indirect Speech

Figures of Speech

Effective Communication

Writing Skills

Effective Writing

Interview Handling Skills

E-Mail etiquette

Presentation Skills

Department of MCA

Report of Workshop on Basic Python Programming

A one day workshop was organized by Department of MCA on “Basic Python Programming” for the students on 3rd August, 2018.

This workshop was arranged for the students who need to learn Python programming language from basic and to get enough understanding on Python programming language.

The workshop covered the following topics

- ➔ Importance of Python in today's world
- ➔ How python is different from other languages and easy to learn?
- ➔ Setup of Python and its IDE
- ➔ Syntax of python programming
- ➔ Variable types and Operators
- ➔ Decision making and loops
- ➔ Strings and various operations on strings
- ➔ Lists, Tuples, Date & Time
- ➔ Question & Answer session

There were total 42 participants 38 students and 4 faculty members. We have provided certificate to all the participants of this workshop.

Expert: Dr. Narayan A. Joshi
Professor & Head,
MCA Department,
Dharmsinh Desai Univeristy.

Convener: Dr. Narayan A. Joshi
Professor & Head,
MCA Department,
Dharmsinh Desai Univeristy.

Coordinator: Utsav P. Patel
Assistant Professor,
MCA Department,
Dharmsinh Desai Univeristy.

Himanshu K. Purohit
Assistant Professor,
MCA Department,
Dharmsinh Desai Univeristy.

Students are eager to learn Python Programming.

Dr. Narayan Joshi explaining the Python program code.

Demonstration of String operations in python.

Master of Computer Applications Department

Report of Workshop on Java Collection Framework & Stream API

A one day workshop was organized by Department of MCA on “**Java Collection Framework & Stream API**” for the students of MCA, Computer & IT, BCA and faculty members on 29th September, 2018.

We called an expert from industry Mr. Pravin Jain. He is a Java Trainer and Evangelist at Zen Softech Pvt. Ltd., Vadodara.

The objective behind the workshop was to make students aware about Java Collection Framework & Stream API which is widely used in industries now a days and it also helps them during their placement interviews.

The workshop covered the following topics

- ➔ forEach() method in Iterable interface
- ➔ Comparator interface
- ➔ default and static methods in Interfaces
- ➔ Functional Interfaces and Lambda Expressions
- ➔ Java Stream API for Bulk Data Operations on Collections
- ➔ min(), max() and sum() methods in Integer, Long and Double wrapper classes.
- ➔ logicalAnd(), logicalOr() and logicalXor() methods in Boolean class.
- ➔ Question & Answer session

There were total 108 participants where 102 students and 6 faculty members. We have provided certificate to all the participants.

Convener: Dr. Narayan A. Joshi
Professor & Head,
MCA Department,
Dharmsinh Desai University.

Coordinator: Utsav P. Patel
Assistant Professor,
MCA Department,
Dharmsinh Desai University.

Vivek J. Vyas
Assistant Professor,
MCA Department,
Dharmsinh Desai University.

Introduction of the Expert given by workshop coordinator Utsav Patel at the beginning of workshop.

Dr. Narayan Joshi, Head of MCA Department was welcoming expert and participants of the workshop.

Mr. Pravin Jain was explaining the difference of compareTo() and Comparator interface.

Expert Pravin Jain sir demonstrated examples of collections.

Vote of thanks given by workshop coordinator Vivek J. Vyas at the end of workshop

Feedback from the student has given about the topics of workshop : “topics are useful to them in further study and professional career”.

Workshop Objective

Java Collection framework has wide range of applications in distributed commercial and scientific applications. Java Stream APIs are also getting momentum in various application domain. More and more industries demand awareness on such APIs during placement interviews.

Department of MCA

Department of MCA – Dharmsinh Desai University (since 1987) is focused to cater expertise and skills in domain of Computer Science & Applications to its students and society. The MCA Department strives for all round development of students by making them undergo various curricular, co-curricular and extra-curricular activities. Moreover, the Department exercises nourishment of its students, with the extensive support of senior industrialists and renowned academicians.

Dharmsinh Desai University (DDU)

Dharmsinh Desai University (DDU) formerly known as DDIT, founded in 1968 by respected educationist, social worker and the Member of Parliament Late Shri Dharmsinh Desai. In the year 2000, it earned a status of Deemed University by Government of India, in recognition of its standards in academia. In April 2005, the Government of Gujarat declared the institution as a State University. D. D University is approved by the UGC Under section 2f and 12B. Various institutes established under the roof of DDU are Technology, MCA, MBA, Dental, Pharmacy, Commerce, BCA, BBA.

&
User Management
22nd SEPT 2018

Program Overview

Program Outline

The workshop jointly organized by Department of MCA at RedHat Academy, Dharmsinh Desai University on “Red Hat Linux File System & User Management” for graduate, post graduate students and teachers on 22nd Sept 2018. The workshop was specifically meant for the local/regional students as well as college teachers, with a view to give the exposure about linux file system and user management.

Program Schedule

Time	
09:00am to 09.30am	Welcome Speech
09.30am to 10.45am	Session 1
10.45am to 11.00am	Break
11am to 01:00pm	Session 2
01:00pm to 01:30	Lunch Break
01.30pm to 03:30	Session 3
03:30pm to 03:45pm	Valedictory

Participants Details

Immediately after the workshop was announced, there was a good response from the students and teachers from different department of institution. 90 people including teachers and students from the various department attended the workshop.

Inaugural Session

The workshop was formally inaugurated by Dr. R.K.Jain (Registrar, DDU) , Dr. Naresh Patel (Dean of MIS), Dr. Narayan Joshi (HOD, MCA Department), Mr. Amit Patel (an executive manager at prakshal IT academy) ,Mr. Parag patel (Red hat Certified Trainer, Red Hat Academy).

Mr. Vivek Vyas, Assistant Professor of MCA Department welcomed the gathering and Mr. Himanshu Purohit, Assistant Professor of MCA Department proposed the vote of thanks.

Mr. Amit Patel is an executive manager at prakshal IT academy has handover the DDU – RedHat MOU to Registrar Dr. R.K.Jain.

Lecture Sessions

The Workshop had altogether three lecture sessions which was conducted by Mr. Parag Patel, Red Hat Certified Trainer from Red Hat Academy.

Mr. Parag Patel delivered lecture through which the basic concepts of file system were presented. The lectures were helpful in inculcating a positive attitude towards Linux operating system among the participants. The lecture also helped the participants to have a clear understanding about user management. The lecture sessions were informative as well as interactive, as reflected from the feedback received from the participants.

Valedictory Session

A short duration thanksgiving session was arranged on the day of the Workshop. The Resource persons addressed the participants and motivated them to get the Certification of RHCA. Dr. Narayan Joshi, Head of MCA Department giving token of love to Mr. Parag Patel for sharing their knowledge and expertise with students. The formal vote of thanks on behalf of the Department of MCA of Dharmsinh Desai University was proposed by Mr. Himanshu Purohit.

Workshop Objective

Linux is one of the most widely used server and desktop operating system. It is not only robust but also the most performance centric and secure. In last decade usage of Linux has exponentially increased. It is essential for a computer application student to know about Linux operations and administrations. The workshop provides exposure about Linux file system and user management.

Department of MCA

Department of MCA – Dharmsinh Desai University (since 1987) is focused to cater expertise and skills in domain of Computer Science & Applications to its students and society. The MCA Department strives for all round development of students by making them undergo various curricular, co-curricular and extra-curricular activities. Moreover, the Department exercises nourishment of its students, with the extensive support of senior industrialists and renowned academicians.

Dharmsinh Desai University (DDU)

Dharmsinh Desai University (DDU) formerly known as DDIT, founded in 1968 by respected educationist, social worker and the Member of Parliament Late Shri Dharmsinh Desai. In the year 2000, it earned a status of Deemed University by Government of India, in recognition of its standards in academia. In April 2005, the Government of Gujarat declared the institution as a State University. D. D University is approved by the UGC Under section 2f and 12B. Various institutes established under the roof of DDU are Technology, MCA, MBA, Dental, Pharmacy, Commerce, BCA, BBA.

Report of Workshop on 8 Days Skill Development Programme on 'RedHat Certified System Administrator'

A 8 day workshop was organized by Department of MCA on **Skill Development Programme on 'RedHat Certified System Administrator'** for the students of MCA during December, 2018 – February, 2019.

We had organized this workshop as RedHat Academy, DDU. The training was provided by RedHat Certified Tutor from Redhat/ Prakshal Acedemy.

The purpose behind this workshop was to prepare the students for RHCSA Certification Exam by providing them hands on training.

In 8 Days, We have conducted 60 hrs completing 2 books – RH124 and RH134 – consisting of required knowledge with understanding and hands on practicals for Profession System Administration at organizations. This training would be helpful to participants in attempting the RHCSA certification exam conducted by RedHat.

The workshop covered the following topics:

S. No	Red Hat System Administration I	S. No	Red Hat System Administration II
1	Accessing the command line	1	Automating Installation with Kickstart
2	Managing files from command line	2	Using Regular Expressions with grep
3	Getting Help in Red Hat Enterprise Linux	3	Creating and Editing Text Files with vim
4	Creating, Viewing, and Editing Text Files	4	Scheduling Future Linux Tasks
5	Managing Local Linux Users and Groups	5	Managing Priority of Linux Processes
6	Controlling Access to Files with Linux File System Permissions	6	Controlling Access to Files with Access Control Lists (ACLs)
7	Monitoring and Managing Linux Processes	7	Managing SELinux Security
8	Controlling Services and Daemons	8	Connecting to Network-defined Users and Groups
9	Configuring and Securing OpenSSH Service	9	Adding Disks, Partitions, and File Systems to a Linux System
10	Analyzing and Storing Logs	10	Managing Logical Volume Management (LVM) Storage
11	Managing Red Hat Enterprise Linux Networking	11	Accessing Network Storage with Network File System (NFS)
12	Archiving and Copying Files Between Systems	12	Accessing Network Storage with SMB
13	Installing and Updating Software Packages	13	Controlling and Troubleshooting the Red Hat

			Enterprise Linux Boot Process
14	Accessing Linux File Systems	14	Limiting Network Communication with firewall
15	Using Virtualized Systems	15	Comprehensive Review - II
16	Comprehensive Review - I		

After completion of hands on teaching, participants were provided with comprehensive assessment tasks to be performed.

Total no of hours: 60

Total no of days: 8

Total no of students: 29 (Students: 25 Faculty: 04)

No of batches: 1

Fees per student: Rs 2500/- (Inclusive of G.S.T)

There were 29 participants. Certificate to all the participants were provided by RedHat India.

Convener: Dr. Narayan A. Joshi

Report of Workshop on 10 Days Skill Development Programme on 'Aptitude & GDPI Preparation'

A 10 day workshop was organized by Department of MCA on **Skill Development Programme on 'Aptitude & GDPI Preparation'** for the students of MCA during August-September, 2018.

We had jointly organized this workshop with Focus Academy for Career Enhancement (FACE), Pune. Face were providing us trained experts from their academy.

The purpose behind this workshop was to prepare the students for their campus placement and to get good placement.

In 10 Days, We have conducted 60 hrs completing important topics of aptitude that are asked in every company after that we have conducted a 2 day workshop on GD, PI and Resume writing where we have conducted 2 hrs of Do's and Don'ts and orientation session each for GD, Resume and PI and GD and PI Mock for the same.

The workshop covered the following topics for the Aptitude test

S. No	Topic	S. No	Topic
1	Numbers system	11	Logical connectives, Syllogism and Venn diagrams
2	Ratio and Proportion	12	Data interpretation and Data sufficiency
3	Profit and loss, Partnerships and Averages	13	Clocks, calendars, Direction sense and Cubes
4	Time and work	14	Reading comprehension
5	Time, speed and distance	15	Sentence correction
6	Percentages, SI and CI	16	Critical Reasoning
7	Permutation, Combination and Probability	17	Vocabulary
8	Coding & Decoding, Series, Analogy, Odd man out and Visual reasoning	18	Sentence completion and Para-jumbles
9	Logarithms, Progressions, Geometry and Quadratic equations.	19	Articles, Prepositions and Interrogatives
10	Data arrangements and Blood relations	20	Voices and Speech

After completion of aptitude we provide total 10 online mock tests to the students to analyze their strength and weakness. We had also arranged group discussion and mock PI for all the participants.

Total no of hours: 60

Total no of days: 10

Total no of students: 40

No of batches: 1

Fees per student: Rs 2500/- (Inclusive of G.S.T)

There were 31 students participated. We have also provided certificate to all the participants.

Convener: Dr. Narayan A. Joshi

Professor & Head,
MCA Department,
Dharmsinh Desai Univeristy.

Coordinator: Utsav P. Patel

T&P Chief Coordinator,
MCA Department,
Dharmsinh Desai Univeristy.

FACE professional trainer was coaching to students for the aptitude.

Group Discussion exercise was carried out by students.

Expert was giving instruction for the GD and Personnel Interviews

Mock PI was conducted by the FACE trainer.

DDU-IETE Students' Forum

DDU-IETE Student Forum has organized a seminar on "Internet of Things" on 23rd Nov, 2017, conducted by Prof. Sandeep Suthar. Following technical topics were orchestrated: (i) Introduction To IoT(Internet of Things) (ii) Discussion about Embedded Systems (iii) Layered Architecture (iv) Communication Protocols (v) Application Level Protocol used in IoT (vi) Discussion about Cloud (vii) Practicals of IoT (using Adduino, NodeMCU, Adruino IDE, Storing data to ThinkSpeak Cloud, Google Assitant, web deployment) . Prof. R. S. Chhajed (Head, I.T. Dept., D.D.U.), Prof. (Dr.) Vipul K. Dabhi (Coordinator, DDU-IETE Students' Forum), Prof. (Dr.) Harshad Prajapati, and other faculty members of Department of Information Technology coordinated the activities. Faculties and students from various branches (IT and MCA dept.) of Faculty of Technology, D. D. University, participated in the activities. 16 faculties and 9 M.Tech students also participated in seminar.

As Dharmsinh Desai University is advanced partner with Infosys for campus connect program. Prof. Sandeep Suthar has participated in the "Train The Trainer" workshop on "Internet of Things" conducted by Infosys. So "Peer to Peer" training is organised for department as per guidelines provided by Infosys.

DDU-IETE Students' Forum Activities

Department of Information Technology,

Dharmsinh Desai University, Nadiad, Gujarat, India

DDU-IETE Student Forum has organized a seminar on “Internet of Things (IoT) and Cloud Computing” on 9th March, 2018. Expert was called from Strawberry Software Pvt. Ltd., Ahmedabad, Gujarat to deliver the expert talks. Following topics were covered by the experts: What is IoT, Sensors, Connectivity protocols, Open source Hardware, Arduino, Cloud Computing. Prof. R. S. Chhajed (Head, I.T. Dept., D.D.U.), Prof. Vipul K. Dabhi (Co-ordinator, DDU-IETE Students' Forum), faculty members and more than 50 students of Faculty of Technology, D. D. University, attended the seminar.

Figure 1 Mr. Archit Somani (MD, Strawberry Software Pvt. Ltd., Ahmedabad) explaining concepts of Sensor Technology.

Sub.: Approval for a workshop on "Getting Started with Arduino" under the banner of
DDU IEEE Students' Branch.

Respected Sir,

We are planning to organize the above mentioned workshop on 17th & 18th January, 2018 for
the students of our University. The details are as under.

Title : Getting Started with Arduino
Date, Time & Venue : 17/01/2018 (09:00 to 15:00)
Seminar Hall, Faculty of Technology
18/01/2018 (09:00 to 15:00) EC Lab - 3
Expected
Participants & Fee : Students of B. Tech. Sem.-II/IV
20 (Minimum)
Rs. 200.00 for Non-IEEE member
No Fees for IEEE member
Resource Person : Dr. Prarthan Mehta
Expected income : Rs. 4000.00
Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Posters, banners & learning material	1000
2	Refreshments for the participants	1500
3	Certificates	1000
4	Stationary and miscellaneous	500
Total		4000

There is no financial burden on the University.

Dr. Prarthan Mehta will co-ordinate the workshop.

Kindly permit us to arrange the workshop & sanction the budget.

Photo

A workshop based on Arduino and one of its application was conducted by IEEE DDU Student Branch on 17th January and 18th January 2018. It was mainly for 1st and 2nd year students. The idea was to make one acquainted with the present trends and changes in the industry by introducing one of the most important and trending topics. Arduino is a microcontroller based board which provides a platform to test and run several low cost electronic projects. It can also be interfaced with various sensors or peripherals. The main benefit of Arduino is it being a low cost module and having a fast result time.

On the first day, the basics and technical know-how of Arduino was explained with the help of a presentation. Then, some basic programming on it was taught to the participants. The main motive was to convey to the students, the importance and simplicity of using Arduino in a project which requires less cost, good performance and fast results.

The workshop proceeded further on the next day with demonstrating and making one of the many applications of Arduino, i.e., Wi-Fi controlled Robo car. Some of the volunteers were also present to help the instructors of the workshop. The participants then implemented the same, learning the significance of working practically also, along with learning the theoretical concepts. The event concluded with a brief overview of various other applications which one can make with the help of Arduino.

Volunteers helped the event to be managed and conducted efficiently. Seeing a good response from the participants, IEEE DDU Student Branch is also planning to conduct various other events in the future.

Sub.: Two Days Workshop on "Augmented Reality" under the banner of DDU IEEE Students' Branch.

Respected Sir,

We are planning to organize the above mentioned workshop on 28/02/2018 & 01/03/2018 for the students of our University. The details are as under.

Title : Augmented Reality
Date & Time : Day 1: 28/02/2018
09:00 hrs. – 17:30 hrs. Day 2: 01/03/2018
09:00 hrs. – 13:30 hrs.

Venue : Seminar Hall, Faculty of Technology.
Expected
Participants & Fee: 50 (minimum)
Rs. 100.00 for IEEE member
Rs. 250.00 for Non-IEEE member

Experts : 1. Mr. Shivkumar Varma, R & D Engg., Robokart.com
2. Mr. Jagrat Maheshwari, R & D Engg., Robokart.com

Expected income: $250 \times 70 = 17500.00$

Estimate of Expenditure:

Sr. No.	Item	Estimate in Rs.
1	Accommodation for the two experts for two days	4000.00
2	Food expenses for the experts and volunteers for two days	4000.00
3	Posters & banners	1500.00
4	Certificates & printed material	1500.00
5	Electrical & Electronic Components and consumables	5000.00
6	Stationary & miscellaneous	1500.00
Total		17500.00

The shortfall may be adjusted from the DDU IEEE Students' Branch account.

Dr. Prarthan Mehta will co-ordinate the workshop.

Kindly permit us to arrange the workshop & sanction the budget.

Report on Augmented Reality Workshop.

With the increasing development every day in science and technology industry, one has to constantly be aware of the recent and on going trends going on. The lifetime and feasibility of use of a certain technology is not much nowadays. There is an increasing pressure on the people in the industry as well as the students, to have an in-depth knowledge of their respective fields. The studying of history of the very first development, the links of the chain that connect the present scenario and the future possibilities in the field is crucial. Conscious of that, IEEE Student Branch organized and hosted a workshop on Augmented Reality and 3-D Gaming.

The workshop was held on 28th February 2018 and 1st March 2018. It was conducted by instructors from Robokart and Innovation cell, IIT Bombay. **Augmented Reality (AR)** is a live direct or indirect view of a physical, real-world environment whose elements are *augmented* (or supplemented) by computer-generated sensory input such as sound, video, graphics or GPS data. It is related to a more general concept called mediated reality, in which a view of reality is modified (possibly even diminished rather than augmented), by a computer. As a result, the technology functions by enhancing one's current perception of reality. In other words, augmented reality provides us means by which we can make the applications which will bring imaginary things to reality. It allows us to create, configure, and customize the virtual applications.

The participants were given an introduction of AR and how it is different from Virtual Reality (VR). Virtual reality replaces the real world with a simulated one. The applications of AR were also nicely explained. **Vuforia** is an Augmented Reality Software Development Kit (SDK) for mobile devices that enables the creation of Augmented Reality applications. It uses Computer Vision technology to recognize and track planar images (Image Targets) and simple 3D objects, such as boxes, in real-time. Some basic implementation on AR platform using Vuforia was also taught during the workshop.

The concept of 3-D gaming was also explicated succinctly. **Unity** is a cross-platform game engine developed by Unity Technologies and used to develop video games for PC, consoles, mobile devices and websites. First announced only for OS X, at Apple's Worldwide Developers Conference in 2005, it has since been extended to target 21 platforms. It is the default software development kit (SDK) for the Wii U. A live demo on how the basic functions of 3-D unity work was also given. At last, various games were also built by the participants with the help of platform and instructors. It was a thorough learning experience for the students.

Sub.: Organizing an STTP on 'Computational Electromagnetics & its Applications'
under the banner of DDU IEEE Student Branch

Respected Sir,

The Department is willing to organize STTP on 'Computational Electromagnetics & its Applications' during 04/12/2017 - 08/12/2017. The program is designed for the Faculty Members, Research Scholars and M. Tech. Students. The basic objective of this program is to create awareness of vast applications of numerical techniques used in research activities amongst the research scholars and faculties.

Dr. Prarthan Mehta & Dr. Rizwan Alad will look after the overall coordination of the workshop. Tentative schedule and session planning is attached herewith for your kind reference.

Kindly permit organizing the same & approve the budget.

No financial support is needed from the university.

In Association with

About the Course

The objective of the program is to provide an opportunity to faculty members and research scholars for developing insight towards the basics of Electromagnetics, various CEM solvers such as FEM, FDM, FDTD, MoM, FMM, etc. Moreover, the hands on sessions will enable the participants to develop the logical insight towards the solutions for the problem in variety of applications of ESD, antenna design and analysis and many more. The program also caters to the needs of research scholars pursuing their research in the field of Electromagnetics. **The experts of the field from SAC & different Universities of the state will engage the sessions.**

Key Learning Outcomes

At the end of the program you will be able to

- Demonstrate Electromagnetic theory
- Implement Computational Electromagnetic Technique in different fields
- Write codes for the numerical techniques

Who should attend

- Faculty involved in teaching Electromagnetic theory, Microwave & Antennas, RF design, Numerical techniques and other related courses.
- Research scholars pursuing research in CEM, Antenna, RF, Microwave Engineering, and the other relevant fields.
- UG/PG students aspiring to get started with concept of Electromagnetics, CEM, Antenna Design and planning for a career in high frequency system design, development and validation.

Course Outline

Fundamentals of Computational Electromagnetics

- Classification of EM Problems
- Analytical Methods
- Separation of variable
- Boundary Value Problems
- Method of Images
- Finite Difference Method

Finite Difference Time Domain (FDTD)

- Basic FDTD Algorithm, YEE Grid
- Courant Stability Condition
- Example of 1D FDTD
- Domain Truncation Techniques
- Mur's Boundary Condition
- Hands on Session

Finite Element Method (FEM)

- Formulation of FEM
- Computation of Body Capacitance
- Hands on Session

Method of Moment (MoM)

- Formulation of MoM
- Importance of Basis and Testing Function in MoM
- Meshing Technique
- Convergence
- Hands on Session

Application of Numerical Techniques

- Radiation Problems
- Current and Field of Linear Wire Antenna
- Hands on Session

Computational Electromagnetics and Applications (04-08 December 2017)

Jointly Organized by

Dept. of Electronics & Communication Engg., Faculty of Technology, D. D. University

and

IEEE AP/MTT Joint Chapter, Gujarat Section

In Association with IEEE Gujarat Section

No. of Participants : 28

List of the Experts :

1. Dr. S. B. Chakrabarty, Space Application Center, ISRO, Ahmedabad.
2. Dr. B. C. Dharmani, Ex Visiting Scientist, ISI, Kolkata
3. Dr. R. H. Alad, Associate Professor, D. D. University.
4. Dr. P. D. Mehta, Associate Professor, D. D. University.
5. Dr. H. K. Shah, Associate Professor, D. D. University.
6. Prof. A. B. Pandya, Assistant Professor, D. D. University.
7. Prof. R. K. Dana, Assistant Professor, D. D. University.
8. Prof. K. N. Sheth, Professor, D. D. University.
9. Prof. Niraj Pathal, Assistant Professor, D. D. University.

Day 1: December 04, 2017

The event started with an expert session by Dr. S. B. Chakrabarty, Head, MSAD/ASG, Space Application Center, ISRO, Ahmedabad on *Matrix Methods in Electromagnetics Computation*. He initiated the talk with introducing a variety of mathematical techniques in electromagnetics. Further, he focused on the importance of the mathematical modeling methods and their comparisons. He also discussed about the integral equation methods and differential equation methods with case studies. The mode matching technique was briefly covered in the presentation.

Dr. S. B. Chakrabarty during expert session

Dr. Bhavesh Dharmani, Ex-Visiting Scientist - ISI, Kolkata, presented *Genetic Algorithm Misconvergence Analysis and Large Scale Global Optimization*. He started with basic algorithm and the possibilities of misconvergence. The limitations of the algorithm for higher dimensions were discussed during the talk. Variants of the algorithms for large scale global optimization were also covered.

Dr. Bhavesh Dharmani during expert session

Day 2: December 05, 2017

An optimization algorithm namely, *Particle Swarm Optimization* was covered by Dr. Hardip K. Shah, Associate Professor of the Department. He started with the basics of the algorithm and further he focused on the multidimensional optimization. A variety of the cost functions were also discussed, followed by case study.

Dr. Hardip K. Shah during expert session

Afternoon session was conducted by Dr. Rizwan Alad, Associate Professor of the Department. Applications of the Genetic Algorithm and Particle Swarm Optimization Algorithm were demonstrated. Beam forming and adaptive antenna fundamentals were also discussed.

Dr. Rizwan Alad during expert session

Finite Element Method for Electrostatic was presented by Prof. K. N. Sheth, Professor, Civil Engg. Department. Basics of the method was followed by the case study of finding the potential on the different points on a metallic surface was demonstrated. He also discussed the problem formulation in detail. Few problems were given for the hands-on session.

Prof. K. N. Sheth during expert session

Day 3: December 06, 2017

Finite Difference Method for solving Laplace's Equation for special domain was presented by Prof. Ashish Pandya, Assistance Professor of the Department. Further he also discussed different analytical methods such as, Method of Images, Separation of Variable, Series Expansion and Boundary Value Problems. Formulation of 1-D Finite Difference Time Domain Method with Domain Truncation Technique was elaborated.

Prof. Ashish Pandya during expert session

Prof. Rachit Dana, Assistant Professor of the Department conducted the hands on session on the potential problems using Laplace's and Poisson's Equations using MATLAB. Demonstration of a variety of parameters on the behavior of the solution were presented and analyzed.

Day 4: December 07, 2017

Dr. Prarthan Mehta, Associate Professor of the Department delivered the presentation on the *Method of Moments for Electrostatics*. The talk was initiated with the formulation of any integral as well as differential equation with the method of moments, followed by few problems during hands on session. Further, electrostatic modeling using the method was also discussed during the talk.

An interesting application of widely used numerical technique, uange-Kutta method, namely Estimation of the Stable, Unstable and Transfer orbits for Restricted Three Body Problems was discussed by Prof. Niraj Pathak, Research Scholar, M. S. University, Vadodara. She demonstrated variety of case studies with Sun-Earth-Satellite System and Sun-Mars-Satellite System. Methodology of problem formulation for the higher order differential equation was explained.

Prof. Ashish Pandya during expert session

Day 5: December 08, 2017

Dr. Rizwan Alad, Dr. Prarthan Mehta and Prof. Ashsih Pandya presented various case studies for the Method of Moments. Application of the method for estimation of the capacitance and the saturated body potential was also discussed. The demonstration of the triangular meshing techniques for 2-D and 3-D structures was then covered followed by hands-on session.

Sub.: Budgetary Approval for 'Law Awareness Program for Women'
Sponsored by Gujarat State Commission for Women

Respected Sir,

The budgetary estimate of various expenses for the program is given below.

Sr. No.	Items	Cost (Rs.)
1	Food Lunch (600 persons)	90000
2	Tea and refreshment (600 persons)	38000
3	Travel Speakers & Inviting Guests	20000
4	Decoration Stage Arrangement, flowers and bouquets	20000
5	Mementoes & Honorarium	20000
6	Publications Guest & Speakers	10000
7	Invitation Cards, Registration Forms, Certificates, printer toner	10000
8	Photographs	3000
9	Miscellaneous	5000
	Total	216000

Kindly grant the budget and permit us to carry out program.

(Prof. Shital Thakkar)
Coordinator

(Prof. Hetal Shah)

Sub.: Permission for organizing Law Awareness Program for Women
Ref.: Email from State Commission for Women dated 30/06/2017

Respected Sir,

We are glad to inform you that we have been given opportunity to conduct one day seminar - 'Law Awareness Program for Women' with grant of Rs. 2,16,000/- (Max.).

We are planning invite legal advisors, police officers and senior government officers for conducting sessions of the seminar. The program will also be supported by senior officials of Mahila Ayog.

We wish to conduct this program for our students and lady faculty members on 20/09/2017 in Multimedia Hall.

After conveying the proposed date, an amount of Rs. 1,00,000/- will be released immediately. Other expenses will be reimbursed after completion of the program on submission of bills.

We shall submit estimation of expenses (within the limits of the fund available in the grant) for budgetary approval after obtaining this permission.

Prof. Mrs. Shital Thakkar and Prof. Mrs. Hetal Shah of the department will coordinate the event.

Report

Law Awareness Program for Women

Date: 22nd September, 2017

Venue: Multimedia Hall, Dharmsinh Desai University, Nadiad.

The above mentioned program was sponsored by Gujarat State Commission for Women, Govt. Of Gujarat, Gandhinagar and organized by Department of Electronics & Communication Engineerin, Dharmsinh Desai University, Nadiad.

The program was inaugurated at 9:30 am. In presence of esteemed guests like Mrs. Leelaben Ankolia (Chair Person - GSCW and Chief Guest of the event), Mr. Kuldeep Arya (Collector - Kheda & Guest of Honor), Mr. Ankur Desai(Director, DDU), Mrs. Veenaben Patel (Additional Collector & Member Secretary - GSCW & Guest of Honor) and Prof. D.G. Panchal (Dean, Faculty of Technology - DDU). Inaugural function started with lamp lighting and prayer followed by speeches of the members on the Dias. Prof. D. G. Panchal (Dean, FoT) welcomed the gathering and gave information about Faculty of Technology. This was followed by Director Mr. Ankurbhai Desai's address. He talked about progress of the University and importance of basic values in the education at the campus. Prof. Shital Thakkar gave the details of the event and event participations. Mr. Kuldeep Arya (Collector) appreciated the idea of such program and its necessity. The chief guest and chair person of Gujarat State Commission for Women, Mrs. Leelaben Ankoliya delivered keynote address and explained the role of Commission for women in and encouraged women for approaching the commission for any troublesome situations like insensitive behavior of in laws or husband, divorce or health related issues. She talked in detail about commission helpline number 181, which can help the needy girl/women in above mentioned situations. The second keynote speaker, Mrs. Veenaben Patel informed the policies designed for women by the Commission.

The inaugural function of the program concluded with vote of thanks from the Faculty Coordinator Prof. Mrs. Hetal Shah.

Participation

Total of 512 students and faculty members participated in the program. Participants registered in the program from different faculties of Dharmsinh Desai University and other institutes of nadiad. There were 82 participations from outside colleges and organization like Shree Dinsha Patel College of Nursing (48), Mahila Arts College (19) and Hindu Anath Ashram (15). Participations from DDU included various branches of engineering and other faculties like, Dental science, Com., Pharmacy etc. There were 196 participations form Electronics &

Communication Engg., 30 from Information & Technology, 09 from Computer Engg., 06 from Chemical Engg. and 03 from Mechanical Engg. There were 18 participations from Dentistry section and 73 from Pharmacy and 01 from B. Com. Above these, 75 faculty members also attended in the program.

Lectures of the Event:

After inaugural function, lectures were delivered on different topics by three eminent experts in their respective fields. The topic of the lectures were carefully planned as Cyber Laws, Medicolegal Issues Concerning Women in India and Judicial Activism in Women Empowerment.

1. Mr. Ashish Jha (Advocate & Legal Advisor)

The first speaker of the lecture series, Mr. Ashish Jha is a practicing Advocate - High Courts and assisting in Supreme Court matters. Mr. Jha is backed with degree in Master of Laws (Environmental Laws), Diploma in Training & Development (HRD) – ISTD New Delhi, Diploma in Computer Applications and Diploma in International Business heads Jha & Associates. Mr. Ashish Jha has a rich and varied experience of more than 25 years which includes the experience gained from the Information Technology industry as well as from the Advocacy Profession.

Mr. Jha handles both litigation & non-litigation matters including all kinds of legal drafting and provides legal opinion irrespective of any case law. In substantiating the authenticity of the legal opinion, Mr. Jha also provides relevant case laws citation, Acts and relevant statutory provisions in context with the asked opinion.

Mr. Ashish Jha delivered his talk on **Cyber Laws** and discussed 15 different type of cyber crimes. He cautioned that involved person can get imprisonment upto 10 years if found guilty and also covered various issues like credit card fraud, database hacking , downloading pirated songs and books. He discussed a case of a person named Manish Kathuria, who shared details of a girl and harassed her by phone calls. Manish was punished for this heinous crime.

2. Dr. Swapnil Agarwal (Head, Forensic Medicine, Pramukhswami Medical College)

The second Lecture was on the topic '**Medicolegal Issues Concerning Women in India**', given by Dr. Swapnil Agarwal. Dr. Agarwal currently is Professor at Department of Forensic Medicine & Toxicology, Pramukhswami Medical College & SK Hospital, Karamsad. He is MBBS, MD, DNB [Forensic Medicine & Toxicology]. He has published more than 36 papers in various Indexed Journals and written two books.

He discussed various serious health related issues for women specifically from a legal view point. He explained health related problems in which women can ask for divorce. He deals with cases of domestic violence. He gave ideas of laws related to that. He also explained role of forensic science in medico legal issues.

3. Mrs. Preeti Parmar (Advocate)

The third and last lecture in the event was conducted by Ms. Preeti Parmar on the topic called 'Judicial Activism in Women Empowerment'. Ms. Preeti Parmar (B.Sc, LLB) is practicing Advocate. She has more than 25 years of experience in the Law. She also has experience as Assistant Government Pleader for 3 years from 1994 to 1997. She has handled various cases like Administrative Law Matters, Petitions under Article 226 of Constitution of India, Civil law matters under Article 227 of constitution of India, Petition praying for exercise of inherent powers of Criminal Procedure Code, Petitions against contempt of court under Article 215 of Constitution of India etc.

Mrs. Parmar gave an overview of various changes and amendments that gradually altered the judiciary system related to women issues over time to time after independence. In her talk, she also gave idea of support of our judiciary system for women. She said that our judiciary system has created various roles to protect rights of women, for example Streedhan. She explained that *Streedhan is the property that a woman obtains at the time of her marriage, it differs from Dowry in the way that it is the voluntary gifts given to a woman before or after her marriage. The Courts have made this distinction clear that Women have an absolute right over their Streedhan. She gave us idea on Vishakha guidelines.* The Vishakha **Guidelines** were a set of procedural guidelines for use in India in cases of sexual harassment. They were promulgated by the Indian Supreme Court in 1997 and were superseded in 2013 by The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013

Coordinators

Prof. Mrs. Shital Thakkar and Prof. Mrs. Hetal Shah of Department of Electronics & Communication Engg., Faculty of Technology, Dharmsinh Desai University coordinated the event. Prof. Shital (M. E.) and Prof. Hetal (M. E.) have more than 17 years of teaching at the department.

Certificate of Appreciation

This certificate is awarded to

Mr. Jigar Pandya

*for conducting a 6 Day Workshop on 'A Step Ahead with C' organized by
Department of Computer Engineering and Department of Information Technology,
S. P. B. Patel Engineering College, Saffrony Institute of Technology, Mchhana
from 24th to 29th June, 2019.*

Workshop Coordinator

Principal

TECHNOTALK: The Pinnacle of Collision.

Prepared By: Navjyot Singh

Date: 7-8th March 2018

Venue: MULTIMEDIA HALL, FoT, Dharmsinh Desai University, Nadiad

Attendance: 200+ students of B.Tech Chemical Engineering, Dharmsinh Desai University, Nadiad.

Guest Lecturers : Prof. V.K Srivastava (President IICHE, principal scientist, BARC, Mumbai), Mr. M.N Vyas (Chief of Operations & HSE, IPCL, Baroda), Mr. Anil Trivedi (Freelance Consultant, DDU ALUMNI) and Mr. S.B Chauhan (Freelance Consultant, DDU ALUMNI).

A series of expert lectures for the students of chemical engineering were organized by the committee of IICHE under the guidance of Dr. M.S Rao, HoD of Chemical Department, Dr. A.P Dhanwani, Head IICHE Nadiad Regional Center and other Faculty members of Chemical Engineering Department.

The phase-1 was started off by Prof. V.K Srivastava who gave us an immensely deep insight about what really it takes to get into BARC and what are the set skills that are required by an engineer to work their. The key point which caught everyone's attention was the fact that how manufacturing of glass can reduce the volume of nuclear waste by 90%! His lecture was concluded by an interactive session of Q&A with the students which resolved any doubts which they had.

Mr. M.N Vyas then gave us an essential insight on the topic Process Safety Management in Petroleum Refining and Petrochemical Sector, the necessity of interlocks in the reactor along with the roles of PRV and rupture disks. His eloquent speech did no less than showing his almost 30 years of experience in Chemical Process Industries.

Chem-e-Quiz

-By Yash Chavda

Date: 7th March, 2018

Venue: Class no. 24, DDU

Attendance: 56 students

The Event was purely based on the concepts of chemistry, through which participants were able to know their scale of knowledge in field of daily chemistry. The event was organized by event coordinators of collision 2018 who were from 6th semester of Chemical engineering. The event comprised of 2 rounds. The 1st round was started at 9:15 am. The class was crowded with participants who were eager to play their role in the event. The participants were in the form of teams comprising of two members. After explaining the rules to teams, they were provided with question papers containing 40 multiple choice questions. 4 marks were allotted for the right answer and there was negative marking of 1 for wrong answer. Top twelve teams were qualified for the second round.

The second round of the event was started at 1:45 pm. Second round was a buzzer round. This round consists of 20 questions which were projected on a screen one by one. The team who first raised their hand would get first priority to answer the given question. Facility of recording was provided so that organizers could track the action of teams. The last 5 questions called game changer questions for which teams were allotted 10 marks for right answer. At the end, 1st prize and runners-up was awarded to the teams who scored highest points. The event was concluded successfully at 2:15 pm.

Troubleshoot: A new member of Collision.

Prepared By: Harshvardhan Chauhan

Date: 7th March 2018

Venue: Class no. 24, FoT, Dharmsinh Desai University, Nadiad

Attendance: 36 students of FoT, DDU

This event marked the start of Collision 2k18 which required understanding and application of the technical concepts of which the teams have to solve the basic industrial problems given to them. The event comprised of two rounds. The first round was held from 8:30 am to 9:15 am. In this round the present 11 teams were given a common industrial problem titled “Coal Mining”. The teams were a total time of 20 minutes for writing out their ideas on how they would handle the situation if they faced the problem described in the statement. A total of 5 teams were selected for the round two. The round 2 was held from 3:00 pm to 4:15 pm. This round was judged by Dr.Vimal Gandhi, Dr.Avinash Deshmukh, and Dr.Jalesh Purohit. The teams had to randomly select from a set of problem statements and a team was given a total time of 12 minutes in which 10 minutes were for discussion and 2 minutes were for concluding their view on the given problem statement. The topics were: “Water Treatment Plant”, “Handling of Ammonium Nitrate”, “Solid Waste Disposal”, “Bhopal Gas Tragedy”, and “Nuclear Power Plant Disaster”. The teams were judged on the basis of team work, communication skills, and conclusion. The team of Kishan Patel, Dhruv Sapariya, Tank Pratik, and Yash Savjani from 3rd year of B.Tech in Chemical Engineering was declared the winner in the event. The team of Vasundhara Agarwal, Shuvam Mahapatra and Bhavya Kothari from 2nd year was announced as the runners up of the event.

The event was successfully managed by the event coordinators: Harshvardhan Chauhan, Abhay Katrodiya and Dhruvit Beladiya.

Chemo-Art: wins Hearts in its First Time.

-prepared by Vasundhara Agarwal

Date: 08/3/18

Venue: Narayan Bhavan, Dharmsinh Desai University,

Nadiad

Attendance: 201 students of FOT, DDU

Collision 2018, like every year was fruitful. It saw many events but one that stood out was Chemo-Art. 16 volunteers from second year came together with a very creative idea. The event saw massive participation of more than 200 students. Though not unexpected, it was heartening to see such a huge turnout for an event being held for the first time and that too being conducted by second year students. The event began early in the morning at 8:30 am in Drawing Hall 2 of Narayan Bhavan. The participants who had gathered were given a clue to reach a specified destination where another mystery was waiting for them in form of a QR code. 42 teams which took the least time to complete the sequence proceeded to the next round. The second round was a Group Discussion. With the topics being unconventional, not relating to technology or General knowledge, the discussion was very lively. Everyone, including the judges had a very good time. It was crucial as only 8 teams could qualify for the next round. The final round was a surprise for the participants and a unique event which had never been conducted before. The participants had to fill colours in the carvings on a thermocol sheet given to them. The carvings were in a shape of felicific 2018 and the colours to be filled were made of chemical agents like indicators and salts. The last two rounds were judged by Prof Rignesh Patel, Prof Chirag Patel, Dr Anju Chaudhary and Dr Arup Ghosh. After having a lot of fun and breaking a little sweat, Patel Akshar and his team from semester 2 won the event, Ashmika Karnik and her team from semester 2 bagged the second prize and third position was secured by Vagadiya Jatin from semester 2. From inception to the execution Chemo-Art proved to be a very successful event.

TECHNOTALK: The Pinnacle of Collision.

Prepared By: Navjyot Singh

Date: 7-8th March 2018

Venue: MULTIMEDIA HALL, FoT, Dharmsinh Desai University, Nadiad

Attendance: 200+ students of B.Tech Chemical Engineering, Dharmsinh Desai University, Nadiad.

For the Phase-2 of the TECHNOTALK we had Mr. Anil Trivedi and Mr. S.B Chauhan in which Mr. Anil Trivedi who gave an enlightening speech on Safety Aspects in Fertilizer Industries by first introducing us to various types Fertilizers followed by the need of fertilizers in day to day life and the mandatory PPEs which one should be always equipped with if he/she is in the Fertilizer Plant.

To conclude the event of TECHNOTALK we had Mr. S.B Chauhan who shared his jaw dropping life experiences through which he explained how a safety engineer's thought process should work in the time of crisis for example he shared a situation which took place in an industry in Thailand where the chemical engineer mistook 60 mmHg vacuum reading as the total pressure inside the reactor instead of taking 760mmHg – 60 mmHg as the total pressure which resulted in the choking up of the vessel in almost 2 minutes.

Chem-illusion.

By: Vedang Trivedi

Date: 8th March 2018

Venue: Chemistry Department, FoT, Dharmsinh Desai University, Nadiad

Attendance: 12 students of FoT, DDU

The purpose of this event is to enhance the knowledge of participants about complex chemical reaction in which they have to perform one chemical reaction with proper justification and form some innovative product, so we named this event as chem.-illusion. The event was comprised of one round. The event was started at 2:00 pm. All participants performed their chemical reaction with occurrence of illusion. There were many processes like elephant toothpaste reaction, golden eye reaction, separating layer reaction, sparkling stars reaction etc. The participant was judged on the basis of their illusion skills, effective justification of their complex chemical reaction, how safely they performing the reaction and at last judge asked some question related to their reaction. The whole event was judged by our honorable faculty members of chemical department Prof. Mihir Shah, Prof. Nirav Bhavsar, Prof. Charmi Varia and Prof. Aneri Tamboli. The team of Mrunal Sheth and Sufiyan Ahemdabadi from 4th year ,department of chemical engineering was declared the winner of this event. At last the event concluded successfully at 4:00 pm. The event was successfully managed by technical coordinators Vedang Trivedi, Dhvani Modi and Monil Modi.

IICHE, DDU Branch Organizes A Visit To GACL

Learning is a process for which knowledge is the result. Everyday is a new experience from which we learn to be better than yesterday. But, this growth is gradual. Taking a step towards a better tomorrow, the Chemical Engineering department of Dharmsinh Desai University, Nadiad; arranged for an industrial visit to GACL (Gujarat Alkalies and Chemical Limited) on the 21st and 22nd of March, 2018. A total of 45 students were taken to the site on each of the two days. The students were accompanied by Prof. Siddarth Modi and Prof. Hitesh Panchal on the first day; and Prof. Pratik Soni and Prof. Dhrumil Gandhi on the second day. The visit was organized by IICHE committee members with the support of IICHE student council.

After reporting at the site, the students were shown a short video about the company's product, its use and the layout of their premises. They were then led inside the company to view the actual process. The instructor explained to the students how the raw material (NaCl) is mixed inside a tank to form a mixture; which is then sent through various purifiers to remove impurities. The concentration of the product is increased through electrolysis, performed using membranes. Further increase in concentration is achieved by evaporation. The final product is then sent for storage in tanks. It was not only a very informative experience, but also provided the students with an insight to the working of an industry.

Date : 24/07/2017

To,
The Dean,
FoT,
DD Uni.

Subject : permission to conduct a seminar on "Current Trends and Advanced Technology" for students of IT

Respected Sir,

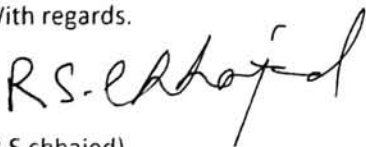

Department of Information Technology has started a new practice to motivate students to go for adoption of knowledge beyond the Curriculums. We found students are more effective if they deliver the content rather than faculty. In month of April, few students came forward (few of them who reached to finals of E-Yantra competition) and we started a group called "IT-Talks" and motivated the students to take interest in development of new project ideas / learn new technologies.

We have planned a seminar on "Current Trends and Advanced Technology" for students of IT under "IT-Talk" on 25/07/2017 at 3:30 PM in MMH. The following topics will be covered :

1. Big Data
2. Word Press
3. Machine Learning and Deep learning
4. Beacons Technology
5. Mixed Reality in Education
6. IoT
7. Blender
8. Cloud Computing
9. Virtual Reality

Kindly permit.

With regards.

(R.S.chhajed)

DDU-IETE Students' Forum Activities
Department of Information Technology,
Dharmsinh Desai University, Nadiad, Gujarat, India

DDU-IETE Student Forum organized a workshop on “Application Development on Android Platform” on 19th August, 2017. Experts (Mr. Nilesh Madhudia, Mr. Tejas Mehta and Mr. Hardik Muliya) were called from Mastercard Pvt. Ltd., Baroda, Gujarat to deliver the workshop. Following topics were covered by the experts: Activity lifecycle, Fragments, basic views / layouts, Emulators and other tools (hierarchy viewer, debugger etc.), Database – SQLite – basics, Services – basics. The workshop was attended by 61 students of Faculty of Technology, D. D. University. Prof. R. S. Chhajer (Head, I.T. Dept., D.D.U.), Dr. Vipul K. Dabhi (Co-ordinator, DDU-IETE Students' Forum), Dr. Harshad Prajapati, Prof. Sandeep Suthar, Prof. Anand Dave and faculty members of IT Dept. also attended the workshop.

Figure 1 Mr. Tejas Mehta and Mr. Hardik Muliya (Master Card Pvt. Ltd.) explaining concepts of Android

Figure 2 Mr. Nilesh Madhudia , Mr. Tejas Mehta and Mr. Hardik Muliya (Master Card Pvt. Ltd.) giving demonstration of Application Development on Android Platform

Subject: A Seminar on Digital Transformation: The Future of IT by NIIT Vadodara
From: Nayan Bajaniya (Nayan.Bajaniya@niit.com)
To: rschhaged2000@yahoo.com;
Cc: Sanjay.Mali@niit.com;
Date: Friday, September 15, 2017 3:24 PM

Dear Prof. RS Chhaged Sir,
Greetings!

It was a nice talking with you. Further to our meeting in in this week, for Digital Transformation & BJS-2017- A National Level Aptitude Test by NIIT, for your College students . The backbone of a student's career is college education of that student. College is the place where a students lay the foundation of their professional career. And that is why every college is known for their successful Alumni and takes pride in them.

As NIIT pioneered the category of IT Training & Banking Training in India way back 1981. Having trained over 35 Million people in IT and 50000+ Banking students over the last 34 years, we have expanded our expertise to other sectors as well have been instrumental in creating a trained workforce as per the evolving industry needs. With our keen understanding of the changing skills requirement in organizations, we are now focusing on creating a talent pool armed with digital & futuristic skill-sets requirements in digital technologies required by the IT industry.

NIIT takes pride in being associated with most of the colleges in the country to add value to their student's education, and to further enhance their professional career and increasing their employ ability.

Taking our relationship forward, we would like to introduce "Digital Transformation: The Future of IT" to your students. For this, we seek your permission to conduct a seminar on the same and provide useful information to your students that might benefit them in shaping a bright career for themselves.

As a part of statewide DT career awareness campaign, we wish to host a seminar on "Digital Transformation: The Future of IT" and

We wish to conduct tomorrow for your IT students as we are conducting for BCA students also on tomorrow 10:30 am. Pls confirm for your students also.

Seminar will cover :

- 1.What is Digital Transformation ?
2. What are the DT Technologies & Its Importance in current Digital Age?
- 3.Current IT Scenario.

No	Particular	Duration (Min)
1	1.What is Digital Transformation ? 2. What are the DT Technologies & Its Importance in current Digital Age? 3.Current IT Scenario.	45
2	Student Interaction (Q & A)	10

Seminar Conducted by -Mr. Sanjay Mali

We look forward for to a meaningful discussion during the seminar, while talking the next step and strengthening our relationship further.

For any clarifications you may reach me directly.

Thanks & Regards,

Nayan Bajaniya
